No. 36.

His Excellency the Commander in Chief has much pleasure in thanking the Officers, Non-Commissioned Officers and Men of the Volunteer Militia, for the order and regularity of their conduct during the late competition at Torryburn. He wishes, however, more particularly to record his approval of the zeal evinced by Captain Simonds, 1st Battalion York County Militia, and the Company under his command, in volunteering to encamp at Torryburn, and in there performing most efficiently the various and arduous duties required of them. The good conduct, order and discipline of the Company, whilst under canvas, merit His Excellency's special notice and approval. He also desires to thank Captain Marsh, 1st Battalion York County Militia, and Captain Millett, Saint John Volunteer Battalion, for the services of their detachments on the same occasion.

His Excellency wishes to express his great obligation to Colonel Cole, Commanding the Forces in New Brunswick, for enabling the Adjutant General of Militia to carry out the necessary arrangements, by placing at his disposal most efficient markers, and the services of non-commissioned officers and men from Her Majesty's 15th Regiment.

No. 37.

His Excellency has much pleasure in signifying to Lieut. Colonel Foster, New Brunswick Regiment of Artillery, and to Lieut. Colonel Honorable J. Robertson, Saint John Volunteer Battalion, his extreme satisfaction at the appearance and efficiency of the officers, non-commissioned officers and men under their command during the Review at Torryburn on the 25th instant, when, for the first time, they had an opportunity for acting together with Her Majesty's Regular Forces. His Excellency hopes that the experience gained from executing movements on a larger scale than that to which they have been hitherto accustomed, will prove to the Volunteer Militia the utility and advantage with which more frequent drills in the open air would be attended, and that they will avail themselves of every possible opportunity for thus increasing their proficiency.
