

aving been taken off, you are no doubt pre-  
pared to expect a defalcation in our Revenue  
of the last year. I am happy, however, in hav-  
ing authority for stating, that this has not al-  
together arisen from that cause, but has been,  
in a great measure, occasioned by a vast dimi-  
nution in the quantity of imported Provisions,  
and by a great decrease in the consumption of  
ardent Spirits. It is also satisfactory to ob-  
serve, that notwithstanding the operation of  
the causes above mentioned, our Revenue of  
the last year, although less productive than the  
usually large one of 1830, still very nearly  
equals the average amount of that of former  
years; and I feel persuaded, that any loss of Re-  
venue that is to be ascribed to the two last men-  
tioned causes, will be hailed rather as a source  
of congratulation than of regret, by all who  
have the good of the Province, and the wel-  
fare and happiness of its inhabitants at heart.  
Here I must also remark, that in order to ar-  
rive at a fair view of the subject, due allow-  
ance must be made for the Treasury disburse-  
ment of last year, in returned duties upon re-  
ported articles, generally of the above de-  
scription, and which duties were of course in-  
cluded in the Revenue of 1830.  
It appears from the Report of the Commis-  
sioners of Saint Paul's Island Light House, that  
some expenses have been incurred in erecting  
Buildings, and in providing for the relief of  
Persons who may unfortunately be thrown on  
that Island. The Report I have directed to  
be laid before you, and my recommendation  
cannot be wanting to induce you to persevere  
in directing your attention to works of this de-  
scription; works which are as beneficial to  
Commerce, as they are honorable to humanity.  
I shall also direct to you, a plan and estimate of  
a new Light-House, to replace the one which  
was lately unfortunately destroyed by fire, on  
Partridge Island.  
I rely on your providing for the ordinary  
Services of the Province, and for such other  
necessary purposes as may come under your  
consideration. Your wisdom and experience  
will at all times dispose you to view the inter-  
ests of every class of the Community as inti-  
mately and inseparably connected with the  
progressive and steady prosecution of those ob-  
jects of public utility, tending to advance the  
settlement of the Country, and to develop its  
natural resources.  
Mr. President, and Honorable Gentlemen  
of His Majesty's Council,  
Mr. Speaker, and Gentlemen of the House of  
Assembly.  
I have great satisfaction in being able to  
acquaint you, that some disturbances, which  
had taken place in the Madawaska Settlement,  
and which threatened, almost as soon as I had  
landed among you, to interrupt the peace and  
tranquillity of the Province, have been brought  
to a satisfactory issue. The attempt to set up  
a Foreign Government within the Jurisdiction  
of the Province, was met by the trial and con-  
viction before the Supreme Court at this place,  
of certain individuals concerned in that attempt.  
But the conduct of these persons having, in the  
true spirit of friendly policy, been frankly dis-  
avowed by the proper authorities in the United  
States, I was enabled, in a way that admitted  
of no misconception, and by the exercise of the  
most grateful prerogative with which His  
Majesty has been pleased to intrust me, to show,  
that there is no want in the King's Authorities  
here, of a cordial disposition to cultivate those  
feelings of amity and good neighbourhood with  
the adjoining Power, in the maintenance of  
which both nations are equally and deeply in-  
terested.  
There is no object connected with the im-  
provement and future prospects of the Province  
to which I attach greater importance, than to  
the construction and improvement of Great  
Roads between the chief Towns and principal  
Settlements of the Country. Without good  
lines of communication, the growth and pro-  
gress of a country in wealth and population  
must ever be precarious and slow; while on the  
other hand, their existence is always regarded  
as conclusive testimony of a prospering and  
flourishing community; the subject is one well  
worthy of your most serious and unwearied at-  
tention. Under judicious management, and a  
wise and well organized system of expenditure,  
every shilling laid out on the roads will be am-  
ply repaid in the increasing value of private  
property; and every new path opened into the  
Forests, will prove a future Avenue, through  
which will be diffused the native riches of the  
soil.  
My attention has already been drawn to  
the great advantages that would attend the  
construction of a good Towing Path along the  
banks of the Saint John, from the point where  
Steam Navigation ceases, to facilitate and pro-  
mote the growing commercial intercourse, and  
inland traffic, between Fredericton and the up-  
per country. I recommend this subject to your  
consideration.  
