

great importance to be swept away and abolished at a breath, even on the recommendation of a Committee of the House of Commons. The returns from the different Colonies will have afforded Your Majesty's Ministers correct information as to the quantity of shipping and number of seamen employed in the trade, —to those documents we confidently refer; —we feel assured that the immense importance of such a nursery for British Seamen will have the deepest consideration with Your Majesty, even if there were no other interests and no other rights worthy of attention—but Your Petitioners appeal to their Gracious Sovereign with full confidence of continued protection; and most humbly pray, that Your Majesty will not be guided by the advice of those who would seek to encrease a doubtful Foreign Trade at the expense of a prosperous Colonial Commerce—but that the protection heretofore afforded to the Colonial Timber Trade may be continued and firmly established for a definite period.

And your Petitioners will ever pray, &c.

FLORAL AND HORTICULTURAL SOCIETY.

Our short season of Summer has long since passed away, and is now numbered with many of more propitious character, and with some that bring less pleasing recollections to our minds.

The tulip and ranunculus left us, as usual, after a brief but brilliant existence, in early summer. The carnation and pink blossomed at a more genial period, and lingered a few more short weeks amongst us. The proud dahlias then displayed their radiant form and gorgeous apparel, and long sustained their day of beauty, nor yielded to the chills of frost till they had sadly witnessed the death of every sister flower in the garden. Indeed the whole family of flowers have long since died or deserted our parterres, "and the place that once knew them, now knows them no more."

Every kitchen vegetable too, but the frost defying parsnip and cabbage, has retreated to a wintry asylum, while "stern winter" has already laid his white, but cold and heavy hand upon the grounds that blossomed, as it were, but yesterday, with the gayest luxuriance of vegetation.

Short as our summers are, however, they mature a thousand beautiful flowers, and many delicious fruits and useful vegetables; and while we lament that our plants and shrubs cannot blossom in the open ground during the winter, we must have no little comfort in reflecting that the short season which so soon cuts them off gives such quick and salubrious growth to our kitchen vegetables, as makes them superior in every respect to those produced in the tropical climates, where flowers perennial never cease to bloom.

The kindly feeling we entertain towards the Floral and Horticultural Society prompts our present remarks. We know it was organized but a few short months ago. We are sensible much could not have been done in one brief summer, but we believe that much more than could be reasonably expected has been brought to pass. We feel quite sure it has given a great spur to Horticultural pursuit, and that many who have hitherto neglected them entirely have engaged with great spirit during the past season, and done much, in a quiet way, which they never attempted before.

It is to be regretted that many have refrained from exhibiting the fruits of their care and labor from a too modest apprehension of falling so far behind more successful competitors as to hazard disabliging remarks. We say it is to be regretted, because they and every body should know that every exhibition of the produce of the garden, however humble its pretensions, is a compliment to the Society and an effort for its welfare. Whether worthy of prize or even of much consideration, it must be well received as an offering and regarded with a favorable eye.

The Society was first projected about a year ago, at the house of a gentleman of acknowledged taste and talents, where a few amateurs were assembled at breakfast. It was agreed on all hands that the usefulness of such a Society was beyond question, and means were at once set on foot to establish it. Many persons of distinction became subscribers, and His Excellency the Lieutenant Governor obligingly consented to be its Patron. After some preliminary meetings, it was first regularly organized on the 12th day of March last.

The first season after its formation being now past; we think it both proper and expedient to take notice of it in our columns, with the single and sincere desire of contributing all in our power to its usefulness. It will of course be necessary that we should have correct information from its Officers, and we shall be most happy to lend our best exertions to give publicity to their proceedings and measures, with such remarks of our own, if desired, as will, we hope tend to confirm the present and excite a lasting interest in its welfare.

We see no reason why our inclement winters should make us oblivious of the warm and glowing sunshine of our summer months, and the fruits and flowers and vegetables which then flourished in our gardens. For reflections on the past and anticipations of future returning bright seasons must during the approaching bleak one, be our best and only consolation. Indeed, our summers are so short and the various objects demanding our notice follow each other so rapidly upon us, that we have scarcely time to give them, and many other matters, even a passing remark, much less the consideration they deserve.

