Our latest intelligence from England reaches no further than the evening of the 15th May, consequently we have nothing of an authentic character to communicate in addition to the important Parliamentary proceedings which we published a fortnight ago. We perceive it announced in several of our Colonial papers, that Earl Grey and his Colleagues were recalled to Office, and that the Reform Bill had finally passed the House of Lords, but how or in what manner this sudden change has been effected is a matter of uncertainty. We may shortly expect, however, such information as we have been anxiously waiting for on these important subjects, and on which we can with greater confidence rely.

The Canada Mail which arrived yesterday morning has brought us Quebec papers of the 25th, and Montreal of the 23rd June. It gives us great pleasure to see it stated on the best authority, that the ravages of the Cholera begin to subside with a rapidity commensurate with its attack in both of the above places;—the panic has ceased to act on the minds of the people, and every face begins to assume its wonted cheerfulness. The return of the Emigrant and Cholera Hospitals in the 24 hours preceding the 25th ult. is highly satisfactory; there having been only 18 admitted and the deaths 16, whilst 14 are returned "discharged cured" and 35 convalescent. Our extracts however will best serve to show to our readers the progress of the disease, which we are sorry to learn has reached several of the Towns and Settlements in Upper Canada.

It will be observed that in this town the most active measures are now in operation to prevent the spreading of that dreadful pestilence which is now traversing the Globe, and which in all probability may ere long be found in our neighbourhood. "Let us however be prepared for the worst—and hope for the best."

CARD OF INSTRUCTION FOR THE PUBLIC FROM THE BOARD OF HEALTH AT FREDERICTON, JUNE 29, 1832.

In order that the people generally may be instructed as to what is considered the most necessary and essential Anti-Cholera measures to be adopted, the Board of Health publish the following for their information, that they may, as far as in their power, endeavour to avert the evil of so dreadful, malignant, and destructive a Pestilence visiting and establishing itself in their dwellings and habitations, with which they are now so seriously threatened. Cleanliness in their persons, and particularly about the Houses and Premises on which they reside is of the first importance. To effect the latter it is necessary that all filth, dirt, and rubbish of every description should be immediately removed from their neighbourhoods, and if it is in considerable quantity, long accumulating, and of offensive nature and quality, some Quick Lime should be spread on the spot on which it has laid. The inside of the habitations should be kept carefully clean, and well and perfectly white-washed; the floors after being washed and dried, by the house being well aired and ventilated, should be sprinkled with a Solution made of Putting a large table spoonful of the Chloride of Lime into half a pint of Rain or River water, all which, if adopted, will tend to secure purification.

The strictest regularity in their habits of life, temperance in drinking, and a moderate use of Healthy food—no excesses of any kind, warm clothing, and perhaps a calm and tranquil mind, disposed to meet the worst, with proper composure and resignation, are among the best and most useful preventatives. When the attack of the Disease is first made, it is generally with a violent pain at the Pit of the Stomach, like a Cramp; a burning sense of heat; great thirst; cramps in the belly and extremities, and to the touch a general coldness of the Surface; griping or pinching of the Bowels, with Diarrhoea, and perhaps vomiting. It is considered expedient, that on its first attack, when Medical advice and assistance cannot be immediately obtained, that the sick person be immediately wrapped up in hot blankets; Friction applied by rubbing the limbs and body well; bottles of hot water put to the Feet and Belly; and a tea-spoonful of the following Mixture of Tincture, mixed with one or two table spoonfuls of warm Tea or Water, be immediately administered, and repeated half an hour afterwards, if Medical advice cannot be obtained.

Take a Pint of good Brandy, 1/2 oz. Cinnamon, bruised or powdered, 1/2 oz. Cloves, do. 1/2 oz. Nutmeg, do. 1/2 oz. Cayenne Pepper, do. Mix them; to which quantity 2400 drops of

Tincture of Opium to be added, if to be obtained. T. EMERSON, Surgeon, WM. WOODFORD, M. D. W. FRASER, Surgeon, Committee. Fredericton Emigrant Society.

AT a general meeting of the Society, called by public notice, held at the County Court House in Fredericton, on Monday the 2d day of July 1832,

PRESENT, The Hon. Thos. Baillie, in the Chair. Edward W. Miller, Esq. Vice Presidents. Peter Fraser, Esq.; Hon. George Shore; The Rev. Dr. Somerville; W. B. Phair, Esq.; H. G. Clopper, Esq.; Dr. Woodford; H. Smith, Esq. Mr. Amasa Coy; Judge Bliss, by George P. Bliss his proxy; Mr. Jarvis Ring; Wm. Taylor, Esq.; Mr. Wm. Bedell, Geo. P. Bliss, Esq.; Geo. F. Street, Esq.; Mr. James Taylor, Esq.; J. D. Berton; Wm. F. O. Dell, Esq. by Geo. F. Street his proxy; Mr. Peter Fisher, by Wm. Taylor his proxy; Dr. Emerson.

