

## TENDERS FOR A STEAMER IN THE GULF.

**P**ROPOSALS addressed to the Chief Commissioner will be received at the Office of Public Works, Fredericton, until noon of Friday, the 10th of July next, for the following service, DURING A PERIOD OF FIVE YEARS, to commence at the opening of the navigation in the year 1864.

To run a good and well appointed sea-going Steamer, adapted both for the Carrying Trade and the conveyance of Passengers, of such power, size, speed, and capacity, as may be fully adequate to the required duty, once a fortnight each way between Shediac and Campbellton, touching at the intermediate Ports of Richibucto, Chatham, Newcastle, Bathurst, and Dalhousie; and twice each way every alternate week between Shediac and Newcastle, touching at the intermediate Ports of Richibucto and Chatham.

Each Tender is to specify the size, age, speed, character, and equipment, of the vessel proposed to be used, including the kind and condition of the boilers and machinery; to state the annual sum required for the proposed service, and to furnish a tariff of the rates of Freight and Passage, between the several Ports named, to which the party tendering is willing to be restricted.

The required Steamer is intended to run in connection with the Railway terminating at Shediac, to carry the Mails if so required, and to be under such rules and regulations as to hours of departure, tariff, and other particulars, as the Department may from time to time prescribe.

GEO. L. HATHEWAY,

Department of Public Works, *Chief Commissioner.*  
Fredericton, 26th May, 1863.

## DREDGING.

**T**ENDERS addressed to the Chief Commissioner will be received at the Office of Public Works, Fredericton, until noon of Saturday, the 20th day of June next, for Dredging a clear passage, conforming to the main Channel, through Seal Bar, in the Harbour of Bathurst, to the full width of 60 feet, and to the depth of eight feet below the low water level of spring tides; the excavated material to be deposited not nearer than 100 yards from the limit of the channel, in such situation as may be approved by the Chief Commissioner. The shallowest water over the Bar at the lowest ebb is assumed to be about five feet, and the extent of the required excavation about six hundred feet; but which facts the party tendering will ascertain for his own guidance. Each Tender is to state the round sum for which the work will be completed to the satisfaction of the Chief Commissioner, on or before the 1st day of October next.

G. L. HATHEWAY,

Department of Public Works, *Chief Commissioner.*  
Fredericton, 26th May, 1863.

## FISHERIES.

(78) CROWN LAND OFFICE, 27th May, 1863.
