LEGISLATIVE COUNCIL CHAMBER,
Fredericton, N. B. 28th January, 1840.

This being the day appointed by Proclamation for the meeting of the Legislature His Excellency the Lieutenant Governor came in State to the Council Chamber, and having commanded the attendance of the House of Assembly, His Excellency was pleased to open the Session with the following

SPEECH:

Mr. President and Honorable Gentlemen of the Legislative Council,

Mr. Speaker and Gentlemen of the House of Assembly;

When I reflect upon the many unequivocal manifestations on the part of the inhabitants of this loyal Province, of their anxious desire and firm determination to remain in indissoluble connexion with that glorious country, 'Our Parent State,' under the shadow of whose protecting power they feel themselves in the enjoyment of a degree of rational liberty, which has probably never been attained under any other than British Institutions,—it is with, if possible, an increased degree of pride and satisfaction, that I again meet you in Provincial Parliament for the purpose of co-operating with you as the Representative of a gracious and beloved Sovereign, to whom the happiness and prosperity of all classes of Her subjects are dear, in the consideration and adoption of such measures as may, in our concurrent judgment, tend to increase that happiness—to promote that prosperity and to call forth the varied resources of this highly favored portion of Her Majesty's Dominions.

Upon the actual condition of the Province, I rejoice in being enabled to offer you my hearty congratulations; its Trade, and consequently, its Revenues and Financial affairs are flourishing beyond any former period. The unavoidable increase in the expenditure of the past year, owing to the proceedings of a neighbouring State, has been happily met by a corresponding increase of the Revenue; accordingly, I have the satisfaction of informing you that every demand upon the Provincial Treasury, arising out of the emergency to which I have adverted, has been fully met, under your appropriation, by the Surplus Revenue of the current year, without imposing upon me the necessity of disturbing those for other services. The product of the Harvest, though not perhaps quite equaling the sanguine expectations which were at one time entertained, has yet been such as to leave our valuable agricultural interests without any reasonable ground of complaint,—in a word, there is nothing in the internal condition of the Province to cause regret or anything in its external relations to excite uneasiness or alarm.

I now proceed to advert to the ordinary business of the Session, and I know not that I can do this better than by recalling to your consideration some of the Topics referred to in my Address to you at our last Annual Meeting,—adding such observations as change of circumstances may appear to render necessary or expedient.

With regard to the "Great Roads," my impression remains unchanged as to the advantage of committing the care and superintendence of them, if only as an experimental measure, to Salaried Officers appointed by and responsible to the Executive Government, as the best mode which has occurred, or has been suggested to me, of ensuring uniformity in the System of their Construction and repair, as well as Economy in the outlay connected with this very important branch of the Public expenditure. With regard to that leading to Lower Canada

I invite your attention to the Report from the Supervisor which will be laid before you, and by which you will, I trust, find that the sum which your liberality placed at my disposal in the improvement of that very important Line of Communication, has been usefully and judiciously expended, and the views and recommendations of Her Majesty's Government, with reference to the proposed improved Post Communication between England, Halifax and Quebec so far carried out:—A further appropriation will, however, be requisite for the completion of this Road, as well as in aid of the passage of the Mails across the Bay of Fundy—which I accordingly recommend to your favorable attention.

With reference to the "Coast and Harbour Fisheries," I have received from the zealous and intelligent Naval Officers, who have been lately employed in their protection, several valuable practical suggestions, which shall be communicated to you, and I rely upon your extending to this valuable branch of the Provincial Resources, all due encouragement and protection.

A Despatch from Her Majesty's Colonial Secretary of State will be communicated to you, upon the subject of an Exploration by a properly qualified Civil Engineer, of the best line for a Canal to connect the Bay of Fundy with the Gulf of St. Lawrence. On the subject of the Expense which may attend this Exploration, I am ready to communicate with His Excellency the Governor General and the Lieutenant Governors of the Sister Provinces should such be your wish.

