No. 12.
Downing-street, 31st July, 1833.
I HAVE the honor to acknowledge the receipt of your dispatch dated 5th January, 1833, on the subject of Quit Rents, which, owing to the loss of the Packet containing the original dispatch, has only arrived within the last few days. My dispatch No. 6, of the 1st of June last, will have informed you, that, in consequence of the suspension of the collection of Quit Rents in Nova Scotia, it is deemed necessary that the same course should be taken in New-Brunswick; but in order that this measure may not mislead you as to the views of His Majesty's Government, I must distinctly explain to you, that should it be found impracticable to effect a satisfactory arrangement with the Assembly for a Civil List, the Collection of Quit Rents will be resumed.

"I have the honor to be,
"Sir,

Downing-street, 2nd September, 1833.
In reference to that part of my Dispatch No. 18, of the 7th of August last, in which I mentioned that the draft of a Bill on the subject of Water Lots, would be prepared in this Country; I have the honor to inform you, that, upon reconsideration it appears to me, that a Bill requiring so much knowledge of localities can be drawn with most advantage in the Colony, and I have therefore to request that you will devolve the duty upon the Provincial Attorney General.

"I am,

Frederickton, 27th January, 1834.
May it please Your Excellency,

YOUR Excellency having communicated to me, on the thirty-first day of October last, that by instructions received from His Majesty's Government, the duty of preparing the draft of a Bill to be laid before the General Assembly, having for its object to quiet the apprehensions of Proprietors of Lands, holding grants from the Crown fronting on the Banks and Rivers or other waters in the Province, had been confided to me as Provincial Attorney General, in place of the same being prepared and sent out from England, I have now the honor to report that immediately after the receipt of Your Excellency's communication, I caused Public Notice to be given to the inhabitants to that effect, through the medium of the different High Sheriffs of Counties, and also in the public Newspapers, stating that I would receive information from the owners of Lands so bounded as to the relative situation of their respective Water Fronts, and the extent and nature of the desired accommodation by them respectively required, to enable me to discharge the duty thus imposed on me, a copy of which notification is herewith enclosed marked A.

The meeting of the Provincial Legislature being now very nearly at hand, I have to state, that although three months have elapsed since the date and publication of that notification, I have not as yet been favoured with any communication from which I can derive such information as will enable me to perform the duty required of me, according to the spirit and intention in which the Royal Instructions appear to view the intended boon. Copies of the only ones as yet received, I also enclose numbered 1, 2, 3, 4, 5.

From the general knowledge which I possess in consequence of a residence in the Colony since its first establishment in the year of our Lord 1784, and having visited every section thereof, I am induced to entertain many doubts whether any Law, in abstract and general terms can be framed which will not, in the result, be liable to produce and will produce, unlooked for inconvenience, it not collision and expensive legal controversy between many, very many of the different proprietors of lands bounded as expressed, as probably the greater part of those lands so circumstanced has passed out of the hands of the original Grantees, in many cases, in divisions and subdivisions, and by particular meets and bounds, according to the understanding and view of the parties, without looking forward on either side to the measure now in contemplation, and under such circumstances, that no general or even particular provision of the law will meet, and could only be settled between them by resort to a Court of Equity, a most dilatory and expensive proceeding in this Country.

As the object of His Majesty's Government, in proposing to carry into effect His Majesty's most gracious intentions in this respect, by an Act of the Legislature in place of a Royal Grant of each locus in quo to each respective individual, was, I humbly conceive, to save expense to the grantees, and not with any view of submitting to the sense and judgment of the General Assembly in Legislative discussion, any question as to the nature or extent of the proffered boon, it cannot be considered an unproffered request that any person interested and desirous to participate in the proffered gracious offer, shall make known the nature and extent of the benefit or privilege the possible deprivation of which by any grant hereafter to be made may be deemed a hardship, as being contrary to what he may have understood to be within the intent, scope and meaning of the original grant, and no injury can arise to the holders of such lands by postponing the preparation of the proposed draft of a law, until full and satisfactory information can be obtained, as it appears to be the intention of His Majesty's Government that no grant shall pass or sale be made of Water Fronts, which may be deemed contrary to the reasonable expectations of a former grantee; and in all future grants care will be taken to prevent ambiguity or uncertainty; and further as in the leading case referred to in the Royal Instructions on this subject—to wit, the case of Messrs. Hazen, Simonds, and White, those original

Grantees many years since applied for, obtained and now hold a licence of occupation from the Government for the entire space between the lines of high and low water mark, in such part of their grant, as can on any principle consistent with the terms of that grant, the public interest and other grants from the Crown be conceded to them.

