

to be examined by the officers of the College is probably not more than 14 years of age. But the proficiency in their several studies which they generally exhibited, was all that could possibly have been expected from their years.

For some time past that School has been distinguished, in the judgment of those who are most competent to judge of such matters, as a superior place of instruction in Mathematics. But on this occasion, the effects of the Rev. Instructor's diligence and skill in this department were more than usually conspicuous; and several extremely juvenile pupils exhibited talents, and a proficiency in the subject, which it was highly gratifying to witness.

The most alarming sensations have been felt by the inhabitants of this town and the surrounding country, from the extensive fire which have for some time raged with great fury in the Forests not many miles distant, and which have excited in very many persons apprehensions for the safety of the town. We are not alarmists, but from the gloomy appearance of things around, above and beneath us, we conceive that the utmost care and vigilance is necessary, and we are happy to hear that the Fire Engines are kept constantly filled with water in perfect readiness to be used when occasion may require. We trust that a kind Providence which directs and controls all things for good, will graciously avert those evils which threaten us, and that the rains may descend and stay the ravages of the destroying element, and revive the parched fields, that there may be yet plenty in our land for man and beast. We understand that vast tracts of fine land have been destroyed on the Miramichi, and some houses burnt.

At a general meeting of "The Tobique Mill Company," held at Mr. Berton's Office in Fredericton, on Tuesday the 14th day of June, 1886, pursuant to the bye laws.
