LEGISLATURE OF NEW-BRUNSWICK.

[Extracts from the Journal.]

Thursday, 6th March.

Mr. *Simonds*, from the select Committee to whom were referred the Message of His Excellency the Lieutenant-Governor, of the 2d March instant, and the communication accompanying the same, transmitted by the Lieutenant-Governor of Nova Scotia, relating to the grant of money by the Legislature of this Province, towards the support of the Light-House on Briar Island—reported,

That the Committee have reason to believe it was in consequence of the numerous and well founded complaints of Mariners and others with regard to this Light House, that no grant was made toward the support of it by the Legislature of this Province in the Session of 1820, as had been done the two preceding years. These complaints were occasioned as well by the imperfect construction of the Lantern, from which it often happened that the light could not be distinguished far enough to be of any service to vessels coming into the Bay of Fundy, as by the gross negligence and inattention of the Keeper, in not keeping the light in proper order. It is evident that circumstances like these must altogether destroy the benefit of the light, and even tend to make it fatal to vessels running for the land, since in expectation of making the light, they might find themselves on the rocks before discovering it ; and this has actually occurred in more than one instance.

Your Committee are fully aware of the essential importance of a good light on Briar Island, to the safety of the navigation of the Bay of Fundy, and consequently to the commerce both of New-Brunswick and Nova Scotia ; and they think it highly proper and expedient, that an annual sum should be contributed by this Province towards the support of this light, if the government of Nova Scotia will take care to have it kept in such

a way as will answer the beneficial purposes intended by it.

It appears to your Committee from the information which they possess, that the evil complained of with regard to the Lantern, would probably be remedied if a gallery was erected around it, so that the snow might be cleared from the glass in the winter ; and they are also of opinion, that in order to insure the light being kept in proper order, a competent salary should be given to some trusty person, who should give sufficient security for the faithful discharge of his duty, to attend it ; the practice that has heretofore prevailed of hiring it out to the lowest bidder, having undoubtedly led to the negligence in this respect which has been so generally and so loudly complained of.

Under all the circumstances of the case, your Committee think it advisable that the accustomed grant towards the support of this Light-House, both for the past and for the present year, should be made at this Session ; in full confidence that the Government of the Sister Province, upon a proper representation being made to it, will adopt measures to remove the complaints above referred to, and to make this light a more effectual protection for navigation in that quarter. To this end your Committee beg leave respectfully to recommend to the House, that a copy of this report be laid before His Excellency the Lieutenant-Governor, with an humble Address, praying that he will be pleased to transmit the same to the Lieutenant-Governor of Nova Scotia.

Wednesday, 7th March.
