SACKVILLE N. B., JUNE 25, 1896.

THE LIBERAL VICTORY.

The Liberal Conservative Government has been defeated. After eighteen years this party is called upon to give place to that led by the Hon. Wilfred Laurier. The nature of the defeat was all that the members of the opposition could have hoped for. The new premier will have a majority in the house of about forty-five, which is a pretty good working majority for any government. In 1891 the conservative majority was only twenty one or two but they made gains in the by elections which largely increased their majority. It is useless to say the result of Tuesday's election was not a great surprise to Sir Charles Tupper and his friends. Possibly the confidence of the government candidates had something to do with their defeat. In Westmorland county Mr. Powell and his friends were too certain, and the government candidate and his friends may attribute his very small majority largely to lack of proper organization. The liberals were better organized and Mr. Robinson's friends threw themselves into the fight with greater zeal. That there was money used by Mr Powell's opponents there is little doubt, but the amount was not sufficient to turn the tide. The P. P. A. and the orange vote had much to do with Mr. Powell's small majority, factors, the power of which, the conservatives in this constituency failed to take into account, but these are influences which it is very difficult to successfully combat at any time.

In Kings county Col. Domville's election was due largely to more effective organization. The colonel has had an opportunity of becoming pretty well acquainted with the people of Kings, while Mr. Morton, the defeated Candidate was in the field a very short time. In St. John there is no doubt at all as to the cause of the liberal victory. Had Messrs. Hazen and Chesley received the votes which were given to the Independent party, their majority would have been handsome. While J. V. Ellis is personally a popular man, his running mate, Col. Tucker could never boast of anything akin to popularity outside of an isolated few. The Independents took three conservative votes where they took one liberal and this gave the liberals a good chance. Charlotte an old liberal constituency on the other hand has gone conservative as has also Carleton. In these counties the conservatives recognized they had no easy fight, they worked until the last moment and the result was a very substantial majority for both conservative candidates. In Sunbury-Queens Mr. Wilmot never had a fighting chance, Mr. King is a strong man and Mr. Wilmot's friends, at least those out side of the county, never considered his election among the probabilities.

There has been a great turn over in Nova Scotia, but it is a significant fact that wherever the conservatives were well organized and went into the fight in earnest they were victorious. A good illustration of this is in Annapolis where Mr. Mills defeated the premier of the province.

Mr. Dickie's friends in Cumberland failed because they were too sure. Mr. Logan and his friends were early in the field and they rested not for a moment. Mr. Logan is not a clever man and being a young man was not as well known as his opponent but he took nothing for granted and in pursuing this course he gained his election. He received many votes from workingmens societies which were considered safe for Mr. Dickie until the last moment. Cumberland has always sent a conservative to Ottawa.

Mr. Laurier swept his own province, where the conservatives expected a majority of fifteen or twenty at least. Quebec had been looked upon as the province capable of deciding the contest and being essentially a Catholic province the government felt reasonably sure of it. In the other hand Ontario which was expected to go strong opposition gave that party a very small majority indeed. After all the Manitoba school question does not seem to have exercised much influence one way or the other, for Quebec voted for the opposition and Manitoba gave the conservatives a majority.

The new premier's actions will be watched with a great deal of interest. The manner in which he will settle the school question will no doubt give rise to no small amount of conjecture. Will Mr. Greenway give the minority what they desire without any more wrangling or will he remain obdurate, and in case he does will Mr. Laurier pass a remedial order or will he not? The friends of Sir Charles Tupper are wondering how Mr. Laurier will adjust the tariff. Will he cut the head off protection and stamp the life out of its body, or will he preserve a certain amount of protection. The latter course seems the more reasonable. Mr. Laurier knows as well as any man in Canada that to abolish protection at this time would result disastrously. He dare not do it. It is reasonable to assume then that we will continue to enjoy a fair amount of protection. Mr. Laurier may, and no doubt will revise the tariff to some extent, but he will not make any very radical changes in it.

THE LIBERALS WIN.

THEY SWEEP QUEBEC AND RECEIVE A SUBSTANTIAL VOTE FROM THE OTHER PROVINCES.

HON. MR. LAURIER WILL HAVE A MAJORITY OF 45 IN THE NEW HOUSE—FULL RETURNS FROM THE LOWER PROVINCES.

