

## DEPT. OF HEALTH

HIS HONOUR THE LIEUTENANT GOVERNOR has been pleased to approve of the following by Order in Council 5th Aug. 1924.

On the recommendation of the Honourable the Minister of Health, that Regulation 185 relating to Medical Inspection of Schools, be amended as follows:

"Regulation 185, Medical Inspection of Schools, is hereby amended by inserting between the words 'practitioner' and 'or' in the fourth line of said Regulation, the words 'provided that such certificate does not in substance, contravene or render of no effect any action taken in the case by the Medical School Inspector concerned, and in the event of such certificate being issued, it shall not become applicable until after a consultation upon the case involved be had between the said Medical School Inspector and said physician issuing certificate; in the event of an inability to agree after said consultation the decision shall lie with the Chief Medical Officer or some medical practitioner appointed by him for the purpose, which decision shall be final.'"

Making the revised Regulation as a whole to read as follows:

"185. No child affected with communicable disease shall be permitted to attend school until such disease be cured and the danger of contagion be eliminated as certified by a regularly qualified medical practitioner, (provided that such certificate does not, in substance contravene or render of no effect any action taken in the case by the Medical School Inspector concerned, and in the event of such certificate being issued, it shall not become applicable until after a consultation upon the case involved be had between the said Medical School Inspector and said physician issuing certificate; in the event of an inability to agree after said consultation the decision shall lie with the Chief Medical Officer, or some medical practitioner appointed by him for the purpose, which decision shall be final); or, until such disease be placed under such treatment and safeguards as shall satisfy the Medical School Inspector concerned that all practical danger of communicating the disease to others is abolished."

WM. F. ROBERTS,  
Minister.

Department Public Health,  
Fredericton, 5th August, 1924.

HIS HONOUR THE LIEUTENANT GOVERNOR has been pleased to approve of the following by Order in Council 5th August, 1924, on the recommendation of the Honourable the Minister of Health, that the following Regulations relating to examination and licensing of Plumbers be adopted:

### EXAMINATION AND LICENSING OF PLUMBERS.

(No. 264-272 inclusive)

264. No person unless holding a Plumber's License as hereinafter provided, after the expiration of six months from date of approval of these regulations by the Executive Council of this province, shall work as a plumber or engage in the art of plumbing within the province except under direct and immediate supervision by a plumber duly licensed by these regulations except that a person who has for three years been engaged in the mechanical work of plumbing may be deputed by his employer to perform minor plumbing work under the general direction of the latter.

265. There shall be established a Board to be known as the Plumber's Examining Board of New Brunswick, one of whom shall be the Chief Medical Officer of New Brunswick and two others—one a journeyman and the other an employing plumber—and each of the latter two shall be qualified to hold a plumber's license under these regulations and shall be appointed by the Minister of Health.

266. The last two named members of said Board shall hold office during the current calendar year for which they are appointed and in the month of December in each year after the first said appointments the said Minister shall appoint two said like members for the

ensuing calendar year. Retiring members or either of them may be reappointed at the discretion of the Minister. In case of death, resignation or neglect to serve of either or both of such two members, the Minister shall forthwith make such other appointment or appointments as may fill such vacancy or vacancies.

267. Such Examining Board, upon appointment shall meet at some convenient place, and may draw up such rules for its governance and conduct as shall not be inconsistent with these regulations. It shall meet at least annually, and oftener, if thought necessary by the Board and shall appoint a place and time for the semi-annual examination of all such persons as shall present themselves before it for examination for license, and written application for such examination must be made by applicant to the examining Board at least one week before the date set for such examination. Such examination, which may be written or oral, or both, notice of the date and place of which shall be published by the Board in the Royal Gazette and in two daily newspapers of the province one month in advance, shall include questions upon the theory and art of plumbing and upon the Plumbing regulations of the province, as well as any ocular demonstration of the art of plumbing as may be required by the Board. The fee for examination and license shall be five dollars for each applicant, which fee shall be applied (1) to defray the expenses of said Examining Board, and (2) the balance divided between the members of said Examining Board. Three dollars of such fee shall be returned to any applicant who fails to obtain a license.

268. Each plumber, who, at the time of the approval of these regulations by the Executive Council, has been working as a plumber for a period of five years prior to such approval, upon giving proof thereof to the Examining Board, and upon application for a license and upon payment of fee, shall be entitled to receive and be granted such license, without further examination, if such application and payment be made within six months after said approval, but not otherwise.

