The following beautiful lines from the pen of the Rev. Dr. Baffles, of Liverpool, are copied from the Winter's Wreath, for 1832.

I love the roaring waterfall, Within some deep, romantic glen, Mid desert wilds, remote from all The gay and busy haunts of men : For its loud thunders sound to me Like voices from eternity.

They tell of ages long gone by, And beings that have passed away, Who sought, perhaps, with curious eye, These rocks where now I love to stray : And thus its thunders sound to me Like voices from eternity.

And, from the past, they seem to call My spirits to the realms beyond The ruin that must soon befall These scenes where grandeur sits enthron'd And thus its thunder sound to me Like voices from eternity.

For I am on a torrent borne, That whirls me rapidly away, From morn to eve,-from eve to morn, From month to month -from day to day And all that live and breathe with me Are hurrying to eternity.

This mighty cataract's thundering sound, In louder thunders soon must die; And all these rugged mountains round, Uprooted, must in ruin lie: But that dread hour will prove to me The dawning of eternity.

Eternity !- that vast unknown ! Who can that deep abyss explore Which swallows up the ages gone, And rolls its billows evermore! O, may I find that boundless sea. A bright, a blest eternity.