The Secretary states that the object of this meeting, as appears by the public notice, is to take into consideration the propriety of appropriating a part of the Society's Funds towards the erection of a suitable building to be used as a Cholera Hospital in the present emergency, in case that dreadful disease should break out among us as may be expected; and which building when erected, to be held for the use of this Society as a receptacle for distressed Emigrants, except when wanted for a Cholera Hospital, or any other infectious distemper that might be brought among us by Emigrants.

The Treasurer reports that the funds of the Society including money out at interest may amount to about £200. Whereupon the following Resolution is moved and agreed to by the Society—viz. "Whereas in the opinion of the Members present, a part of the funds of this Society cannot be better appropriated than by erecting a proper building on the Lot on which the Alms House is erected, or elsewhere in the Parish of Fredericton, which may serve in the present emergency for a Cholera Hospital, and which may hereafter be appropriated for the reception and accommodation of distressed Emigrants coming to Fredericton: Therefore Resolved that the sum of One hundred and fifty pounds be appropriated out of the Funds of this Society for that purpose.—The money to be paid by the Treasurer out of the first Funds in his hands to such persons as may be duly appointed by the Justices of the County of York in Session, as a Committee to direct and superintend the erection of such building, upon such express condition; that the building when so erected is to be considered as under the direction and control of this Society, for the use and reception of Emigrants, whenever this Society may require the same, except when the same is wanted for the use of persons in this Parish labouring under the disease denominated Asiatic Cholera."

And further resolved, That an application be immediately made to the proper Authorities for a sufficient portion of the Alms House Lot, to be set off and appropriated to the Society for the erection thereon of the Building in question; and that the Rev. Dr. Somerville, G. F. Street and Wm. Taylor, Esquires, be a Committee to make such application. Resolved, That the Annual Subscription of Members of the Society be in future 5s until further orders; and that all the Inhabitants of Fredericton and its Vicinity be invited to become Members thereof, upon payment of such annual subscription in advance.

Whereupon the following persons immediately paid the sum of 5s each, as members of the Society. The Hon. Thomas Baillie; The Hon. George Shore; C. J. Peters; Dr. Peter; H. G. Clopper; G. F. Street; James Ballou; Wm. Wilnot; Wm. I. Bedell; Amasa Coy; Jarvis Ring; P. Fraser; Dr. Somerville; James Taylor, Senior; Wm. Taylor, Junior; Smith; Dr. Woodford; Jos. Gaynor; John S. Saunders.

Resolved, That His Excellency Sir Archibald Campbell be solicited to become the Patron of this Society. And that the Hon. Thomas Baillie be a Committee to wait on His Excellency to communicate the purport of this Resolution to him. Resolved, That the proceedings of this Meeting be published in the Royal Gazette.

N. B.—The Subscription List of the Members of the Society lays at the office of the Secretary. And as the objects the Society has in view, are such, as it is presumed, no one can object to, and the annual subscription so small, that all resident Inhabitants, with a few exceptions, may become Members without inconvenience, it is to be hoped the Subscribers thereto will be general. GEO. FRED. STREET, Secy.

At a Court of Special Sessions of the Peace of Our Lord the King, holden at the County Court House in Fredericton, in and for the County of York on Tuesday the 3d day of July 1832, in the Third Year of His Majesty's Reign.

WHEREAS there is great reason to apprehend, that the Pestilential Disease, called the Asiatic Cholera, which has made such devastation in Europe, and is now raging in Canada with great violence, may very shortly be introduced into this Province;—wherefore it becomes a duty to adopt all such measures, as prudence suggests, and the Laws of the Province will justify, to mitigate as much as possible, under divine Providence, its malignant effects, and prevent the spreading thereof:

AND WHEREAS the Inhabitants of the Town of Fredericton, at a Meeting by them held for the purpose, on the 28th ultimo, have elected and chosen a number of persons, as and for a Board of Health, to adopt such measures as to them shall seem expedient and necessary to meet the emergency.

BE IT THEREFORE RESOLVED, and it is hereby ordered, that the said persons so elected and chosen—to wit: The Reverend James Somerville, Doctor Charles Gunther, William R. Fraser, William J. Bedell, William S. Estey, Thomas Emerson, Peter Fisher, Jarvis Ring, Thomas Pickard, E. W. Miller, George Baldwin, Thomas Bowden, James Balloch, William Taylor, Charles S. Putnam, Henry G. Clopper, William Woodford, Charles J. Peters, Henry Whitcher, John S. Saunders and Thomas Barker, be and they are hereby constituted a Board of Health for the said Town of Fredericton, of whom the following persons, to wit: The Reverend James Somerville, Thomas Emerson, William Woodford, Charles J. Peters, C. S. Putnam and Thomas Pickard, be and they are hereby constituted and appointed the Committee of management of the said Board.