I cannot quit this interesting topic, with-  
out warmly recommending the adoption of  
some well devised measures for encouraging  
the settlement of the Province, and for  
peopling, with industrious Emigrants from the  
Parent State, the many millions of acres of  
rich and fertile land still remaining in a state  
of unproductive waste. As the forests recede,  
before an active and increasing population, and  
as new lands appear, teeming with the natural  
gifts of a Beneficent Providence, we cannot  
doubt, with such a field for industry and en-  
terprise to work upon, that New-Brunswick may,  
under the blessing of an all-wise and over-ru-  
ling Power, soon attain a high degree of pros-  
perity,—for as the Plough advances, Wealth  
and Commerce ever follow in its train.  
I earnestly recommend to your continued  
protection, the defensive force of the Province.  
An efficient and well organized Militia is the  
Constitutional Bulwark of a brave and loyal  
people; and is, therefore, well entitled to the  
full benefit of your countenance and support.  
On this head, in obedience to the King's com-  
mand, I shall have occasion to address you by  
Special Message.  
The constant and careful superintendence  
of the different Seminaries of Education and  
Learning in the Province, must always be a-  
mong the most pleasing duties of a Paternal  
Legislature. In reviewing your proceedings for  
some years back, I have marked, with satis-  
faction, your unwearied liberality in supporting  
these Institutions; and your recorded opinion  
"That the advancement of Literature is a real  
blessing to Mankind," will find a ready echo  
in every generous mind. With such senti-  
ments as these before me, I need scarcely  
commend to your continued countenance and  
consideration, all the existing Establishments,  
for the diffusion of knowledge in the Province.  
I avail myself of this early opportunity to  
assure you, that I take a deep and most lively  
interest in this Province, and that my best ef-  
forts shall at all times be zealously directed to  
promote its welfare and prosperity. To render  
New-Brunswick every year a more important  
Member of the Great Empire of which it forms  
a part, and to show how well it merits the un-  
ceasing care and solicitude of the Government

of our Most Gracious Sovereign, are the sound  
and enlightened principles which, I feel assured,  
will guide, in all their deliberations, the Re-  
presentatives of a Loyal and Patriotic People."

**New-Brunswick.**  
COUNCIL CHAMBER,  
24th January, 1832.  
His Majesty's Council this day pre-  
sented to His Excellency their address in an-  
swer to His Speech, as follows:  
To His Excellency Major General Sir  
ARCHIBALD CAMPBELL, Baron-  
et, Knight Grand Cross of the Most Ho-  
norable Military Order of the Bath,  
Lieutenant Governor and Commander in  
Chief of the Province of New-Brun-  
swick, &c. &c. &c.  
THE HUMBLE ADDRESS OF HIS MAJESTY'S COUN-  
CIL IN GENERAL ASSEMBLY.  
May it please Your Excellency,  
WE beg leave to return our thanks to your  
Excellency, for your Speech at the  
opening of the present Session.  
We are duly sensible of your Excellency's  
regard to the general convenience, and the in-  
terests of the public service, in the time, at  
which you have now convened the General  
Assembly.  
We sincerely participate in your Excellency's  
congratulations upon the prosperous and im-  
proving state of the Agriculture of the Pro-  
vince; and we are deeply impressed with the  
importance of encouraging this great and per-  
manent branch of industry, which, in a young  
country especially, is peculiarly entitled to the  
constant attention of a wise and watchful Le-  
gislation.  
We have also much satisfaction in reflecting  
that the Trade and Fisheries of the Province  
are, upon the whole, in a thriving condition.  
We are well aware of the many natural advan-  
tages which this Province presents for the pro-  
secution of mercantile pursuits. We therefore  
consider that the promotion of Commerce  
should be one of the leading objects of our Pro-  
vincial policy, and we shall gladly hail the time,  
when all the resources of the country shall be  
brought into full and active operation.  
We offer to your Excellency our best thanks  
for the prompt and judicious measures which  
your Excellency pursued, in relation to the late  
disturbances in the Malawaska Settlement.  
