THE following Regulations made by His Excellency the Lieutenant Governor in Council for granting and holding Mill Reserves, are published for the information of all persons interested.

THOS. BAILLIE, Sur. Gen.

23d June, 1845.—(6w)

1st.—That not more than 5,000 acres be reserved for each Gate.

2d.—No new Reserve to be granted, nor old Reserve continued, for a longer period than ten years, subject only to sale for actual settlement, but the same to be open for new applications at the expiration of the term for a continuation of the Reserve, upon good cause being shewn for preference to a renewal for the same Mill.

3d.—That no Logs or Timber of any kind be cut on the Reserves without Licence being granted and Mileage paid; and that every person holding such Reserves shall pay Mileage annually for not less than one tenth of the whole quantity so held, in default of which, he shall forfeit the Reserve.

4th.—That no Logs or Timber be cut or taken off any Reserve, except for the use of and manufacturing in the Mill for which the Reserve is made, on pain of forfeiture of the Reserve and of the Lumber so taken off.

5th.—That all present Reserves exceeding 5,000 acres to each Gate, shall be reduced to that amount, but the proprietors of the Mills for which such Reserves have been made shall be entitled to a preference to so much of the overplus as they may select and apply for Licence to cut on, as old ground; provided such application shall come in on or before the 15th day of October next.

6th.—That every person having a right to any present existing Reserve which exceeds the before mentioned limit of 5,000 acres to each Gate, shall be at liberty to select from such Reserve what part thereof he wishes to retain at the reduced rate, provided such selection be sent in to the Crown Land Office on or before the 15th day of October next, and when a Survey is necessary to lay off such selection, the same shall be made at his expense.

7th.—That in laying off Reserves provision shall be made for the Mills on the stream before any application for Reserves on the same stream for Mills elsewhere can be complied with.

8th.—That all applications for Mill Reserves must be accompanied with proof by affidavit that the Mill is in operation, and how many Gates it contains, and for how long it has been so in operation.

9th.—That whenever an application is made for a Reserve of Ground then under Licence, a Licence shall not be renewed until the question of the Reserve is disposed of.

10th.—In all cases where Mills are destroyed and not rebuilt within eighteen months from such destruction, or shall cease to be in operation for one whole year, the Reserve shall be subject to forfeiture, by Order of the Government.
