LOST, between the house of William Porter and Edward Adams, on the River Miramichi, and Mr. Smith's on the Portage, Six Notes of Hand. One order of one of said Notes amounted to £23, drawn in favor of Daglin Clousy, which was indorsed to me, and a note against Aron Hovey, which was £3:11:6, and a note against Byron Sutor, which was £4:6:8—three of said Notes were sued, which were held against William Harris, and the order was 15s. given by George Elles. I caution all persons against purchasing said notes, as I am determined to exact the full amount. Any person finding said Notes, on leaving them at the Royal Gazette Office, or at Mr. Wetmore's office, Fredericton, will be handsomely rewarded. **MICHAEL O'CUNNINGHAM.** Ludlow, July the 9th, 1820.

PERSONS in Miramichi and the neighbouring places, who stand indebted to the Subscriber, are requested to make immediate payment, as no further lenity will be shewn them.

It is satisfactory in this place to state the encouragement that has been given to the Institution by the Grants that have been ordered to be made by HIS EXCELLENCY THE **LIEUTENANT GOVERNOR**, by and with the advice of HIS MAJESTY'S COUNCIL, from time to time, viz.

For the benefit and support of the Central School, a lot escheated to the Crown for failure of heirs, adjoining to the lot purchased for the erection of the School House thereon, four lots in Duke-street, escheated for a like cause, with the buildings thereon, and regranted to Mr. HENRY GARDNER, who had an equitable claim thereon, upon his offer to pay to the Corporation the sum of Two Hundred Guineas, mentioned in the Treasurer's account as received from him.

The Shag Rocks, so called, lying near the mouth of the harbour of St. St. John: This Grant has not been hitherto productive on account of a restrictive clause in an Act of Assembly, which, from its inefficiency will probably be repealed.

For the Benefit and support of the Madras School at St. Andrews, in the County of Charlotte, a part of the Town plot there, on the South West side of Water-street.

For the benefit and support of the Madras School in the Parish of Hampton, in King's County, 400 acres of the reserved land in that Parish.

For the benefit and support of the Madras School in the Parish of Springfield, in King's County, 400 acres of the Crown lands in that Parish.

The present state of the Madras Central School as reported by Mr. BRAGG, on the 1st July, 1820.

present number,

It has however been found, that notwithstanding every practicable exertion to collect the sums above specified there has been a deficiency and consequent loss of at least one third part; so that even in the present pros-

perous state of the School, the tuition money cannot be depended upon, as a source of income, for more than £200.

There appears to be a competent supply for the present, of the necessary books and School apparatus, in the Treasurer's hands.

During the last winter the Floor of the Central School has been divided into two parts for the accommodation of the Children of different sexes, but the number of boys in daily attendance has so greatly increased, that it is found that the whole Floor will hereafter be required for their accommodation; it has therefore been thought expedient to appoint a Committee to make the requisite inquiries and report a proper place for the erection of a suitable building for the accommodation of the female Scholars, together with a plan and an estimate of the expense of a building for that purpose.

It having been thought highly expedient that some means, of instruction should be provided for the Children of People of Colour, whose education appears to have been hitherto altogether neglected, a Committee has been appointed to confer with HIS EXCELLENCY THE **LIEUTENANT GOVERNOR**, at his request, upon the measures proper to be adopted for the effecting of so desirable an object.

The Governor and Trustees are aware that the execution of these purposes must be attended with considerable expense but they feel it to be their duty, without delay, to resort to all the means in their power to accomplish them, in full confidence that the aid of the Provincial Legislature will be hereafter extended in reimbursing to them such expenses as may be unavoidably incurred in the prosecution of undertakings which appear to them so useful and important.

It has been thought advisable that arrangements should be made for a public meeting annually of the Children belong to the Central School, which the Children belonging to other Schools should be invited to join at Trinity Church, in this City, on some convenient week-day to be appointed for that purpose, at a suitable season of the year, on which day, a Sermon should be preached and a collection made for the benefit of the Central School, and to this end the Church Wardens of this Church have been requested to make such arrangements for the present year on the first Tuesday in August next; on which day the Rector has been requested to preach a Sermon preparatory to such collection.