269. Any person, other than one mentioned in the last preceding regulation who shall satisfy the Examining Board that he has worked at the art of plumbing for a period of five years as a learner or assistant under direct and immediate supervision of one or more plumbers entitled to a license under these regulations, shall be deemed entitled to a license under these regulations and be granted such, upon the payment of aforesaid fee, and upon passing the examinations as provided for herein, subject to the following section.

270. The examiners after each semi-annual meeting for examination shall report in writing to the Minister the names and addresses of those examined who, in the opinion of said examiners are entitled to a license, and the Minister shall, thereupon, if satisfied with said report, cause to be issued a license or licenses to said person or persons, over his signature countersigned by the Chief Medical Officer.

271. A Plumber's License when granted by these regulations shall be registered and a record thereof kept on file at the office of the Department of Health, and shall continue valid from year to year upon annual payment of a fee of two dollars to the Department of Health unless revoked for cause by the Minister upon recommendation of said Examining Board.

272. Each person in the Province of New Brunswick on entering upon the work of plumbing as a learner or assistant (apart from a regularly licensed employee) shall have his name registered with the Examining Board together with his address by the employer concerned.

W. F. ROBERTS,  
Minister.

Department Public Health,  
Fredericton, 5th August, 1924.

HIS HONOUR THE LIEUTENANT GOVERNOR has been pleased to approve the following by Order in Council 5th Aug., 1924:

### CAMPS

(155 to 172a inclusive)

#### Definition.

155. Where the word "Camp" is used in these regulations, it shall include lumber camps, saw-mill camps, railway and

other construction camps, camps in connection with railway and other maintenance works, and with quarries, mines, smelting and cement works, fishing camps for commercial purposes, and, generally, all inhabited houses and buildings and premises in connection therewith which are, in their nature and purpose designed for temporary or intermittent occupation and used for the housing of employees as contra-distinguished from houses or dwellings designed for permanent occupancy.

#### Notification.

156. Forthwith, after the establishment of a camp, the owner or manager thereof shall notify the District Medical Health Officer of the Health District in which such camp is situated, in writing, of the location and character of the same, and of the maximum number of employees and others to be housed therein.

#### Location.

157. Every camp and every tent, stable or other building in connection with a camp, shall be located in a healthful site, and all premises in connection therewith shall be kept in a sanitary condition.

#### Capacity.

158. Every house, tent or other building occupied or used as a camp shall contain at least 300 cubic feet of air space for every occupant thereof, and shall be properly constructed, lighted and heated, and means provided and kept in proper working efficiency for adequate ventilation.

#### Cleanliness.

159. Every camp shall have proper facilities for the maintenance of the cleanliness of its occupants and such cleanliness shall be maintained.

#### Disposal of Garbage.

160. Provision shall be made for the proper disposal of all slops, swill, garbage, manure and other refuse subject to putrefaction or fermentation, from the buildings or premises.

#### Exclusion of Flies.

161. Provision shall be made for the exclusion of flies from the dining room, kitchen, or other places where food is stored, prepared or eaten.

#### Latrines or Privies.

162. Latrines or privy pits shall be provided for the use of the occupants, and the same shall be so constructed and located as not to be a possible source of danger to any water-supply and the said latrines or privy pits shall be kept in a sanitary condition.

#### Location of Stables.

163. Every stable and manure heap or privy shall be so located as to make it impossible for the same to contaminate the water-supply.

#### Water-supply.

164. Provision shall be made for the plentiful supply of wholesome drinking water for the use of the occupants.

#### Publicity.

165. The owner or manager of every camp shall obtain and keep posted in a conspicuous place in such camp these regulations relating to camps, or a synopsis of them provided by the Department of Health, in English or French.

#### Nuisance by Owner or Manager.

166. The owner or manager of any camp shall not suffer or permit any occupant of such camp, or other person, to commit or maintain any nuisance in or upon the premises of such camp or permit such camp or premises to become insanitary.

#### Nuisance by other persons.

167. No occupant of any camp, nor other persons, shall commit or maintain any nuisance or insanitary condition in such camp or upon the premises in connection therewith.

#### Contagious Disease.

168. It shall be the duty of the owner or manager of any camp to take every practical precaution against the occurrence or spread of contagious or infectious disease in or among its occupants and, in particular, to see that all regulations respecting notifiable disease, by the Minister or by the sub-district Board concerned, where applicable, are faithfully carried out and enforced.

#### Disinfection.

169. The expense of disinfection or cleaning for sanitary purposes, of any camp, shall be borne by the owner or manager thereof.

#### Physicians.

170. The Minister may require the owner or manager of any camp to engage and provide one or more duly
