1. Berths will be sold on a basis of stumpage values, the upset prices to be announced at the commencement of the sale. The stumpage on spruce, fir, pine and cedar will be the standard and upon which bids will be received. The stumpage on other lumber will be proportioned as follows:

For the purposes of calculation, a cord of any kind of wood with the bark on will be recognized as five hundred (500) superficial feet.

For trees wholly killed by the spruce bud worm or by fire the rate of stumpage shall be one half the regular rates fixed for each license under this sale, but in order to entitle the licensee to the privilege of this half rate of stumpage notice must be given to the Department by the licensee before operations are commenced, to enable a forest engineer to inspect the standing timber and report to the Department what percentage, if any, of the area intended to be cut would be classed as timber killed by the bud worm or otherwise.

2. Licenses to run for a period of two logging seasons ending first August, 1923.

3. There will be no charge of any kind against a license excepting the payment of stumpage. There will be no renewal, mileage or fire protection tax exacted.
