

principle, and various applications from associated parties for Land to be sold on these terms were received, (vide Gazette, 17th Dec., same year,) on which surveys were made.

In the spring of 1842, trade having partially revived and ship-building been renewed, many of the people who had proposed to associate to form settlements in the wilderness rather than leave the Province, having again found employment at their respective callings, were unwilling, when the emergency had passed, to take possession and go on the lands prepared for them.

The consequence was, that the "Mechanics" and "Cork" Settlements only, were permanently located to any extent, the "Harvey" Settlement having been commenced in 1838.

The survey of other tracts, nevertheless, was of great advantage, as many of them have since been partially settled by individuals who have purchased allotments in them under the subsequent Regulations of the 11th May, 1843.

A very considerable increase is also yearly made to the quantity of new Land cultivated by emigrants and natives of the Province,

Statistical Return of the Harvey

Names.	Family.	Trade, independent of the occupation of Land.	Year in which he commenced business.	Quantity allotted, and original price.			Amount paid.		Amount still due.	Acres Land cleared.		Fixed Property.			STOCK.

The Harvey Settlement lies about 28 miles South West from Fredericton, on the Great Road to Saint Andrews. There are no Churches in it, nor lands reserved for that purpose. Two Schools. One Grist Mill. The produce raised is partly carried to Fredericton, and partly sold to Lumberers. There are about 10,000 acres of vacant unsold Crown Land, at no great distance from the Settlement. Amount expended by Government on Roads in this Settlement, £162 8 11; besides a proportion of Great Road Money. Pecuniary advances, to the amount of £737 14s., were made by Government to the Harvey Settlers, in the years 1838, 1839, & 1840. Repayment has never been required. The Settlers carry their Grain to an excellent Grist Mill, built by John Ross in 1844, on Garden's Creek, only a few miles distant. It is so situated that it can be kept in operation at all Seasons. The uncleared land not included in the valuation.