Representations which have reached me from the Sheriffs, as well as the inmates of some of the Prisons of the Province, have induced me to institute Enquiry, which has satisfied me that their improvement as well as that of the condition of the incarcerated Debtor, calls for the interposition of a humane Legislature—Documents connected with these views will be laid before you.

Persuaded as I am, and as is the Queen's Government, that in no part of Her Majesty's North American Colonies are the interests of the Aboriginal Inhabitants of the Country more humanely attended to than in New Brunswick, it is only necessary for me to remind you that the present season has been hitherto adverse to their pursuits, and to recommend them to your compassionate protection.

I feel that I ought not to refrain from again inviting your attention to those interests upon which the ultimate Prosperity of New Brunswick appear to me to depend, in a far higher degree than either upon its Timber or Mineral Treasures, valuable and apparently exhaustless as are the latter—I refer to those of Agriculture;—of the most proper mode of giving encouragement to these interests, you will yourselves be the fittest judges.

As intimately connected with this subject, I would request your attention to a Communication which has been addressed to me by an Association composed of Individuals of high station, wealth and influence, called the "North American Colonial Association of Ireland" (and of London), who profess themselves desirous of acquiring Land in this Loyal Province, and of co-operating with its Legislature and its Government in the introduction into it of a valuable Class of Settlers, under fixed and well considered Regulations, and upon receiving from the Province such reasonable aid and encouragement as it may be disposed to offer in promotion of this most important object. The high price of labour, owing to the insufficiency of its labouring Population, which prevails throughout the Province, is confessedly cramping the enterprise and exertions, and otherwise operating most injuriously upon its Commercial and Agricultural Interests, and this consideration would alone appear to me to offer sufficient inducement for entertaining a proposition which I understand to go to the extent of ensuring a regular and adequate supply of that valuable Class of our fellow Subjects, to whom encouragement and assistance is proposed to be given to enable them, whenever so inclined, to settle upon Lands of good quality, to be previously selected and purchased by the Association for that purpose. I cannot too strongly recommend this Proposition, and the subject of "Immigration" generally, to your serious and favourable attention, under the conviction which I feel that by no other measure can the Prosperity of the Province be more certainly and rapidly advanced, than by the judicious outlay of capital in the introduction of a respectable Class of Emigrants.

I have deemed it to consist with my duty to the Province to cause several of our frontier battalions of Militia to receive a certain degree of training, during the past summer, which has been done in a manner highly creditable to the officer whom I selected for the performance of this useful service.—Five thousand of our militia have had the benefit of this training—and I rely upon your liberality to enable me to continue a system of instruction which, while it affords satisfaction and confidence to the militia themselves, has the effect of greatly increasing the efficiency of that loyal, brave and constitutional force,—for a limited number of which I have also felt it proper to cause provision to be made of suitable Uniform Clothing of good quality, in order, in the event of any emergency occurring, to guard against the inconvenience and suffering to which some of them were exposed during the last winter.

There are other matters upon which I will communicate with you by message.

Mr. Speaker and Gentlemen of the House of Assembly,

I have given directions for full and detailed Accounts of all Receipts of the Public Revenues, as well as of the Expenditure under the Acts of Appropriation and otherwise, to be laid before you, and I rely with unabated confidence upon your disposition to make all due Provision for the Exigencies and probable contingencies of the Public Service during the ensuing year.

Mr. President and Honorable Gentlemen of the Legislative Council,

Mr. Speaker and Gentlemen of the House of Assembly,

I will not conclude this address without expressing to you the confident expectation which I entertain that the result of the exploration of certain parts of the Disputed Territory which has been recently made by Commissioners appointed by Her Majesty for that purpose, will enable Her Majesty's Government to advance such propositions to that of the United States, as the Basis of the settlement of the momentous question involved, as must lead to its early, amicable and final adjustment. In the mean time I would express my hope that sentiments of moderation and forbearance may prevail on either side.
