C. W. ROBINSON,

Minister of Lands and Mines.

DEPT. OF HEALTH

BYE-LAWS REGARDING SALE OF MILK AND CREAM IN THE CITY OF MONCTON.

Bye-laws regarding the sale of milk and cream in the City of Moncton additional to the regulations of the Department of Health regarding Dairies and Milk, passed by the Westmorland County, Sub-District Board of Health under authority of Section 44 of the Public Health Act, 1918 Province of N. B., October 22, 1923.

23. Notwithstanding any bye-law or regulation passed heretofore, Dairies shall be classified as follows:—

Grade "A" Tuberculin Tested Dairies.
Grade "B" Untested Dairies.

The Grade of each Dairy shall be marked on the license therefor.

24. Grade "A" Dairies shall be subject to the following provisions:—

(a) The veterinary inspectors, approved of by the Board, shall use the tuberculin test (except as provided for in Section 25) and also make a careful physical examination of the cows, in order to determine whether they are healthy or not. Dairy bulls shall also be examined and subsequently treated in the same way as cows.

Following the examination and test, the diseased cows and Reactors shall be dealt with as follows:—

(b) Cows which in the opinion of the veterinary inspector are affected with open tuberculosis and are distributing the germs of the disease through the milk, faeces or sputum, shall be sent to an abattoir under inspection and there slaughtered as soon as conveniently can be done. When no such abattoir is within reasonable distance, the cows shall be slaughtered in the presence of the veterinary inspector, who shall direct how the carcass shall be disposed of.

(c) Reactors to the test shall be separated from non-reactors as effectively as possible (suspicious animals shall be classed as reactors), and the owner shall be given the choice of disposing of them in one of the following ways:—

1. Immediate slaughter.
2. Slaughter after they have been prepared for the block, by drying off and feeding.

3. Retaining them in the herd, and selling no milk or cream until it has been pasteurized.

4. The carcass of any animal slaughtered under these regulations shall belong to the owner and shall be disposed of as the veterinary inspector may direct.

25. Grade "B" Dairies need not be submitted to the tuberculin test and shall be dealt with under the following clause in the same manner as herds containing reactors thereunder.

(a) Milk or cream from a herd containing reactors shall not be sold in the raw state except to a dairy company or dealer equipped with the necessary apparatus for scientific pasteurization.

(b) It shall be unlawful for any person, firm or corporation, holding a grade "B" Dairy License, to sell offer for sale or hold for sale in the City of Moncton any milk or cream that has not been scientifically pasteurized in accordance with the requirements of this Board. Scientific pasteurization means raising the temperature of the milk or cream to 145 degrees F., maintaining it at that temperature for at least twenty minutes, immediately cooling it to 50 degrees F. or below and keeping it at or below that temperature. Inspectors of this Board will see that this provision is carried out. Recording Thermographs shall be used in all Pasteurizing Plants.

26. Caps and Labels shall state whether milk or cream is raw or Pasteurized. The letter designating the grade to which the milk or cream belongs shall be conspicuously displayed on the caps of bottles and on the labels of cans. In addition pasteurized milk or cream shall have the day of the week on which pasteurized, stamped or printed on the caps or labels.

27. All cans used in transporting milk or cream to the City of Moncton

shall be of a type and size approved by and shall at all times be in a condition satisfactory to this Board or its Officers.

28. All empty cans must be cleaned, sterilized and sealed at the Dairy Milk or Pasteurizing Plant before being returned to the Dairy Farm.

29. A physical examination of all cows shall be made at least once every six months by a veterinarian approved by the Board of Health, who shall see that every diseased cow shall be removed from the herd at once, and no milk from such cow offered for sale.

The results of such examination and tuberculin tests shall be certified to and signed by the veterinarian under solemn declaration and witnessed by a Justice of the Peace.

Said certificate to be given to the Secretary of the Board of Health within ten days of such examination.

Section 2 of these bye-laws is hereby amended by adding the words "or Dairy" after the word "Vendor's" in the second line thereof, in the Royal Gazette of March 7th., 1923.

Passed at the regular meeting of The Westmorland Co. Sub-District Board of Health at Moncton, N. B., Oct. 22nd. 1923.

C. E. Northrup,

Secretary Treasurer, Board of Health, Moncton, N. B.

F. J. Desmond, D. M. H. O.
Chairman of Sub-District Board of Health of Westmorland Co., N. B.

The following amendments by the Sub-District Board of Health of Westmorland County, New Brunswick to the Bye-Laws regarding the sale of Milk in the City of Moncton, which were published in the Royal Gazette of March 7th. A. D. 1923, Vol 81, Pages 52-53.

Regulation 2, Line 10, Amend by adding the words "or approved" after the word appointed, making that portion of it to read "by a veterinary inspector or inspectors appointed or approved by this Board".

Regulation 6, which is misprinted should read "all cattle bought or acquired by the holder of a vendor's or dairy license, shall be submitted to the tuberculin test and shall be certified as having passed the same by the veterinary Inspector mentioned in regulation No. 2 hereof conducting such test before being brought to the premises of the purchaser and shall thereafter remain in isolation to the satisfaction of such Inspector until retested and certified as fit to enter the herd".

Regulation 9, line 5—After the word thereto, strike out the remainder of the section and amend by having it read—"Order-in-Council applicable thereto, by this Board. The Chairman or Secretary may suspend a license upon the recommendation of a veterinary Inspector or food Inspector of this Board.

Regulation 10, Line 3—After the word "Board" insert the words "and before issuance of a license", making regulation in this part to read "The holder of a vendor's or Dairy License shall at any time upon the request of the Secretary of the Board and before issuance of a license deliver to the Board a statement etc., etc."

Regulation 14, Section 70, of the Provincial regulations is substituted for regulation 14.

The following amendment to the Bye-Laws passed by the Board on October 22nd, 1923.

Regulation 24, sub-section C in the second line following the word "possible" amend by adding "as determined by the Inspecting Veterinary" making the sub-section to read "(C) Reactors to the test shall be separated from non-reactors as effectively as possible, as determined by the Inspecting Veterinary, etc., etc."

Passed at the regular meeting of the Westmorland Sub-District of the Board of Health at Moncton on December 6th., A. D. 1923.

F. J. Desmond, D. M. H. O.
Chairman of the Sub-District Board of Health of Westmorland County, N. B.

C. E. Northrup,
Secretary of Sub-District Board of Health Westmorland County, N. B.

Approved:
William F. Roberts,
Minister of Health, January 30th., 1924.
