

By Dugald Stewart, Esquire, one of His Majesty's Justices of the Interior Court of Common Pleas in and for the County of Gloucester, in the Province of New Brunswick.

**NOTICE** is hereby given, that upon the application of Hugh Montgomery and John Montgomery, of Dalhousie in the County aforesaid, Merchants, to me duly made according to the form of the Act of Assembly in such case made and provided, I have directed all the Estate, as well as personal, within this Province, of Charles Carriek, late of Restigouche, Lumberer, (which said Charles Carriek is departed from and without the limits of this Province, with intent and design to defraud the said Hugh Montgomery and John Montgomery, and other the Creditors of the said Charles Carriek (if any there be) of their just dues, or else to avoid being arrested by the ordinary process of Law, as is alleged against him) to be seized and attached, and that unless the said Charles Carriek do return and discharge his said debts within three months from the publication hereof, all the Estate as well real as personal of the said Charles Carriek, within this Province, will be sold for the payment and satisfaction of the Creditors of the said Charles Carriek.

Dated at Dalhousie in the County aforesaid, the thirteenth day of April, 1837.

D. STEWART, J. C. P.  
A. BARBERIE, Att'y for Petitioning Creditors.

#### PROSPECTUS OF THE Nashwaak Mill Company.

**I**N setting forth to the public the general advantages to be derived from vesting capital in establishments of this nature, it is usual by matters of calculation to shew immense profits that must of certainty arise therefrom. As the gain or loss must at all times depend upon the activity and enterprise connected with the prudent management under which the affairs are conducted, it is not necessary to enter upon such explanations, but leave that subject wholly upon the localities of the situation where the establishments are to be erected, and the advantageous charter which the Legislature has been pleased to grant.

The River Nashwaak is about 60 miles from the Port of Saint John with its estuary directly opposite to Fredericton, the seat of Government of the Province, and extending into the Country a distance of 85 miles. This stream is well settled and has many extensive Farms on both sides thereof for upwards of 30 miles, where the New Brunswick Land Company are making very extensive improvements and building a Town. About three miles from its mouth is the site where this Company is to carry on its operations. It will not be saying too much when it is asserted that there is no situation in the Province that exhibits greater advantages—the Stream, or rather River, gives an abundance of water at ordinary times for miles, to any extent, and this may be vastly increased both for the use of the mills in a dry season, and also for steam driving, by throwing a short Dam across the outlet of the Nashwaak Lake at a very trifling expense, and at all seasons of the year can be in active operation, and the facility again of getting the Lumber to the Saint John Market is a very desirable object. It can be brought down to the mouth of the Nashwaak in Floats or Scows, and then loaded in vessels, thus preventing the injury which results from Lumber being too long in the water, consequently it will at all times command a better price.

There is attached to the Mill site on both sides of the stream about 1,000 acres of good Land; in addition to this there is a purchase made from Government of 24,000 acres fronting 11 miles on the same stream about fifty miles from the Mills; both these tracts are well timbered, but more especially the latter, which affords the most extensive growths of both Pine and Spruce, and it is also well adapted for settlement, as the continuation of the Royal Road from Fredericton to the Grand Falls passes along the south line of the tract. By the Royal Road the Land lies about 35 miles from the Mills.

With these few observations it is only to repeat that active enterprise must inevitably make the speculation a most advantageous one.

A most substantial and permanent Dam is erected at great expense, across the river, and there is now a mill with two saws, and a Circular, as also a Grist Mill in operation. The former manufactured during the last year about 2,000,000 of Lumber; this will give some idea as to what extent the business may be carried on. It may be well here to remark that the peculiar situation of the site for these Mills gives great advantages for the security of Timber to any extent both from any sudden rise of water, or the clearing out of the ice in the Spring of the year.
