

Great Britain, &c.

CORK, JAN. 4.

Orders have been received, we understand, to put the Fermoy Barracks in readiness for the immediate reception of a large body of troops, Horse and Foot.

Transports are expected at Cove (it is said that the line of battle ships Bellerophon and Vanguard, the former of 78 and the latter of 81 guns, have been ordered *instantly* from the Mediterranean, for the purpose) to take on board the depots of the 11th and 73d and proceed to Gibraltar, where they are to meet the service Companies of the regiments, now in Corfu, and take them on to Halifax.

In the reinforcements for Canada, alluded to in our publication of Saturday, we omitted to name a regiment of Cavalry (reported to be the 15th Hussars.) The following may therefore be taken as a pretty correct enumeration of the force intended to be embarked for this particular service, and we are led to believe that all are to proceed to Halifax as soon as the means of transport in ships of war can be provided.

1 Regiment of Cavalry, augmented to	450
93d Highlanders, augmented strength	600
Brigade of Guards, say	2,000
65th Regiment from West Indies, augmented strength	600
23d Fusiliers and 71st Light Infantry, augmented strength	1,200
Augmentation of 100 rank and file to all Regiments in Canada, Nova Scotia and New Brunswick, namely, 1st Royals, 15th, 24th, 32d, 34th, 43d, 60th, 83d, and 85th,	900
Total,	5,755

The 11th and 73d Regiments, ordered home from the Mediterranean, are to land at Gibraltar, there to await instructions in case their services should also be required in Canada.

Two companies of artillery are also, it is said, under orders for the same destination (Canada.)

An order from the Horse Guards was received in Garrison yesterday for volunteers to serve in Canada, with a bounty of one guinea to each man. The order was promptly read on parade to the 25th Regiment, at the New Barracks, when fifty active fellows, including several of the Grenadier Company, turned out without hesitation, and offered their services to the 11th and 73d Regiments which are the Corps specified in the despatch; and to join their ranks, these embark next week at Cork, on route to Gibraltar, where the 11th and 73d are to await orders for Canada. The 25th will supply at least 100 volunteers, as the Horse Guard's invitation is gone out this morning to the detachment at Bruff, Rathkeale, and Newcastle.

The 22d Regiment in Cork has been called upon for volunteers to the Regiments in Canada.—*Limerick Chronicle.*

All is activity at the Horse Guards, Major General Sir W. McBean, has been ordered to hold himself in readiness to take charge of a brigade consisting of the 23d, 71st 83d, and 94th Regiments, destined for Nova Scotia and New Brunswick; drafts from the Depots of the Regiments now at the seat of War have orders to rejoin their respective Regiments to make up the force to 600 men each; two Companies of Artillery are also ordered for the same destination, a brigade of Guards under Lord Saltoun, and the first battalion of Rifles, are also ordered to hold themselves in readiness. Colonel Fitzgerald has been appointed Inspecting Field-Officer of Militia to proceed forthwith to Canada.—*Evening Mail.*

Downing Street, Dec. 22.—The Queen has been pleased to appoint Col. Sir George Arthur, K. C. B., to be Lieut. Governor of Upper Canada. Sir George Arthur is to have the local rank of Major General in the Canada only.

Lieut. Franklyn, Royal Artillery, goes out with his company to Canada, and not to the West Indies. Capt. Wulf's company, Royal Engineers, detained for Gibraltar, is ordered to Canada, where artillery and engineers are more wanted.

Twenty-five officers on the half pay, have been ordered out to assume the command of, and direct the militia in Canada; many of them embark by the next packet. Among them are Colonel Cox, Major Macphail, Baron De Rottenburg, Lieut. Colonel Fitzgerald, late of the Legion, &c.

Twelve sail of French men-of-war have sailed for St. Domingo, to enforce the claims of that country. This measure has created much anxiety amongst British merchants engaged in the trade of that island.

Differences have taken place with the Kings of Ava, which is supposed would lead to war with Great Britain.

The French Chambers were in session. Another conspiracy against the life of the King is said to have been discovered.

George Young, Esq. in a letter of some length published in the Evening Mail, of 29th Dec. repels with just indignation, a charge of disloyalty made by Mr. Leader in the House of Commons, against Nova Scotia and New Brunswick.

Some of the French papers exult at the revolt in Canada; and it is said emissaries had three months since been sent out from France.

Sir Henry Hardinge has been appointed Governor General of Canada.

Removal increase in the Army and Navy.—It is stated in the city with confidence, that her Majesty's Ministers have under consideration the propriety of recommending to Parliament immediately after the re-assembling of both Houses, an increase both of Army and Navy. The augmentation of the former it is stated, will be from 15,000 to 20,000 men, and in the navy from 5,000 to 10,000. The affairs of Canada will render it necessary that the troops at that direction should be greatly increased, orders to that purport, in fact, have already been given. In the dockyards there has been a great number of additional hands placed upon full employment, preparatory to an increase of the British fleet.—*Observer of Sunday.*

Regulations for preventing trespasses on Crown Lands.