In the populous towns of the Mother Country, the proceedings of a Horticultural Society in their vicinity would be the constant theme of discourse. In such places there would always be found many well informed amateurs who could and would devote their whole time and talents to the subject, or in other words make it the ordinary business of life. Newspapers would teem with

productions from various clever pens, that could not fail to keep up a lively interest. In short, thousands would make it their hobby for the simple reason of having a diverting and innocent employment for their time, or (what is much the same thing) of having an agreeable hobby that they could ride without reproach.

The case is extremely different in a small community like ours. We can hope here to find but few (perhaps none) who can, as it were, wed themselves to a pursuit like this. For with us every man has his calling, his profession or business, which must be attended to, and must engross his time, and Horticulture or any other diversion can with him be regarded only as an amusement for hours of leisure, if he has any. In short, the various avocations of business occupy the time of very many persons in this community who would, if directed by their own inclinations, give their undivided attention to the interesting objects of the Floral and Horticultural Society.

We refer our readers to another column of our paper for a list of the prizes awarded at the last autumnal meeting, and we hope to be able in a future number to renew our remarks, and give some further account of the proceedings of the Society during the past season.

Died.

On the 27th ult. at his father's residence in Canning, (Q. C.) in the 49th year of his age, Mr. George Stilwell. He had dined with his friends in usual health, and before seven o'clock that evening, his lifeless body was arrayed in its grave clothes, ready to be deposited in the silent tomb. The sudden removal of Mr. S. loudly indicates our Lord's admonition, "Be ye also ready."

NEW BRUNSWICK

Floral and Horticultural Society.

Under the patronage of Major General Sir Archibald Campbell, G. C. B. &c. &c. &c. Lieutenant Governor.

A general Meeting of the above Society, held at the Office of the Corresponding Secretary, C. S. Putnam, Esquire, on the 7th instant, it was resolved, after an inspection of the Committee's Reports, kept during the season, that the Premiums offered at the General Meeting in February last, be adjudged as follows, viz:—

For the earliest Cucumber to H. G. Clopper, Esquire; for the earliest crop of Peas to Mr. Watts; for the earliest Cauliflower, to Mr. S. Fleming; for the heaviest, ditto ditto; for the best crop of Onions, to J. E. Woolford, Esq; for the best variety of Melons, ditto; for the largest and heaviest Strawberries, ditto; for the largest and heaviest Gooseberries, to Mr. Watts; for the best Apple, ditto; for the best variety of Carnations, to J. E. Woolford, Esq. ditto Pink, Mr. Watts, ditto Seedling Pink, ditto, ditto Dahlia, J. E. Woolford, Esq. ditto Seedling Dahlia, ditto, ditto Ranunculus, Mr. Watts.

Wild Flowers brought into Garden cultivation, to Mr. Watts.

It is hereby notified, that the parties may receive the same on application to Mr. R. Gowan, the Treasurer of the Society.

By order of the President, G. LEE, Jr. Recording Sec'y.

November 20, 1835.

A. P. COY.

Queen Street, Fredericton.

CENTRAL BANK OF NEW BRUNSWICK,

2d October, 1835.

A GENERAL MEETING of the Stockholders of the above Bank is requested to assemble at the Banking Rooms, on MONDAY, the 7th day of December next, at 12 o'clock at noon, to take into consideration the expediency of petitioning the General Assembly at the next Session of the Legislature for an increase of the Capital Stock.

H. G. CLOPPER, PRESIDENT.

LANDS FOR SALE BY THE NEW BRUNSWICK & NOVA SCOTIA LAND COMPANY.

THE New Brunswick and Nova Scotia LAND COMPANY having been long since incorporated by Royal Charter, with a Capital of £200,000 Sterling, with power to increase that amount to £400,000, and having purchased from the Crown the most central and delightful portion of the Province of New Brunswick, between the Rivers "Saint John and South West, Miramichi," have been quietly and unostentatiously improving a large portion thereof for settlement. The improvements consist of a fine line of Road, cut and now travelled upon, directly through what may be termed the Valley of the Nashwaak to the Company's new Town of STANLEY, where they have erected a SAW MILL of great power, with Circular Saws, capable of producing every description of Boards and Scantling necessary for Building, at the most reasonable rate and shortest notice—a GRIST MILL has likewise been built, with the most approved re-acting power, and the best and finest Granite and French Burr Stones introduced; so that the Sailer may have the opportunity (without difficulty) of getting the produce of his Farm rendered serviceable at the least possible expense.

