**THE** attention of licensees holding permits on Crown Lands is called to the following addition to the Timber Regulations of the year 1913, passed in Council November 10th, 1915, namely: "When licensees desire to cut under-sized spruce on licenses of the Crown on the ground that such spruce growth would never grow to a sufficient size to become saw logs, or where thickets of spruce that require thinning are found, or where other good and sufficient reasons for under-sized cutting may, in the opinion of the Minister, exist, they shall notify the Department, when an examination shall be made by an official of the Department.
