GOLD.—Our reporter was shown a small fist full of gold yesterday the result of the clean up of 25 tons of ore at the Memramcook mine. The results were pronounced highly satisfactory by the parties in charge of the mine.

—A number of assays have been made of ore from the Gouldville mine before described in those columns. They show gold in good paying quantities. The ores at both mines are low grade ores and the gold appears to be minutely disseminated in the metals.

—Mr. W. Warren, favoured the *Advertiser* with a call on Saturday last. Mr. Warren is a son of Rev. W. H. Warren, Baptist minister of Sackville, N. B., formerly of Bridgetown. Mr. Warren intends doing the greater part of Nova Scotia on his wheel.—Kentville Advertiser.

—Mr. William F. Campbell son of Rev. J. Roy Campbell of Dorchester has returned from Johnstown, Penn. He has done some very successful work in his department of civil and mining engineering both in Johnstown and in Wheeling West Virginia. THE NEW TRUNK FACTORY.—Christie & Co's new trunk factory is fast getting into working order. CONTRARY TO LAW.—A number of cattle from Sackville arrived in the city yesterday and their case is the subject of investigation by S. P. C. A. Agent Wetmore. The cars contained no bedding, which is contrary to law. It is claimed that the cattle were reshipped at Moncton and that the bedding was left out.—Telegraph.

THE SECRECY OF THE TELEGRAPH—The secrecy of the telegraph is no more and putting operators on oath will no longer avail. A telegraph wire became crossed with the telephone wire leading to the POST office yesterday and the hammer rattling against the bells made a fairly good sounder. Our morning duties were enlivened by a constant stream of 'Hope you are better,' 'Ship 9 cars oats at once.' etc., etc. It is evident therefore that all the enterprising telegrapher who wishes to become acquainted with the business of the country must do is to connect his telephone wire with the nearest telegraph wire. Our excessive honesty and regard for the feelings of the Telegrapher Co. alone prevent us publishing a supplement this week containing all the private business carried on yesterday between Halifax, St. John and Moncton.

MUSICAL FESTIVAL.—There will be a musical festival at Midgic Hall on Tuesday evening next Sept. 5th.

CAPE TORMENTINE PIER.—Three schooners in goverment employ have arrived at Cape Tormentine from Wallace with stone to raise the railroad track on the pier.

FIRE ON FOUNDRY STREET.—The barn belonging to the Charles Cole property on Foundry Street was burned Tuesday morning at 6 o'clock. Fortunately it contained nothing of value. The fire is supposed to be due to incendiarism.

ROUGH VOYAGE.—The Otto and Roy which sailed from Rockport for New York was compelled by bad weather to put into Vineyard Haven Mass. Capt. Egan in a letter states that the seas were the highest and the wind the strongest he had ever known.

NEW TELEPHONES.—The following new telephones have lately been put in on the Cape Tormentine branch of the Sackville El. Light and Telephone Co's lines.—At Baie Verte, E. C. Goodwin, Joseph Reed, Dixon Wood, and Dr. Black; at Port Elgin Medley Siddall (Central) Dr. Carter, Hazen Copp, E. C. Goodwin, David Murray, McLeod & Spence, Port Elgin Woollen Mills, Rev. A. H. Lavers; at Murray Road, T. Backlock & Co.; at Melrose. P. G. Mahoney; and at Bay Field, McLeod & Spence.

HEAVY LOSS FROM FIRE.—On Sunday Mr. Theodore Ayer of Middle Sackville attended church with his wife and daughter leaving at home his three sons one a young man the other two boys. During his absence one of the boys set fire to a hornet's nest in one of the barns and soon the two barns which were only about 12 feet apart, were in a mass of flames. The fire was seen by persons driving over Morice's bridge and on ascending Black's hill flames were seen bursting from the roofs of both barns. A large crowd of neighbors and people from Church soon assembled and by hard work and plenty of water saved the house and out-buildings. The buildings were all close together and had the wind been in the opposite direction all would have been consumed. With the barns Mr. Ayer lost over 30 tons of hay a load of grain, some harness, and all his farming implements. The entire loss is over $1000 and there was no insurance.

MARITIME COLT STAKES.—The first race called on Thursday 24th inst was for foals of 1891 mile heats 2 in 3. This was won by Parkland with Hatasn 2nd and best time 2.42½ Edith L. third. These three horses are from the Island, All the others were distanced in the second heat. The 2 38 class mile heats best 3 in 5 followed and was won by Balston of Summerside with C. P. R. of Truro N. S. second, Harry C. of Summerside took third place. Best time 2.32½. The day closed with the race for foals of 1890 mile heats 2 in 3 won by Sir Richard Amherst with Gracie Wilkes another Island horse second and George Buchanan Amherst third. Best time 2.45½. On Friday afternoon weather looked threatening but the track was in excellent condition. The Free-for-all mile heats 3 in 5 purse $300 was left unfinished, Stranger Brazilian and Parkside each having two heats. The three minute class mile heats 3 in 5 was won by Deceiver of Billtown N. S. with Maud M, Truro second best time 2.36. The 2.45 class mile heats best 3 in 5 was captured by Gordon Sim, Yarmouth N. S. with Kitty M, Truro, second, Nonpareil Memramcook third and Natalie Cuyler Charlottetown fourth. The best time was 2.33½. The final heat in the free-for-all was trotted Saturday morning, Parkside winning in 2.24½, Brazilian second, Stranger third. This is the fastest heat ever trotted by a provincial horse on a maritime province track.

THE UNIVERSITY RESIDENCE.—The first of this week workmen began to remove the last of the brick houses of Sackville which stood on the site to be occupied by the new brick residence of the University students, Other workmen are engaged in levelling off the land in the vicinity and the whole aspect of the neighbourhood is best expressed by the word "rush." Mr. Teed realizes that in order to complete his contract by the time stipulated, the fall of 1894 he must have the building roofed in before the snow of winter comes upon him and to accomplish this there is need of haste. His contract was for $39,000 over Messrs. Rhodes and Curry of Amherst, Donald of Moncton, and Prince and Mooney of St. John. The architects are Messrs. Dumaresq and Mott of Halifax, designers of many fine buildings in these provinces notably Dalhousie, Halifax. Situated at the junction of York and Salem streets with plenty of room in the rear and a broad sloping campus in front and looking far away to the eastward over the Tantramar marshes to the wooded shores of Nova Scotia the new building has probably the finest site in Sackville. It will be a noble structure, over two hundred feet long, of brick with stone trimmings, three clear storeys high, with a mansard roof, virtually affording another story. The monotony of the front will be broken by projections and horizontal courses of stone, and on the top over the front door will be a large cupola, set off by two smaller ones at the corners. Projecting from the centre behind will be a large ell containing the kitchen, washrooms etc. and another ell running along York St. will contain additional rooms for students. The building like the Ladies' College will face East but there will be an entrance for students on York St. and one for servants on Salem St. Each pair of students will share two rooms, a study and a connected bed-room. Single rooms will be provided for those who prefer rooming alone. Besides the students rooms there will be parlors, reception rooms Committee rooms, offices, hospitals dining room kitchen pantries, etc. and an assembly room nearly as large as the University chapel. The building will be heated by steam or hot water and water for washing etc will be brought from the reservoir at the Ladies College. Electric light will probably be put in at some future date. When all is completed no students in Canada will have a more beautiful or more confortable residence than the students of Mt. Allison University.

FOR SALE.—A nine acre lot in the spectacle body of marsh. Terms easy W. C. Miller.
