PHILIP RISTEEN. Fredericton, 24th September, 1834.

THE TWOPENNY MAGAZINE

Weekly Museum of Literature, Amusement and Instruction.

MONG all the periodical publications of New Brunswick and the sister Province. there is none devoted exclusively to general in struction and amusement. The very nature of Newspapers prevents their affording to reader much interesting matter, unconnected with no litics and the daily occurrences of life; and more especially are they unadapted for the indiscriminate perusal of YCUTH. The writer has had repeated opportunities of discovering hat something of a different nature is very desirable : many parents wish for the establish ment of a small publication, exclusively composed of such instructive and entertaining matter, as they may safely furnish for the gular perusal of their children; while country residents, by whom a frequent accession is books is unattainable, greatly desire an opportunity of obtaining a periodical supply of useful and amusing information, at a cheap rate. To accomplish this desideratum, and thus to afford an agreeable companion for the leisure hours of such persons, it has been determined to commence the publication above named The work will consist of a pleasing and varied succession of brief articles, comprising every description of useful information, (exclusive of politics and daily news,) in LITERATURE SCIENCE and the ARTS; original and selected TALES, SKETCHES, BIOGRAPHIES, ANEC. DOTES, ESSAYS, REFLECTIONS, Notices of New Publications, Poetry, &c.; in short is intended to form a complete Museum of useful and interesting reading, such as may be N Tuesday the 10th day of February, if acceptable to all ages and classes, and which
