### Distribution of Samples of Seed Grain.

Under instruction of the Hon. Minister of Agriculture another distribution of sample packages of the best and most productive sorts of cereals, &c., is now being made from the Central Experimental Farm, Ottawa. The distribution will consist, as heretofore, of samples of oats, spring wheat, barley, field peas, Indian corn and potatoes. Each sample will weigh three pounds. The quality of the seed will be of the best, the varieties true to name and the packages will be sent free to applicants, through the mail. The object in view is the improvement of the character and quality of the grain, &c., grown in Canada, an effort widely appreciated, and the choice of varieties to be sent out will be confined to those which have been found to succeed well at the Experimental Farms.

These samples will be sent only to those who apply personally. Lists of names from societies or individuals cannot be considered. Only one sample of one sort can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat or barley. Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent any time before the 15th of March, after which date the lists will be closed, so that the samples asked for may all be sent out in good time for sowing. Parties writing will please mention the sort of grain they would prefer and should the available stock of the variety named be exhausted, some other good sort will be sent in its place. Letters may be sent to the Experimental Farm free of postage.

WM. SAUNDERS,  
Director Experimental Farms.
