### GOVERNMENT NOTICE.

**T**HE Regulations for the granting and holding of Mill Reserves,  
ordered in Council in June last, having been in some degree  
modified, they are now published, as altered, for the information of  
all persons interested therein:—

1st.—That not more than 5,000 acres be reserved for each Gate.  
2d.—No new Reserve to be granted, nor old Reserve continued,  
for a longer period than ten years, subject only to sale for actual  
settlement, but the same to be open for new applications at the ex-  
piration of the term for a continuation of the Reserve, upon good  
cause being shown for preference to a renewal for the same Mill.  
3d.—That no Logs or Timber of any kind be cut on the Reserves  
without Licence being granted and Mileage paid; and that every  
person holding such Reserves shall pay Mileage annually for the  
whole quantity so held, in default of which, he shall forfeit the Re-  
serve.

4th.—That no Logs or Timber be cut or taken off any Reserve,  
except for the use of and manufacturing in the Mill for which the  
Reserve is made, on pain of forfeiture of the Reserve of the  
Lumber so taken off.

5th.—That all present Reserves exceeding 5,000 acres, each  
Gate, shall be reduced to that amount, but the proprietors of the  
Mills for which such Reserves have been made shall be entitled to  
a preference to so much of the overplus as they may select and  
apply for Licence to cut on, as old ground; provided such appli-  
cation shall come in on or before the 31st day of December next.

6th.—That every person having a right to any present existing  
Reserve which exceeds the before mentioned limit of 5,000 acres  
to each Gate, shall be at liberty to select from that Reserve such  
part thereof as he wishes to retain at the reduced rate, provided  
such selection be sent in to the Crown Land Office on or before  
the 31st day of December next, and when a Survey is necessary to  
lay off such selection, the same shall be made at his expense.

7th.—That in laying off Reserves provision shall be made for the  
Mills on the stream before any application for Reserves on the same  
stream for Mills elsewhere can be complied with.

8th.—That all applications for Mill Reserves must be accom-  
panied with proof by affidavit that the Mill is in operation, how  
many Gates it contains, and for how long it has been so in operation.

9th.—That whenever an application is made for a Reserve of  
Ground then under Licence, such Licence shall not be renewed  
until the question of the Reserve is disposed of.

10th.—In all cases where Mills are destroyed and not rebuilt
