PROSPECTUS
OF A
Weekly Newspaper,
TO BE CALLED THE
"Newcastle Herald,"

And to be published by E. A. MOODY, at Newcastle, every Monday morning.

IN common with the rest of the Inhabitants of Newcastle and the vicinity, the proposer suffered losses from the disastrous Conflagration, which disabled him from proceeding in the establishment of a Weekly Paper; for which he had settled there, and embarked all his little capital and resources—Having been the first to project the accomplishment of an object so useful to the public of Miramichi, in the County Town; and having experienced the liberality and kindness of the inhabitants of Newcastle, Chatham, and other neighbouring places, in the readiness with which they then subscribed to the undertaking, he confidently trusts that the remembrance of his exertions, well-meant however unfortunate, and the recollection of their common sufferings, will be inducements of some weight in favour of his present views.

A very respectable journal having since been set on foot at Chatham, it might be argued that this circumstance had entirely superseded the necessity and utility of another paper in the same district; but while hopes exist of re-edifying Newcastle, and restoring it to its previous importance, the best mode of effecting the desired end, will be to encourage the institution of those establishments which characterize a flourishing town, and to give every facility to the diffusion of commercial and agricultural information. As the shire town, much of the business of the country around must centre in it; and all the natural advantages of situation forbid the indulgence of gloomy and unhappy anticipations as to the future prospects of Miramichi.

Besides these reasons, competition, which is the soul of every business, laudable and generous emulation is as conducive to the public interest as it is instrumental in compelling individuals to the fullest development of their energies, and the most unremitting application of their talents. The increase of Journals gives more room for the fair and free discussion of the wants and habits of society, and secures a more candid and unbaissed conduct in the Editorial demeanor of those who are entrusted with their management. In this instance, as the proposer will publish on a different day of the week from that on which the Mercury appears, intelligence of every description will be transmitted with greater rapidity to the community than it can be while but one weekly paper is distributed in the county.

In requesting of those, whose hospitality and generous public spirit led them to patronize the publisher in his first essay, to renew the same disposition towards him he cannot omit the opportunity of thanking them in the most heartfelt manner for the invariable kindness, which, (though a stranger and a native of another province,) he experienced from them As he is at this moment procuring by every exertion the materials required in re-establishing his press, and depending chiefly for the success of his plan on the number of subscriptions which he may receive, he can never forget the kind treatment he met with at Miramichi; and his regret, at the sufferings he encountered there, is augmented by the circumstance of his present separation from friends so sincere

The HERALD will consist of selected matter from foreign and colonial journals, magazines &c &c. and such original communications, remarks, &c as shall not contravene the rules of decorum, or infringe on the laws The greatest possible care will be taken to avoid any thing offensive to religious and moral feeling, and every attention devoted, to give such useful and interesting contents as will render it a vehicle both of information and amusement—He expects soon to be at Newcastle, and contemplates the commencement of his Paper to take place on or about the first of July next, if he should be encouraged to go on. In the mean while subsriptions will be received by the following gentlemen:—

At Newcastle, by Mr. T. C. Allen; at Chatham, by Mr. Caleb M'Culley; at Richibucto, by Mr. Winckworth Allen; at Bay Verte, by Captain Crane; at Saint John, by Mr. Henry Chubb; at Fredericton, by Mr. Roberts; at Bay Chaleur, by ; at Bathurst, by ; at Charlotte Town, P. E. Island, by Dr. Dalrymple; at Halifax, by Mr. P. J. Holland; and at Pictou, by Wm. Romans, Esq.

The Terms will be—4 dollars per annum, payable half in advance, on the receipt of the first number;—advertisements will be inserted at the usual prices.

☞ BEWARE OF IMITATIONS. ☜

THIS article is now, beyond all dispute, considered by every Physician of extensive practice in the United States as the best known external remedy in all cases of Bruises, Sprains, Gout, Rheumatism, Cramp, Numoness, Stiffness of the Neck or Limbs, Chilblains, Chapped Hands, Stings of Insects, Vegetable Poisons &c.

The use of this celebrated remedy is not confined to the American States. Orders for it are constantly received from South America, the West Indies, Nova Scotia, Lower Canada, and in one instance orders were received from England and Russia.—In a late letter, to the Proprietor from St. Salvador, the writer observes, "Your Opodeldoc begins to be well known and fully appreciated," &c.

Certificates have been received, sufficient to fill a column of a paper. A few only of the first respectability are attached to the directions—among which is one from a Physician of the highest grade in Europe or America.

☞ *Pause before you Purchase.*

No one circumstance can more fully prove the value and great demand for this Medicine, than the numerous servile and contemptible imitations in existence—some have so closely imitated the stamp and type of the outside wrapper, as to be difficult of detection, except only by the omision of the NAME. Therefore, as you value you Life or Limb, be sure to ask for and receive

Whitwell's Opodeldoc

only, or you may be most wretchedly imposed upon.

At the same place may be had, the

Aromatic Snuff,

celebrated throughout the American Continent, in cases of Catarrh and Headache, Drowsiness, Depression of Spirits, Vapors, Dimness of Eye-sight, and all disorders of the head. From its most fragrant and grateful quality, it completely counteracts the effects of a bad atmosphere, and being greatly antiputrescent, is indispensable for all who watch with or visit the sick.

The Opodeldoc,

is recommened by Dr. MITCHELL, of New-York, M. D. L. L. D. Professor of Botany and Materia Medica in their College of Physicians: The SNUFF, by Dr. WATERHOUSE, Professor of the Theory and practice of Physic in the University of Cambridge.

The above articles, warranted Genuine, will constantly be kept on hand by SAMUEL KENDALL, jun. who is appointed Agent for the Inventors.

Fredericton, 25th April, 1826.

Instruction in Canada.—The friends of the long-neglected Indians and destitute settlers in canada will doubtless rejoice to hear, that a Society was formed on Friday in this city to aid the efforts of the Institution recently established in London, by the name of the Society for promoting education and industry among the Indians and destitute settlers in Canada. For the patronage which the Society has received in London and other parts of the kingdom, there is reason to hope that it will meet with that encouragement in this city which it deserves.

The Lord Provost, Dr. Inglis, Dr. Brown, Dr. Davidson, Dr. Campbell, and many other respectable names are among the benefactors.—*Edin. March* 15.

The Army.—We have much pleasure in announcing to the army, and the friends of the 50th regiment, that this old and distinguished corps, is ordered home from the West Indies, where it has served for the last seven years.
