Vol. 55.]

FREDERICTON, N. B., WEDNESDAY, JANUARY 20, 1897.

[PAGE 10]

Official Notifications appearing in this Paper, duly authenticated, are to be received as such by all whom they may concern.

BY AUTHORITY.

By His Honor The Honorable ABNER REID
McCLELAN, Lieutenant-Governor of the Province of
New Brunswick.

A. R. McCLELAN.

PROCLAMATION.

WHEREAS the General Assembly of this Province stands
prorogued to Thursday the twenty-eighth day of January
instant, I have thought fit further to prorogue the said General
Assembly, and the same is hereby prorogued accordingly to
Thursday the fourth day of February next, then to meet at
Fredericton for the dispatch of business.

Given under my Hand and Seal at Fredericton, the eleventh
day of January, in the year of our Lord one thousand
eight hundred and ninety-seven, and in the sixtieth
year of Her Majesty's Reign.

By Command of the Lieutenant-Governor.

L. J. TWEEDIE.

GOVERNMENT NOTICE.

Distribution of Samples from the Central
Experimental Farm at Ottawa.

During the past nine years, samples of those varieties of grain
which have succeeded best on the Experimental Farms have been
distributed on application in 3-lb. bags to farmers in all parts of
the Dominion, free through the mail. The object in view in this
distribution has been to add to the productiveness and improve
the quality of these important agricultural products throughout
the country by placing within reach of every farmer pure seed
of the most vigorous and productive sorts. This work has met
with much appreciation and a considerable degree of success.

Instructions have been given by the Hon. Minister of Agriculture
to make a similar distribution this season. Owing to the
very large number of applications now received it is not practi-
cable to send more than one sample to each applicant, but with
this limitation it is hoped that the stock available will be sufficient
to permit of every farmer who so desires sharing in the benefits
of this useful branch of the work of the Experimental Farms.

The distribution now in progress consist of some of the most
promising sorts of Oats, Barley, Spring Wheat, Pease, Field Corn
and Potatoes. Requests for samples may be sent to the Central
Experimental Farm, Ottawa, at any time before the 1st of March,
but after that date the lists will be closed so that the applications
then on hand may be filled before seeding begins. All commu-
nications can be sent free of postage. It is desirable that each ap-
plicant should name the variety which he desires to test, also one
or two alternative sorts in case the stock of the sort chosen should
be exhausted, while no promise can be made that the variety
asked for will be sent. The wishes of correspondents will be at-
tended to as far as practicable. The samples of grain will be sent
early, but potatoes cannot be distributed until the danger of in-
jury in transit by frost is over.