"I have the honor to be,
"Sir,
"Your most obedient
humble servant,
(Signed) "CHARLES J. PETERS."
Major General Sir Archibald Campbell, G. C. B. &c.

Mr. Speaker informed the House, that a communication had been placed in his hands by His Excellency the Lieutenant Governor, from the Vice President and Professors of King's College, which was read at the Clerk's Table, and is as follows:—

"KING'S COLLEGE,
"FREDERICTON, February 4th, 1834."

"ENCOURAGED by Your Excellency's solicitude for the promotion of Knowledge, we beg leave to submit to your consideration a proposal which, with Your Excellency's approbation and countenance, we are disposed to communicate to the public.

"It would afford us great satisfaction if, by any exertions on our part, an Institution established, as this College has been, for the intellectual improvement of the Province, could be made immediately conducive to the general education of its inhabitants. With this view we are prepared to receive a class of young men, desirous of acquiring competent qualifications for the instruction of youth in their several Parishes.

"The Members of this class would not be required to make any payment to the College or its Officers, nor would they reside within it. No restriction would be laid on their attendance at places of public worship: applicants of different religious denominations would consequently be freely admitted; but it would of course be thought proper that they should be furnished with satisfactory testimonies to the purity of their moral character. The hours appointed for their instruction might be so regulated, as to leave a portion of their time at liberty for other pursuits.

"Young men of good abilities and diligence, having previously received such an education as the Parochial Schools may now be capable of imparting, might generally be expected in the course of twelve months to make that proficiency in Grammar, Arithmetic, Geography and History, which would entitle them to a certificate of qualification for the ordinary duties of a School. But no objection would be made to a protraction of the period should peculiar circumstances render farther instruction necessary, or higher attainments in Literature or Science desirable.

On the publication of this proposal, and any other proceedings connected with it, which may appear expedient, we respectfully await Your Excellency's judgment. It has not been founded as Your Excellency will have observed, on the anticipation of an addition to those honorable Acts of the Legislature, by which the Seminars of Education in the Province are liberally endowed. But should a little alteration in the provisions of any of those statutes be considered likely to advance the efficiency of our design, experience will not permit us to doubt that such an amendment would be cheerfully accorded.

We have the honor to be,
"Sir,
"Your Excellency's most dutiful
And obedient servants,
EDWIN JACOB,
JAMES SOMERVILLE,
GEORGE M'CAWLEY,

To His Excellency
Major General Sir Archibald Campbell,
Bart., G. C. B. Lieutenant Governor,

The Warrants issued are to Nos. 675, of which those from No. 1 to No. 124 inclusive, are already paid by the Treasurer. In future, notice will be given monthly in *The Royal Gazette*, of the last number paid, in order that the holders of subsequent numbers may be enabled, as far as practicable, to judge of the probable time of payment.

To be continued.

King's College, Frederickton,
February 18th, 1834.

The Vice-President and Professors, with the approbation of His Excellency the Lieutenant Governor, Chancellor of the University, and under the sanction of the College Council, are prepared to receive a Class of young men, who may desire to be qualified for the instruction of youth in the several Parishes of the Province.

The members of this Class will not be required to make any payment to the College or its Officers, nor to reside within it. No restriction being laid on their attendance at places of public worship, persons of different religious denominations will be freely admitted; but satisfactory testimonies to the purity of their moral character must be presented with every application. The hours appointed for their instruction will be so regulated, as wherever it may be necessary, to leave a portion of their time at liberty for other pursuits.

Young men of good abilities and diligence, having previously acquired the elements of an English education, might generally be expected in the course of twelve months to make such a proficiency in Grammar, Arithmetic, Geography and History, as would entitle them to a certificate of qualification for the ordinary duties of a Parochial School. But the Vice-President and Professors, being anxious to further to the utmost of their power the general advancement of the Province in sound and useful knowledge, will not confine their pupils to those limits, should peculiar circumstances render farther instruction necessary, or higher attainments in Literature or Science desirable. Prompt attention will be given to Applications and Communications on the subject, which may be sent (free of Postage) from any part of the Province.
