THE attention of the Deputy Land Surveyors throughout the Province, is hereby called to the necessity in future, of preserving more uniformity in their Surveys of Crown Land.

All lots must be rectangular, and extending not less than 50 chains from front to rear.

The direction of the side lines must conform to the nearest general Survey, unless there be special reasons to the contrary, of which a full Report is to be made to this Office, in the first place, for approval.

No Survey of detached irregular sized Lots, will be hereafter recognized; and no Survey is in any case to be made before the issue of the Warrant.

Petitions for the purchase of Land must describe the exact situation wanted, as correctly as possible; and if in a tract which has been heretofore partly surveyed and numbered, the particular Lot must be mentioned. When the descriptions are defective in these respects, the Petitions will be set aside.