The Committee of Council appointed to take into consideration the most effectual means for preventing trespassing upon Crown Lands, and for securing the duties upon Timber and Logs cut upon the same, Report.

That they recommend that the Commissioner of Crown Lands should direct his Deputies to inspect Timber Berths, and ascertain the quantity of all Timber and Logs cut upon Crown Lands, in the manner heretofore observed, and adopt such measures as may be deemed advisable for the prevention of trespassing, and the collection of the duties; and that such Deputies shall receive twenty shillings per diem when actually employed, inclusive of all charges, except when it shall appear absolutely necessary to employ assistants, who shall receive at and after the usual rate of wages that may be customary in the respective Counties in which the same shall have been performed; that the said Deputies shall keep a distinct account of each day's service, the nature of the duty performed, the names of the places visited, and number of miles travelled in each day, which accounts shall be duly attested to before a Magistrate.

That the payment of forty five shillings upon each application for a licence to cut Timber and Lumber, be required to be made by the applicant as heretofore acted upon.

All Timber and Logs found without a mark, or with any other mark than that mentioned in the licence, and any Timber or Logs found in the possession of any person having a licence, marked with his mark, which shall exceed the quantity mentioned in the licence, and it shall appear that no licence has been applied for by the person to cover such excess previous to its having been cut, shall in all such cases be liable to double duty, and in case of the party or parties so trespassing, refusing to pay the same, it shall be the duty of the Deputy to seize the Timber or Logs so found, unless the person claiming such surplus Timber or Logs shall make it appear to the satisfaction of the seizing officer that such surplus was cut upon private property, provided that no double duty be imposed until after the first day of April ensuing.

That the Deputy shall receive one quarter of all double duties collected, and in case the Timber, Logs or Lumber be seized in default of the payment of the duties, the seizing officer shall be entitled to one third of the net proceeds of the sale of the same.

That the Deputies render a detailed account of all double duties collected, and seizures made by them, stating the name of the person or persons trespassing, the quantities, and when cut, whether in excess or without licence (as the case may be); if in excess state the number, date and quantity applied for in such licence.

The Committee recommend that the time for the payment of purchase money, and duties upon Timber and Lumber, should be extended to sixty days instead of thirty days, required by the existing rules and regulations.

WM. F. ODELL.

LOYAL ADDRESS FROM THE COUNTY OF WESTMORELAND.—The following Address, bearing upwards of eighteen hundred signatures, from the County of Westmoreland, was yesterday presented to His Excellency the Lieutenant Governor, by the Hon. Judge Borsford, accompanied by the Members of the Legislative Council and House of Assembly from that County.

To His Excellency Major General Sir John Harvey, K. C. H. & C. B. Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

We, the Inhabitants of the County of Westmoreland, in common with Her Majesty's loyal Subjects in these North American Colonies, do deeply deplore the attempts that have been made by a few factious and discontented persons to subvert the British Constitution in the Provinces of Upper and Lower Canada. While deploring so unnatural a Rebellion, we have

cause to exult in that burst of loyalty and of British feeling, that it has excited throughout this portion of Her Majesty's dominions.

Attached to our beloved Sovereign; proud of our connexion with our Parent State; and in the enjoyment of the many inestimable privileges and blessings under the Constitution, we desire no change; nor do we envy the subjects of any other government on earth.

Should our services at any time be required, for the purpose of repelling Foreign Invasion, or of suppressing rebellion in this or in any of the Sister Colonies, we will be ready at the call; and we do assure your Excellency, that in the performance of such services, when called upon, it will be our pride to emulate, to surpass, would be impossible, the spirit, loyalty and gallantry, of the Militia of Upper Canada. We have humbly to request, that your Excellency will be pleased to accept on behalf of our beloved Sovereign, the assurances of our attachment to her person and government.

Signed by the Honorable Mr. Justice Borsford, and 1800 others.

REPLY.

To the Inhabitants of the County of Westmoreland.

GENTLEMEN,
I receive with peculiar satisfaction an Address giving expression, in terms so forcible, to those sentiments of loyalty to our Queen and attachment to the Parent State, which pervading as I firmly believe them to be, the whole population of this Province, are, I am equally convinced, by no portion of it more warmly cherished than by the inhabitants of the County of Westmoreland.

The fact that the great body of the inhabitants of the British North American Colonies, see nothing to envy in the institutions of any other Government or State, is one which has been recently proclaimed and established in a manner so triumphant, as cannot fail of forcing upon the minds of the few disaffected the conviction of the utter futility of any future attempts to shake their allegiance.

