#### LECTURES ON GEOLOGY.

Under the Patronage of His Excellency the Lieutenant Governor, Sir JOHN HARVEY, K. C. B. & K. C. H.

By A. GESNER, F. G. S. PROVINCIAL GEOLOGIST.

TWELVE LECTURES on the interesting and important Science of GEOLOGY; to embrace a succinct account of the history, structure, and different formations of the earth, and many of the animal and vegetable remains found in it; a view of the globe as forming a part of the solar system, the changes it has undergone through various natural operations, since it was first made to revolve in the heavens; and the catastrophes it has suffered since it first became the abode of life.

The importance of the Science, as applied to the discovery and use of mineral substances, will be adverted to. Each class of rocks will be considered separately, from the lowest granite, up to the newest alluvium; and specimens of each kind will be exhibited.

A great number of once living animals and plants will be shown in the order in which they occur in the different formations, whereby it will be seen that whole races have long since become extinct, and that others have succeeded them.

Each lecture will be demonstrated with large drawings, sections, and maps, and with a great variety of foreign and Provincial specimens of minerals and fossils.

The Geology of New Brunswick will be duly attended to; its different classes of rocks and minerals will be offered for inspection, so far as they have been discovered. A very large and beautiful Geological Map of New Brunswick, with the fossils discovered in this Province, will also be exhibited; the whole being intended to illustrate a system of Geology adapted to this part of North America.

Price of Family Tickets for the whole Course, 20s.; Single Ticket for ditto, 10s.; Ticket for Single Lecture, 2s. 6d.

The Lectures will be delivered in Messrs. BECKWITH'S Building, on Monday, Wednesday, and Friday, in each week, at Eight o'clock in the evening, to commence on Friday the 29th January, 1841.

#### THE HALIFAX MORNING POST.

And Parliamentary Reporter.

By J. H. CROSSKILL, No. 13, HOLLIS STREET, HALIFAX, N. S.

IT is now four months since the publication of this paper was commenced, and during that short period, it has become established in character and circulation in Nova Scotia and in many portions of New Brunswick.

It transmits regularly, by every mail, to all places in both Provinces, the latest and most important intelligence on all subjects interesting to the Colonies or the Empire at large. Four hours after the arrival of the Cunard Steamers from England, there is issued from this office an extraordinary sheet, containing THE NEWS, which is thus sent by the same conveyance that carries the English Mail, to the towns at a distance from the Capital, — to New Brunswick, to Prince Edward Island, and to the United States of America: so that the Subscribers to this paper receive the English news free of extra charge, earlier than it can be obtained through any of the ordinary channels.

NEW BRUNSWICK.—Once every week the Morning Post publishes a letter, replete with wit and information, from a talented correspondent in St. John—whose graphic sketches of society, and humorous descriptions, are universally admired, while they are increasing the esteem in which the Morning Post is held in New Brunswick, and extending its circulation among her inhabitants.

To furnish a correct Report of the sayings and doings of the Parliament of Nova Scotia, is one of the chief objects of this paper.

Immediately after the close of the Session, the proprietor of the Morning Post will commence the publication of a series of ORIGINAL TALES, POEMS, ESSAYS, and SKETCHES,—his desire being to encourage native genius, and to extend and beautify the walks of colonial literature. He trusts that this new and novel feature in the journal under his control, will secure for it as extensive and permanent a circulation, as it is humbly conceived, a paper on which so much labour is expended, is justly entitled to.

The Morning Post is mailed to Country Subscribers at the low price of Fifteen Shillings per annum, in advance; or it will be sent to any address, for one year and a half, on the receipt of a pound note in advance,—free of Postage.

The Sam Slick papers, third series, are now being republished in the Morning Post.

—ALSO—

ON CONSIGNMENT, a quantity of No. 1 HERRING, in lots to suit Purchasers.

#### SCORBUTIC OINTMENT.

THIS OINTMENT is made from a Recipe of the late celebrated Professor, JAMES HAMILTON, of Edinburgh, who was a member of that bright constellation of the Eighteenth century, which illumined the whole Medical World, and, in fact, there is scarcely a Physician of any standing or talent at present who has not been taught by them.

When Dr. Hamilton gave the writer of this his Recipe, he stated that an English Nobleman who had two sons sorely afflicted with ringworm, had sent them to London and put them under many of the most eminent Physicians of that City, without any benefit; he heard of his celebrity, and sent them to Edinburgh, and in a few months he sent them home perfectly sound by the use of the above Ointment.

This excellent Ointment is far superior to anything hitherto used, for those who are afflicted with eruptions of any part of the body, but particularly the young of both sexes, when they arrive at the age of puberty; they are often troubled with eruptions of the face, which are very obstinate of cure. The finest face may be injured and the countenance entirely destroyed by freckles and other skin diseases. The patient has only to use a box of the above Ointment with a box of the pills, to be convinced of the invaluable nature of both. Ladies who are bilious and their faces of a dark or yellow hue, will do well to use the Ointment and pills, as they will invariably turn the complexion to its proper colour and agreeable whiteness.

The above Medicines will never fail in inducing a healthy action of the whole frame, without which no person can enjoy a good state of health; in fact the very lustre of the eye, as also the muscles of the face are lost and destroyed in sickness. The old adage is certainly true "a sound mind in a sound body is surely preferable to any other situation in life," but to see the young, who shall always be gay and cheerful, suffering, and who cannot often go into company on account of some deformity of the face, is really dreadful in the extreme. In ulcers of the lower extremities (which is often the case in old people,) it will be found a valuable remedy.

Children afflicted with skin diseases of the head will find it answer better than any other application whatever; and in cases of bald head, the Ointment induces a healthy action of the scalp, when the hair grows beautifully.

The writer of this has been abroad for 25 years, and during that period he has never failed in one instance in making the most complete cures.

The Ointment and pills may be had at No. 6, Belvoir Terrace, Vauxhall Road, near the toll bar, Pimlico. All orders from the country punctually attended to by addressing A. B. Manson.

A work on the diseases of Children (addressed to Parents and Guardians of Children,) will be published in a few weeks, by a Physician of 25 years' standing, and whose practice has been very extensive amongst the young of both sexes. Also, two Works, one on Yellow Fever and the other on Asiatic Cholera.

The Advertiser has for sale 3,000 acres of fine Land in Nova Scotia, North America.

JOHN ADAMSON, M. D.  
London, 6 Belvoir Terrace, Vauxhall Road, Pimlico, November 24, 1840.

#### A CARD.

MR. JACKSON begs leave to tender his sincere acknowledgments to the respectable travelling community in this Province and elsewhere, and more particularly to the Gentlemen of Fredericton and its immediate vicinity, for the kind and liberal support they have afforded him during the time he has conducted his present Establishment in this place.

Mr. J. would not wish to make a parade about the principles upon which his Hotel is founded; but it is well known that he by refusing accommodation to any person that may present himself, unless he bears the impress of respectability, deprives himself of a great amount of profit. The grand governing principles of "JACKSON'S HOTEL" is "the accommodation of respectable persons," and the Proprietor flatters himself that this is fully carried out in the detail.

As it is in Mr. J.'s contemplation to close his present line of business the ensuing Spring, and to commence another here, he hopes to receive the patronage of a Community so well acquainted as this is with him; but should he still continue his services to the Public in his present line, he begs them to understand that he will do so upon a larger and improved scale.

H. JACKSON.