The attempt to set up a Foreign Government  
within the jurisdiction of the Province was frus-  
trated by calling into operation the ordinary  
process of the Law; and the subsequent exer-  
cise of the Royal Prerogative in favor of the  
convicted offenders, while it can admit of no  
misconstruction under the circumstances which  
induced it, afforded an opportunity for shew-  
ing to the people of the United States the cor-  
dial disposition, which exists in the King's au-  
thorities here, to cultivate those feelings of  
amity and good neighbourhood, which it is  
equally the interest of both nations, and the  
obvious desire of their Governments, to main-  
tain.  
We have ever been sensible of the vital im-  
portance of good lines of communication be-  
tween the several parts of the Country, to its  
growth and progress in wealth and population.  
We feel, therefore, great satisfaction in per-  
ceiving the zealous concern which your Excel-  
lency appears to entertain for the improvement  
of the roads. We think that there is no object  
more worthy of the anxious and unwearied at-  
tention of the Legislature, than the establish-  
ment of a wise and well organized system for  
the expenditure of the large sums which are  
annually devoted from the Province Treasury  
to this most interesting object.  
The construction of a good towing path  
along the banks of the Saint John, in order to  
facilitate the growing intercourse between  
Fredericton and the upper Country, we also  
deem to be an object well deserving immedi-  
ate consideration.  
It cannot be doubted that an increase of popu-  
lation is, above all things, wanted to promote  
the growth and prosperity of the Province; and  
we shall gladly concur in any well digested  
measures for encouraging industrious emigrants  
from the Parent Country to settle upon the new  
lands, which still remain, in such vast quanti-  
ties, in a state of waste, and offer so productive  
a field for labour and enterprise.  
We entertain a full sense of the importance  
of an efficient and well organized Militia. This  
branch of our Provincial establishments will  
continue to receive our countenance and sup-  
port, and we shall not fail to pay the most re-  
solute and respectful attention to the communi-  
cation which, in obedience to the King's com-  
mand, Your Excellency has announced that you  
will have occasion to make to us.  
The Legislature of this Province has hitherto,  
as your Excellency has been pleased to re-  
mark, shewn an unwearied liberality in pro-  
viding means for diffusing the blessings of  
Education among all classes of the people; and  
we shall not cease to bestow our countenance  
and consideration upon the existing establish-  
ments for this purpose.  
Our best acknowledgments are due to your  
Excellency for the deep and lively interest,  
which you have expressed, in the welfare and  
prosperity of the Province. Your Excellency's  
name has been so distinguished in other parts  
of the world, that we cannot but consider your  
being appointed to the administration of this  
Government, as a proof of its being already  
held in no mean estimation in the Councils of  
the Mother Country. We beg leave to assure  
your Excellency that we shall most zealously  
cooperate in endeavouring continually to in-  
crease the importance of New-Brunswick as a  
member of the British empire, and evincing that  
it well deserves the unceasing care and soli-  
citude of the Government of our most Gracious  
Sovereign.  
To which His Excellency was pleased  
to return the following answer:—  
Mr. President, and Honorable Gentlemen  
of His Majesty's Council,  
I receive this Address with the greatest plea-  
sure, and I thank you for the flattering  
expressions it contains of your good opinion.  
The assurance of your ready attention to  
all such objects of a public nature as may be  
submitted to your consideration, is most grati-  
fying to me, and I cannot but anticipate, from  
your wisdom and local experience, results, the  
most beneficial to the Country.  
On my part, Gentlemen, it will ever be my  
greatest pleasure, and most anxious study,  
in concurrence with the other branches of the  
Legislature, to maintain the honor, and pro-  
mote the welfare of this Province.

**HEAD QUARTERS,**  
FREDERICTON, 24th Jan. 1832.  
**MILITIA GENERAL ORDER.**  
It being desirable that every Regt. of Mi-  
litia should be complete in the number of its  
Officers: The Commander in Chief, on referring  
to the General Order of the 1st instant, de-  
sires that officers commanding Corps, will be  
pleased to transmit forthwith, for his approval,  
the names of such Gentlemen, as they may  
deem proper to recommend, to fill up the Vacan-  
cies of their respective Battalions.—And at the  
same time they are called upon, to furnish  
the Adjutant General with an Account or  
statement of the Funds of their regiments,  
showing all the receipts and disbursements up to  
the 31st day of December 1831 inclusive, for  
the purpose of being laid before His Excellen-  
cy.  
