NOTICE TO MARINERS.

Floating Light off the Roman Rocks in False Bay.

Rear Admiral the Honorable **JOSCELINE PERCY, C. B.**, Commander in Chief of Her Majesty's Ships and Vessels on the Cape of Good Hope Station, hereby gives Notice, that, in pursuance of Instructions from the Lords Commissioners of the Admiralty, a Floating Light is moored off the Roman Rocks, in 7½ fathoms water, distant therefrom one cable's length, due North, (by Compass.)

It is a bright revolving Light, 37 feet above the level of the Sea, and may be seen in clear weather at a distance of 10 miles from the ship's deck. It will be lighted at Sun-set all the year round, and extinguished half-an-hour after day light.

The Light Vessel is painted Red, and during day light will hoist a Red Flag when a Sail is in sight.

The following remarks made by Mr. BROWN, Master of H. M. Ship *Winchester*, are hereunto subjoined for the guidance of Ships navigating False and Simon's Bay.

By Command of the Commander in Chief.

WILLIAM DYER, Secretary.

H. M. S. *Winchester*, Simon's Bay, 10th January, 1845.

Remarks for Ships bound into Simon's Bay.

The Light Vessel is moored on the North side of the Roman Rocks, and distant therefrom one cable's length. It is a Bright Revolving Light, 37 feet above the level of the Sea, and may be seen in clear weather at a distance of 10 miles from a Ship's deck.

From this Light the Compass bearings are—

Whittle S. S. E., distance 7 miles, on which there is only 12 feet water.

Millers Point, S. ¼ W., distance 4 miles.

Seal Island, E. ½ S., distance 6¼ miles.

Dock Yard Jetty, W. ¼ N., distance 1¼ miles.

Ships steering or beating into False Bay from round the Cape of Good Hope, will open the Light clear of Miller's Point, (which is the point 7 miles and ¼ from Cape Point, off which, but close to, are some Rocks above water,) when it bears N. ¼ E.; and if intending to beat up inside the Whittle, the Light should not be brought to the Westward of N. by W. ½ W., or to the Eastward of North, until you are certain of being within 5 miles of the Light, when you must be Northward of the Whittle, and may bring the Light, in standing to the Northward, to bear N. W. by W., working up towards her by short tacks, and passing to the North, leaving her on your Larboard hand, distant ¼ of a mile.

If outside the Whittle do not bring the Light to the North of N. N. W. ½ W. or to the Westward of N. W. by W. ½ W., on account of Seal Island, and the Rocks which lay off 1½ miles to the Southward; turn up by short tacks until you are certain of being within 5 miles of the Light, which will insure your being Northward of the Whittle, and may bring the Light in standing to the Westward to bear North. With a leading wind bring the Light to bear N. by W., you will be well inside the Whittle, and may run up keeping it on that bearing until within ¼ of a mile of the Light, when you must open it on your Larboard side, and round it not less than ½ a mile distant; when the Light bears S. S. W., steer in West for the Anchorage, and come to in 14, 12, or 10 fathoms according to the weather. If a fine night, you may choose a berth among the Shipping; if otherwise, anchor in an outside berth for the night.

Ships rounding Hanglip must bear in mind that the Whittle lies nearly in a direct line between that Cape and the Light Vessel, from which it bears S. S. E.; therefore, if coming up with a fair Wind outside the Whittle, bring it to bear N. N. W. ½ W., or N. W. and by N., and run for it.

These remarks are principally intended for Seamen not acquainted with Simon's Bay; of course, those who know the passage between Roman Rocks and Noah's Ark need not pass to the North of the former, but I would call their attention to the Phoenix Rock, and recommend their running for the Anchorage at all times by a bearing of the Light.

As I am aware of the great difficulty in judging of distances at night, and this Light Vessel being moored on the North side of the Rocks to protect her from the S. E. Gales,—I do recommend it as a fixed rule, that all Ships should at night pass to the Eastward, and haul round the North side of the Light Vessel.

If you pass to the Southward bear in mind the passage between Noah's Ark and the Roman Rock's is barely ¼ of a mile; and as the Light is to the Northward of these Rocks two cables' length, do not come within full ½ a mile of the Light; but I do not recommend this passage to strangers.

The following Compass bearings were taken from the Light Vessel,—

Miller's Point,	S. 8 W.
Outer Roman Rock,	S. 15 E. distant 100 fathoms.
Else Peak,	N. 5 W.
Noah's Ark,	S. 47 W.
Dock Yard Jetty,	W. 3 N.
Hanglip,	S. 23 E.
Seal Island,	S. 85 E.
Whittle,	S. 25 E.

J. BROWN,

Master H. M. S. *Winchester*.
