On motion of Mr. *Campbell*, Resolved, that an humble address be presented to His Excellency the *Lieutenant-Governor*, stating, that the House of Assembly have learnt, with surprise and regret, that bonds are taken at the office of the Deputy-Surveyor of Woods, for one shilling per ton on all Licences to cut and manufacture Pine Timber, in this Province---which measure must prove highly injurious, and, if persisted in, ruinous to the Timber Trade of the Province.---And praying, that His Excellency will be pleased to inform the House, if any recent instructions have been received from His Majesty's Ministers, requiring such bonds to be taken; and that He will also be pleased to inform the House, to what purposes the large sums arising therefrom, are to be appropriated.

A Bill "further in addition to the Acts now in force, for the encouragement of Schools in this Province." and

Mr. *Pagan*, from the standing Committee to examine and liquidate private and public accounts, further reported, that

R, is James Brittain's report, with account, vouchers, and affidavit, as Supervisor on the road between Gage-Town and the Devil's Back.

He charges the sum of £34 : 7 : 8, being the balance due to him per his report in 1817; also £256 : 15 : 10, expended in 1817 and 1818.---In which sum is included £8 for his services, in attending to the alterations of the road near the Oenabog, and to the statute labour in opening the same, and to some contracts of 1817 which had not been completed.---The whole making £291 : 3 : 6.

He credits the sum of £283 : 6 : 8, received in 1818 out of the Treasury, in Treasury notes---leaving a balance in his favour of £7 : 16 : 10.

He states, that in consequence of his being obliged to take Treasury notes, which he could not get labour for in payment without a great discount, he has been prevented from completing the frame part of the bridge over Richard's Creek; and that the Contractors for the other work, to the amount of £92 : 2 : 6, decline taking notes in payment---which, therefore, remain in his hands. He has received no warrant for the grant of 1818.

S, is report of Caleb Wetmore, one of the Supervisors for the road from Saint John to the Finger-Board, accompanied with account, vouchers, and affidavit.

He states, that the previous sickness and death of his colleague, occasioned the care of a large district to fall under his charge, that the principle work was done in 1818, a great deal of it by days' work, which required his personal attendance. That he has removed the great difficulty complained of by the Inhabitants of Sussex Vale, the improving that road through very rocky country. That the amount of expenditure, more or less, between the Ferry and Finger-Board, is £348 : 10 : 6---and the sums expended on the same road, in 1817, is £153 : 4.---In which sums is included £45, charged for his services.---These amount to £501 : 14 : 6.---two specific grants were made for £525---leaving the sum of £23 : 5 : 6 unexpended.

He states, that owing to the Treasury notes not passing at par, and his not receiving a warrant for any part of the grant for 1818, he has been put to great inconvenience and difficulty to comply with his engagements; and it being indispensibly necessary that he should give his personal attendance to the work, he trusts that his charge of £45 will be allowed.

He represents, that the sum of £125 will probably be wanted to complete the road above the Ferry---the sum of £25 to repair the road between the Settlement near the Kennebeckacis and Stewart's corner---and a further sum will be wanted between the Ferry at Golding's and the City.

He states, that an alteration of about 50 rods appears absolutely necessary in the road near Humphry Bull's, to avoid a hill and streighten the road---which will cost about £15.

T, is Benjamin Wilson's report, with account, vouchers, and affidavit, as one of the Supervisors for the road from Fredericton to the Missiguash.

He states, that he has continued to make improvements on the road, by turnpiking and repairing---That he has contracted for timber for a bridge over the Tantamar river, in Sackville, which will cost about £100---That he finds it will be necessary to build a new bridge over Fox Creek, which will cost about £40---That he is to pay £45 to the Commissioners of Sewers for Sackville---and that he has paid several sums for labour, for which he has not yet had opportunity to get receipts.

He represents, that £800, in addition to the balance in hand, will enable him to put all the bridges and roads in a comfort-
