Crown Land Office, 18th August, 1909.

NOTICE is hereby given to Licensees of Crown Lands in this Province of the following additional timber regulations as passed by the Lieutenant-Governor-in-Council:—

"It is provided that in future operations trees shall be sawn down at the swell of the roots instead of being chopped down and that the saw be used instead of the axe in cutting the trees into lengths. The tree shall be topped off as small as five inches in diameter and the lower limbs of every fallen tree shall be lopped off so that the top will lie flat on the ground to rot. Scalers will be instructed to scale any and all tops left in the woods up to five inches in diameter. No spruce or pine trees shall be used for skidding or building roads and if such are used will become a charge against the licensee.

No portable saw mill will be set up on Crown Land without first obtaining a license from this Department.

The following regulations are also submitted by the Surveyor-General with reference to undersized lumber and the thinning of thickets:

When licensees desire to cut undersized spruce on licenses of the Crown on the grounds that such spruce, owing to its scrubby growth, would never mature to saw logs, or where thickets of spruce exist that require thinning, they shall notify the Department when an examination shall be made by competent persons.

If such examination bears out the contention of the applicant, permission will be granted to cut such undersized lumber, or the thinning out of thickets, but the operation must be conducted under the supervision of a competent person chosen by the Department.

It is the settled policy of the Department that whether permits are granted or not, to cut undersized lumber on licenses of the Crown, no spruce will be cut in any locality where upon examination of the annular growth it can be shown that such growing spruce would, in 75 years, attain a diameter measurement, breast high, of 14 inches and should any such undersized spruce be cut, the scaler will make a separate return of it and the licensee will be charged double stumpage."

W. C. H. GRIMMER,
Surveyor General.
