2 War Department not to erect buildings.	5 Amount to be expended by War Department.

Passed 8th June, 1865.

WHEREAS the citizens of Fredericton and the War Department have agreed to exchange certain Lands in the City of Fredericton, upon the terms hereinafter mentioned;

Be it therefore enacted by the Lieutenant Governor, Legislative Council, and Assembly, as follows:—

1. The triangular piece of Land in the said City, bounded easterly by a straight line running from the easterly angle of the Officers' Barrack Square, so called, to the centre of the Willow Tree situate near the upper boundary of Regent Street landing, and on the north easterly line of the enclosure in front of the said Officers' Barracks, is hereby vested in Her Majesty's Principal Secretary of State for the War Department.

2. It shall not be lawful for Her Majesty's said Principal Secretary of State, or for the War Department, to build, erect, or place on any part of the Land described in and transferred by the preceding Section, any building or erection, except a fence and ornamental trees.

3. The Land described as follows, to-wit:—All the Land lying northeasterly of the present Barrack fence between the head of the landing at Regent Street and the Public Wharf at the termination of York Street, is hereby vested

5. The sum of one hundred sovereigns shall be expended by the War Department, for the purpose of securing in the first place the present fence between the Willow Tree aforesaid and York Street aforesaid; and in the second place, to assist in improving the Land hereby conveyed to the said Mayor, Aldermen and Commonalty, by wharfing or otherwise, as shall be agreed upon by and between Her Majesty's Principal Secretary of State for the War Department, and a Commissioner to be appointed by the said Mayor, Aldermen and Commonalty for that purpose.

6. This Act shall not come into operation until Her Majesty's Royal approbation be thereunto first had and declared.

Fredericton, 12th December, 1865.

The Lieutenant Governor directs the following Circular (with Enclosure), which His Excellency has received from the Secretary of State for the Colonies, to be published for general information.

(CIRCULAR)

Downing Street, 16th November, 1865.

SIR,—I have the honor to transmit to you, for your information and guidance, the enclosed copy of a Letter from the Lords of the Committee of Council on Education on the subject of the Representation of the British Colonies in the Paris Universal Exhibition of 1867. Annexed to the Letter are printed Regulations in French and English. In the assignment of space, their Lordships have been guided by the spaces occupied in the Exhibitions of 1855 at Paris, and 1862 at London. The space allotted to the Colony under your government is six hundred feet.

It is on every account to be desired that Her Majesty's Colonies may be well represented in the approaching Exhibition, and I wish you at once to take such measures as appear to you most calculated to further this object. You will observe that the first step will be to appoint a Committee of Superintendence and a Special Executive Commissioner, to conduct the correspondence with this country.

I have the honor to be, Sir,

Your most obedient humble servant,

EDWARD CARDWELL.

The Officer Administering the Government of New Brunswick.

Mr. Henry Cole to the Under-Secretary of State for the Colonies.

Council of Education, Kensington Museum,

October 9, 1865.

SIR,—I am directed by the Lords of the Committee of Council on Education to transmit one hundred copies of the general regulations and classification issued by the Imperial Commission for the guidance of intending exhibitors in the International Exhibition to be held in Paris in 1867, and a list of the several amounts of space which it is proposed to allot to each Colony.

It being important that the Colonies should be well represented, my Lords request that you will move Mr. Cardwell to take, as early as convenient, such steps as he may consider necessary for drawing the attention of each Colony to these regulations, &c., and direct me to observe, that in making known the space offered, it should be distinctly understood that the proposed allotment in each case is *nett* space, exclusive of passage room, for which ample provision has been made, and consequently the entire space offered may be filled with goods.

My Lords suggest that each Colony should form a Committee having sufficient experience, and invested with authority, to secure a due representation of the industry and resources of the Colony; and that it should place one special Executive Commissioner in direct communication with the Science and Art Department at South Kensington.

It is desirable that each Colony should inform the Lords of the Committee of Council on Education, with as little delay as possible, if it will undertake to fill the space offered; and if not, to state what diminution in the space may be made.

The Imperial Commission having decided upon a particular mode of arrangement into classes and groups, which is set forth in the regulations, the same principle of arrangement will be adopted by Great Britain, and it will be necessary that the Colonies also conform to it. My Lords direct me to request, therefore, that the Executive Commissioner from each Colony should