AND IT IS FURTHER ORDERED, That the several and respective Constables appointed in and for the Parish of Fredericton, do and shall obey such orders and directions as to them respectively shall be given by the said Board of Health, signified to them by the said Committee of Management, as to causing the removal of any Dirt, Filth, Rubbish, or any other offensive matter or thing from any Building, Yard, Enclosure, or Premises, which may be considered as tending to endanger the health of the Inhabitants, or to spreading the said disease.

AND IT IS FURTHER ORDERED, That any person or persons in the said Town of Fredericton, within whose Building, Yard, Enclosure, or Premises, any Dirt, Filth, Rubbish, or other offensive matter or thing shall be, who shall neglect or refuse forthwith to remove the same, and also to cleanse and purify the said Premises, in manner, and according to such directions, as shall be at the time given to him or them, by any such Constable, so acting under direction as aforesaid, shall for each and every neglect or refusal forfeit and pay the sum of FIVE POUNDS, to be recovered, paid and applied, as is provided by the Sixth Section of the Act of the General Assembly, made and passed in the 39th Year of the Reign of King George the Third, intituled "An Act to prevent the importation or spreading of infectious Distempers within the Province." Extract from the Minutes.

H. G. CLOPPER.

THUNDER STORM.—Between six and seven o'clock on Thursday evening last, one of the most terrific thunder storms that we ever recollect to have witnessed, burst over this City. A short time previous the fog which had prevailed for some days, became extremely dense, and day-light seemed to be fast disappearing, to the surprise of all. The vivid flashes of lightning, succeeded by appalling peals of thunder, accompanied with heavy showers of hail and rain which followed, displayed, in reality, a war of elements. The lightning struck the chimney, near the roof of the store occupied by Mr. George Chidwick, on the South Market Wharf, from which it removed a brick, and descending along the chimney to the third story passed through a closet containing crockery ware, which it destroyed, thence to a crane in the fire place, thence down the flue of the chimney, until it came in contact with a stove-pipe leading to a stove, in the adjoining store, owned and occupied by Mr. Stephen Wiggins, which it followed until it reached the stove, and then glanced off, striking the floor about a foot distant which it tore for some feet in breadth. It next traced to a distance of about six feet behind the counter, (whence it is supposed to have passed between the floors which are double) where it broke the flooring considerably, and disappeared without doing any further injury to the building. It is somewhat remarkable, that between the two places where its effects are visible, there were some nails and iron, which it passed without being attracted to the boxes they were in. There were four persons in the store, at the time, viz: Richard Ketchum, Esq. of Woodstock; Capt. Westcott of the barque Frederick; Messrs. F. A. Wiggins, and G. W. Potter; the shock knocked Capt. Westcott and Mr. Wiggins senseless for twenty minutes unable to rise; the others were only slightly affected.

The House occupied by Mr. Thomas Baldwin, in Meckenburgh street, near Queen's square, was also struck by lightning, which tore away the shingling, shattered part of the studding and east window to atoms, and forced its way down to the kitchen cellar. Mr. and Mrs. Baldwin were both struck, but not in the least injured. A soldier who was on sentry at the Barracks at the time, was slightly injured, and some fences in that vicinity were prostrated.—St. John Courier.

Extract of a letter, dated Sackville, N. B. June 21st 1832.—A most atrocious Murder has been committed in this hitherto peaceful part of the country. On Tuesday evening last, Mr. William Faucett, living in the upper part of this parish called his family together about 10 o'clock to attend their evening devotion, which being over, he was sitting by a candle reading his Bible, when some monster in human shape fired a gun through the window at him, and killed him immediately; he never spoke or moved after being shot. Mr. Faucett was a man of most amiable character, mild, offensive and retiring in his manners; he probably never wilfully offended any person, and has died universally regretted by all who knew him.

SHARRID. On Sunday evening, by the Rev. Robert Wilson, A. M., Mr. Walter Reid, of the Parish of Greenwick, King's County, to Miss Margaret Dempsey Oram, of the Parish of St. John.

At Saint John, on Thursday last, by the Rev. Dr. Gray, Stephen R. Thorne, Esquire, to Miss Maria Catharine, youngest daughter of the late Abel Sands, Esq., of Delaware County State of N. York.

DIED. On Friday last after a few hours illness Mrs. Mary Kent, consort of Mr. John Kent lately from Hinton, in Berkshire, (Eng.) in the 25th year of her age. She has left a family of three children, the youngest but 3 months old, and remains were interred on Sunday last.

At Kingston, (King's County) on the 25th inst. Mrs. Scovil, relict of the late Rev. James Scovil, in the 90th year of her age. Suddenly, at his quarters in the Pavilion Barracks, Halifax, on Sunday last, Captain Scott, Paymaster of the 96th Regiment, highly and deservedly regretted by his brother officers.

At Montreal, 4th inst. Jane, wife of Assistant Commissary General Price, aged 89.
