Science Form, No. 293.

SCIENCE AND ART DEPARTMENT
OF THE COMMITTEE OF COUNCIL ON EDUCATION,
SOUTH KENSINGTON.

MR. WHITWORTH'S SCHOLARSHIPS FOR MECHANICAL SCIENCE.

At Whitehall, the 5th day of May, 1868.

By The Right Honorable the Lords of the Committee of Her Majesty's Most Honorable Privy Council on Education.

My Lords read Mr. Whitworth's letter of 4th May 1868, transmitting a memorandum on his Scholarships, and on the establishment of sixty Exhibitions of £25 for the present year, preparatory to the competition for his Scholarships, and requesting that the Science and Art Department may conduct the necessary examinations and correspondence.

Their Lordships have great pleasure in acceding to Mr. Whitworth's request, and giving every assistance in their power in carrying out his patriotic munificence.

Manchester, 4th May, 1868.

SIR.—Referring to your letter of March 28th, by which you transmit to me a copy of the Minute which the Lords of the Committee of Council on Education had passed in acknowledgment of my endowment of Scholarships for promoting Mechanical Science, and to the concluding sentence of the Minute which invites further suggestions and offers to render assistance in carrying out the intentions of the endowment:

1. I beg leave to enclose for the information of the Lords of the Committee of Council on Education a memorandum on the subject of the endowment, which I trust will meet with the approval of their Lordships, and that they will cause it to be circulated, and the necessary correspondence arising out of it to be conducted by the Science and Art Department.

2. I would beg leave to ask the Lords of the Committee of Council on Education to undertake the examinations for these Scholarships.

3. As respects the preparation of the necessary details for the examination in the use of tools, I am willing to be responsible myself, with the aid of friends, and I propose to obtain the consent of a few gentlemen to advise with me from time to time in whatever may arise in the future for my consideration.

4. In reply to the invitation of their Lordships to submit any suggestions, I venture to submit for consideration whether honors in the nature of Degrees might not be conferred by some competent authority on successful students each year, thus creating a Faculty of Industry analogous to the existing Faculties of Divinity, Law, and Medicine. I am of opinion that such honors would be a great incentive to exertion, and would tend greatly to promote the object in view.
