ADDITION TO THE TIMBER REGULATIONS OF 1913.

Crown Land Office, 22nd December, 1915.

THE attention of licensees holding permits on Crown Lands is called to the following addition to the Timber Regulations of the year 1913, passed in Council November 10th, 1915, namely: "When licensees desire to cut under-sized spruce on licenses of the Crown on the ground that such spruce growth would never grow to a sufficient size to become saw logs, or where thickets of spruce that require thinning are found, or where other good and sufficient reasons for under-sized cutting may, in the opinion of the Minister, exist, they shall notify the Department, when an examination shall be made by an official of the Department. If such examination bears out the contention of the applicant, permission may be granted to cut such under-sized lumber or the thinning out of thickets, or the cutting of such other lumber, but the operations must be conducted under the supervision of a competent person chosen by the Department."

In no case shall any under-sized lumber be cut unless permission to do so is granted in writing, containing a description by metes and bounds of the lot or lots on which such lumber is growing, and signed by the Minister.

Each scaler shall make a separate report of any under-sized logs cut otherwise than in accordance with the provisions of this regulation, and such logs shall be charged at the rate of five dollars per thousand."
