D. W. ROSS, M. D.,
For the Applicants.

SAMPLES OF CHOICE GRAIN FOR THE IMPROVE- MENT OF SEED.

By instruction of the Hon. Minister of Agriculture another dis-
tribution will be made this season of samples of the most productive
sort of grains to Canadian farmers for the improvement of seed.
The stock for distribution is of the very best and has been secured
by the Director of the Experimental Farms from the record-
breaking crops recently had in the Canadian North-west. It will
be worth while for farmers generally to renew their seed of oats
when varieties which have produced more than 100 bushels per
acre can be had. The distribution this Spring will consist of
sample of oats, Spring wheat, barley, field pease, Indian corn and
potatoes. Every farmer may apply, but only one sample can be
sent to each applicant, hence if an individual receives a sample of
oats he cannot also receive one of wheat, barley or potatoes, and
applications for more than one sample for one household cannot
be entertained. These samples will be sent free of charge through
the mail.

Applications should be addressed to the Director of Experi-
mental Farms, Ottawa, and may be sent in any time before the
15th of March, after which the list will be closed, so that all
samples asked for may be sent out in good time for sowing.
Parties writing should mention the sort or variety they would
prefer, and should the available stock of the kind asked for be
exhausted, some other good sort will be sent in its place.

WM. SAUNDERS,
Director Experimental Farms.
