that the said Turkish soldiers should be conveyed by the French vessels out of the territory of the regen-

A commission meets daily to take an inventory of suffering, the stores, accoutrements, arms, &c. which have become the property of the Government, in consequence of the occupation of the French army.

The Marine has appointed a commission to investigate the condition and number of vessels on the stocks and afloat which have been found in the port

watch also over the Turkish soldiers.

Among the captives delivered at the taking of Alners, there were some who had been nearly 30 years captivity. They have been horribly mutilated the barbarians, who have made them endure readful torments during their long captivity. We cannot but repeat the expression of our

hope that no idle jealousy of an increase of the conquest, may be doubtful; but she will be clearly entitled to some advantages, and to an indemnity for the expenses which have been forced upon her; and, unless other powers will reimburse those expences, they are bound in justice to allow her to take her own course in indemnifying herself. We do not see Algerine territory a power which will be formidable as if they had fled from the club and dagger of the that, under any plan, France can establish in the to the rest of Europe. The country is not now an unpeopled fertile territory, which can be gradually horror. filed by French colonists. At the utmost she estabishes a power similar in kind, but very dissimilar in richness and manageableness, to that of our empire in India. Such a territory would never be an undue source of strength to France-for many years it would be a source of weakness; her attempt, therefore, to retain the Algerine territory would be much more dangerous to her own finances than to the rest of Europe. We do not believe that the French government has any such plan; but a little reflection on the utmost consequences of this extreme supposition would show how visionary is the Ibid. lear that the efforts of the French in Africa would enable them to disturb the balance of power in Europe, or materially to embarrass our political or commercial relations. Perhaps the most desirable plan, which would be easily practised, for the gradual improvement of Africa, would be the establishment, tical states. There is, even in this plan, great difficulty in finding materials for the new governments. Some permanent improvement of this kind will, we country to deys and pachas, either in the hope of nocent of the crime, for which I have to suffer." finding a miraculous succession of well-disposed barbarians, or in the fear lest any improvement of the world should possibly benefit some of our neighbours and terms :more than ourselves .--- Globe.