The Town of Stanley, delightfully situated on the banks of the beautiful River Nashwaak, offers every advantage and inducement, both from situation and luxuriance of its soil, for immediate increase of population. Gentlemen of Wealth from England having already fixed their location there, their Buildings showing at once a cultivated taste and certain satisfaction of future success; a Tavern, a Blacksmith's Shop, and many Houses have been erected by the Company, most of which are now occupied or in course of completion; one hundred and fifty to two hundred Acres have already been cleared, and the principal part in a state of cultivation—proving to demonstration the capability and happy results produced by only ordinary labour, strict attention to the nature of the soil, and a proper mode of Agriculture.

The whole line of Road from its commencement to the South West, Miramichi, offers every inducement for Settlement, on both of which a number of small Farms have been laid off, some with Clearings and Log Houses built thereon, a few of which are inhabited, so that the Traveller will find accommodation at the most reasonable rate. The steady and persevering Emigrant will find that every attention will be paid, and every necessary facility given him to render his new undertaking as light and pleasing as the Company's interests may justly and fairly warrant.

The price of the Land will, as a matter of course, vary according to situation, but none will be higher than Twelve Shillings currency, or Ten Shillings sterling per Acre for the present Season; (Town Lots and Ten Acre Farms surrounding the Town excepted) every information about which will be readily and cheerfully communicated by the Company's Agent at Fredericton.

As many applications have been made for Town Lots without positive situations being named—it will be necessary for the Applicants to repeat their requests and fix upon the number in the Town Plot they would wish to occupy.

TERMS.—The terms of Payment will be made easy, as follows:—One fifth to be paid at the time of purchase, upon which a Location Ticket of Possession will be given, the other four-fifths by annual Instalments; but should the Purchaser pay the whole amount at once, a discount of 15 per cent will be allowed upon the purchase money, upon completion of which a Deed, in fee simple, will be immediately prepared by the Company's Solicitor, to be paid for by the Purchaser, putting him in absolute and sole possession.

The Company's Road has been cut out, but not yet finished to Campbell. (another projected Town on the South West, Miramichi River.) At this Establishment a valuable Property has been purchased by the Company, consisting of Saw Mill, Grist Mill, Blacksmith Shop, &c. &c. for some years in active operation, Houses built by the Company, and a beautiful Farm under good cultivation; the Line of Road from Stanley to Campbell proving yet more fully the value and richness of the Soil of this long neglected, little understood and most valuable portion of His Majesty's North American Colonies.

As enquiry will bear out every statement made in the above advertisement, and as every attention and assistance will be given to the most humble but industrious Settler, it is particularly requested that when real information is required, application may be made to—

E. N. KENDALL, Chief Commissioner, or JOHN STEPHENS, Fredericton; the Hon. J. CUNARD & Co. Miramichi; J. V. THURGAR, Resident Agent at Saint John, and ANDREW DUNCAN, — CAMPBELL, or the Hon. S. CUNARD & Co. Halifax, Nova Scotia.

Company's Office, Saint Mary's, near Fredericton, N. B.

November 25, 1835.

FESTIVAL OF SAINT ANDREW.

The Members of the Fredericton Society of SAINT ANDREW, and their guests, will celebrate the Anniversary of their Tutelar Saint, by Dining together at Mr. STAPLES' on the 30th instant.

Dinner on the Table at half past five o'clock.

Fredericton, November 25, 1835

FREDERICTON LIBRARY.

A number of forfeited Shares in the Fredericton Library, will be disposed of by private sale at the Library Room, after the 9th December next, unless the original Proprietors pay up their respective arrears before that day.

A few Shares are at present for sale, and can be obtained by application to the Librarian.

The following Books being missing from the Library, it is requested that they be returned to the Librarian.