From the commencement of the recent outbreak in the Canadas, promoted by inconsiderable and contemptible bands of traitors, I have had the unspeakable satisfaction of knowing, that not only has no taint of disloyalty infected any portion of this section of Her Majesty's transatlantic possessions, but that its entire population would be at all times found ready to come forward, as one man, with their services when required, whether for the purpose of repelling Foreign Invasion, or of suppressing rebellion in this or any of the sister Colonies, and that they would be found, when needed, acting in glorious emulation of their gallant fellow subjects the Militia of Upper, and I will add, of Lower Canada.

The expression of those sentiments on the part of the people of this Province, it has been and will continue to be my pride and pleasure to convey to the foot of the Throne.

J. HARVEY, Lt. Governor.
Government House, Feb. 6, 1838.

KING'S COLLEGE.—Amidst the many subjects of congratulation which this Province at present affords, we know not that any presents a fairer title than the existing state of the College. The instruction is now confessedly most ample, and the progress actually made by a body of generally attentive students is calculated to be as gratifying to their friends as satisfactory to the public.

From a "Synopsis of the system of Education established by the University of King's College," which has recently issued from this Press, we learn that "The instruction of the students is so conducted as to engage their whole time during the requisite terms, with the exception of such portions as are devoted to religious duties, or considered necessary for meals, exercise or recreation. The Lectures, given every day in the week except Sunday, generally occupy four hours; sometimes extending to five or six. Other hours of the day are expected to be set apart for preparation for these lectures, or private studies connected with them. When this division of the student's time is duly employed, eight or nine hours of every ordinary day must be assigned to mental improvement."

The same document informs us that "The course of instruction is so arranged as to embrace the successive study of the most approved Classical authors; the several parts of Mathematics and Natural Philosophy; Chemistry and Natural History; Intellectual Philosophy, Logic, and the Evidences of Religion, natural and revealed; Moral Philosophy and General History. The French language is also taught; and separate classes are formed by such of the students as desire instruction in Hebrew and Theology."

Referring our readers to the Synopsis itself (which may be gratuitously obtained on application at the College,) for the detail of this comprehensive course, we cannot forbear to express our satisfaction at the frugal terms on which our Provincial youth are enabled to avail themselves of its benefits. "The entire annual expense of lectures and tuition," we are assured, "exclusive of French, does not exceed nine pounds currency. That of board, for students resident in the College, scarcely amounts to twenty five pounds; and this is incurred for the period of actual residence only. The fees on admission to degrees are proportionably small."

In order to communicate a general knowledge of certain parts of the system, which are more peculiarly susceptible of experimental illustration, the Professor of Natural Philosophy and Lecturer on Chemistry have adopted the method of giving alternate lectures on the Saturday afternoon, to which the public are admitted on very easy terms. These lectures, we are happy to say, have proved highly attractive; having been honoured by the presence of His Excellency the Lieutenant Governor, Lady Harvey and family, with a numerous attendance from the Council Chamber, the House of Assembly and public offices, as well as of professional gentlemen and other respectable members of the community. To those who know the pains taken by the College Council, to obtain for the departments, occupied by Professor Gray and Dr. Robb, gentlemen of the highest qualifications furnished by the seats of learning in Great Britain, it can scarcely be necessary to add that one opinion

only is heard concerning the interesting nature of the lectures, and the value of the information communicated. Simple, luminous and elegant in expression, felicitous in illustration, and sensibly convincing by the experiments exhibited; they initiate even the students of an hour into some of the mysteries of nature; and will be found, we trust, to have inspired a taste for those scientific pursuits, which lead to the profoundest admiration of the works of its Great Author, and the most enlarged development of our powers in the arts and business of life.

LONDON, December 16.

—Last night the House of Commons fixed upon the sum of £385,900 as the amount to be given to Her Majesty in lieu of her hereditary revenues. The amount of Queen Victoria's Civil List will far exceed that given to King William IV.

Died.

At Fredericton, on Wednesday last, after an illness of only five days, ISAAC WOODWARD JOBERT, Esq., youngest son of Neophron and Gertrude Jovert, in the 32d year of his age. He early embraced himself to the respect and esteem of his superiors, and held the office of Gentleman Usher of the Black Rod, and Sergeant at Arms to Her Majesty's Legislative Council of this Province. His aged parents deeply feel their sudden and unexpected loss, for he was an affectionate and most dutiful son, a kind and attentive husband, and a tender and obedient parent. He has left a widow to mourn her bereavement, and three lovely children unconscious of their loss. His numerous relations and friends most sincerely bewail his early fate.

Below'd by all who knew him,
He was early called away—
Nor with his dear Wife and Children
No longer could he stay.
But he has passed Death's barrier,
"With his Staff and Rod."
To realms of everlasting bliss
With fervent hope in God.
