

SAMPLES OF CHOICE GRAIN FOR THE IMPROVEMENT OF SEED.

By instruction of the Hon. Minister of Agriculture another distribution will be made this season of samples of the most productive sorts of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured by the Director of the Experimental Farms from the excellent crops recently had in the Canadian North-west. The distribution this Spring will consist of samples of oats, Spring wheat, barley, Indian corn and potatoes. The quantities of oats, wheat and barley to be sent this year will be sufficient to sow one twentieth of an acre. The samples of Indian corn and potatoes will weigh 3 lbs. as heretofore. Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat, barley or potatoes, and applications for more than one sample for one household cannot be entertained. These samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 1st of March, after which the lists will be closed, so that all the samples asked for may be sent out in good time for sowing. Parties writing should mention the sort or variety they prefer, and should the available stock of the kind asked for be exhausted, some other good sort will be sent in its place.

W. M. SAUNDERS,
Director Experimental Farms.