By Command,  
GEO. SHORE, Adj. Gen. Militia.  
**CIVIL APPOINTMENT.**  
William End, Esquire, to be Clerk of the  
Peace and Inferior Court of Common Pleas for  
the County of Gloucester, in the room of  
Richard Carman, Esquire.  
Our latest European intelligence is again  
brought by the Western Mail. The Boston  
papers contain dates to the 30th November,  
but we do not perceive much news of an im-  
portant nature. It was rumoured that  
Parliament would not assemble before Janu-  
ary. The Cholera at Sunderland had  
not abated.—A letter from the Sheriff of  
Sunderland, states that the disease appears  
not to be infectious, as none of the persons  
employed to attend on the sick had taken  
it.  
We are happy to state that there is not the  
slightest foundation for the reports that have  
been current of new difficulties having occurred  
to Ministers, relative to the Reform Bill. The  
success of that measure is quite certain, what-  
ever course the Government may think proper  
to adopt, for the purpose of carrying it. The  
new Bill will not in principle vary in the slight-  
est degree from that of Lord John Russell.—  
In the popular sense it will, if possible, be even  
more strong. The same number of boroughs  
will be disfranchised altho' there may become  
change as to particular places, and the mem-  
bers taken from them will be distributed among  
the counties, and large towns. In the minor  
details of the Bill, and more especially in the  
machinery of polling and registration, some im-  
provement will be introduced calculated to give  
a more extensive development and additional  
efficiency to the principle of this great measure.  
—Courier.  
We entertain a strong opinion that Parlia-  
ment will not re-assemble till the first week in  
January. Much inconvenience would ensue  
from the inability to sit beyond a fortnight,  
without an adjournment, to say nothing of that  
event taking place before any thing definite  
could be done in the Commons. Nothing,  
however, will be decided, before the Council  
sits at Brighton, on Monday.—Globe.  
The news from Sunderland is unfavourable.  
A letter from that place dated the 17th says  
"I arrived at the instant of the meeting of the  
Commission of Health, and I am sorry to say  
there are six sudden deaths, and many bad cases.  
Every body maintains that the disease is not  
contagious, because no person attached to the  
sick has been infected. It is said there are  
also more cases at Stockton and New Castle.  
There are not, after all, more deaths here than  
are common at this season, perhaps less."—  
Lon. Nos. 21.  
The daily report from Sunderland, Nov. 28th  
states that the cholera was increasing, and that,  
on that day, there were 14 new cases. From  
the 26th Oct. to the 28th Nov. there were 296  
cases, and 86 deaths.  
A very serious riot is said to have taken  
place at Lyons, in France, between the manu-  
facturers and the workmen, which continued  
for three days. The cause of the riot was the  
distressed state of the workmen. The rioters  
obtained complete possession of the city, ran-  
sacked, pillaged, and set on fire to various parts  
of it—and threw into the flames and burnt up  
an immense amount of stock, furniture, and ac-  
count books. The National Guard took part  
with the manufacturers and fired upon the ri-  
oters. A cannonade was kept up by the  
Guards during the whole time, which caused a  
deadly slaughter. The last accounts state  
that the place was more quiet—and that the  
Duke of Orleans had left Paris for Lyons.  
Mr. Atkinson states that as he was leaving Lon-  
don, cries were giving notice in the streets,  
that publications were in the Press, which  
would contain an account of an *Insurrection in  
Lisbon, and the Flight of Don Miguel.*  
Various reports are in circulation that a  
change in the Cabinet was contemplated before  
the meeting of Parliament, and that the pro-  
posal of creating a number of new Peers, was  
disapproved of by very many of Earl Grey's  
staunch supporters.  
Two ships of the line and other vessels, with  
one steam boat, were preparing in France to  
transport 17,000 men to Algiers, to relieve the  
garrison.  
The American ship Othello set sail from Havre,  
on the 22d November, with 22 millions,  
the sum due from France to the United States.  
Letters from Corfu represent the condition  
of Greece as quite tranquil.  
The French King on the 10th issued an Or-  
dinance, creating 36 new Peers; the object is  
known to be the abolition of Hereditary Peer-  
age.