The Liberal Conservative government has been badly defeated and coming as it did was a great surprise to the party. The conservatives counted on a large majority from Quebec. Being a Roman Catholic province they expected to receive the support of a large majority of the electors on account of the stand they took in the Manitoba school matter. But this province gave them 16 members and elected 48 liberals. In 1891 British Columbia elected all conservatives, this time two out of the four are liberals. Manitoba came to the front much better than was expected. She elected four conservatives and only one liberal. Mr. Greenway the liberal premier of that province with whom the conservative government has had so much difficulty, was returned to power a few months ago by a large majority. This fact did not seem to warrant the supporters of the conservative party anywhere outside of Manitoba, even hoping that they would be given a majority.

Prince Edward Island which elected four liberal candidates in 1891, elected but two Tuesday.

Ontario which was expected to go largely with the opposition chiefly on account of the ulta Pretestant spirit that prevails gave the liberals a major ity of one only.

On the other hand the conservatives lost ground in Nova Scotia. Nine liberals were elected and 11 conservatives, whereas in 1891 there were but five liberals.

New Brunswick which was termed the funner province of the Dominion, last election went solid conservative with the exception of two counties, Charlotte and Carleton. On Tuesday four liberals were elected and one independent. Strange to say Charlotte and Carleton counties this time went strong conservative.

The following table will show the result in all the counties of the Maritime Provinces.

NEW BRUNSWICK.

PORT ELGIN BAPTIST CHURCH.

The *Messenger and Visitor* in its issue of June 24th publishes the following with reference to the Baptist church at Port Elgin:—

Our friends and brethern in the denomination will doubtless be pleased to know how we, the Port Elgin Baptist church, are prospering. It is nearly a year since our building was opened for worship and while we have not had many added to our membership yet I think that we have prospered in other respects. The interest in our prayer meetings has been kept up and on Wednesday evenings our vestry is none too large to hold our social gatherings. On May 3rd, we organized a Bible school with over forty scholars. We had a union Sabbath school but many of us thought that it would be more profitable to us as a church to have our own school and teach our children what we believe to be the meaning of God's Word without fear of giving offence. If any of the Sabbath schools have any books to spare we can make good use of them here. I have been intending ever since the Convention last August to thank that body on behalf of our church for the liberal collection they took up ($85.95) in aid of our Building Fund. I pray that God will doubly reward the donors. It helped us out of a financial difficulty. Not long ago, in March, we had some money to raise and I thought I would ask the brethern in Amherst to help us, which they did willingly. They appeared to realize fully that it is more blessed to give than to receive. One brother gave me five dollars and gave me a letter to another brother who also gave me five dollars, and in an hour or two I had twenty-nine dollars. But our financial difficulties are not yet ended. the church property is mortgaged for one thousand dollars and the Building Committee are personally responsible for about six hundred more. We have to pay on the mortgage one hundred yearly besides the interest; in less than three months we will have to pay one hundred and sixty dollars. This is only a small sum, but it must be remembered that there are not many of us and none of us wealthy. I am willing to confess that in building so expensive a building our zeal got the better of our judgment. It is too large for present needs but there is a fair prospect of Port Elgin becoming a prosperous town in the near future, and if we can manage to hold our own for a few years we will come out all right. I hope to see the day when we will need a larger building to hold our congregations. We are trusting in God and the denomination to help us out of our difficulties. He will never forsake those who put their trust in him. We appeal to all churches and pastors of churches for tangible sympathy.

The Rev. C. P. Wilson is our pastor and we thank God that in his goodness and love he sent him and his admirable wife to labor amongst us; they are beloved by all. God has already blessed his labors in giving him souls, and we pray that he may still be blessed. When they came here we had no organ. Sister Wilson at once organized a society and called it the Helping Band, which meets every two weeks, at which a collection is taken. It has proved very successful and over eight dollars have been realized at a single meeting. She bought an organ for ninty dollars and by the Helping Band and donations from personal friends, has it more than half paid for, and she has paid other small bills besides; and then we must not forget our little daughter Glenna, who peddled candy every Saturday all winter through tempest and sunshine, and by this means raised over eleven dollars. Sister Wilson had something to do with that also.

The N. B. Eastern Association meets here in July. We would like for all who are interested in our welfare to come and see us at that time.

S. TRENHOLM.

METHODIST CONFERENCE.

The Methodist conference of New Brunswick and Prince Edward Island opened its annual session in Queen's Square church, St. John, last Thursday morning, with about 120 clerical and lay delegates present.

Rev. Thos. Marshall, pastor of Queen's Square church was elected president. The feature of the morning service was an address by Rev. Dr. Carman, General Superintendent, who conveyed the greetings of the western churches. The greater part of Thursday and Friday was taken up with routine work.

On Saturday the final draft of the station sheet was made. Supernumeraries placed at Centenary, are H. Daniel and H. Pope; at Springfield, Wm. Tweedie, S. A. Duke and Dr. Evans; at Fredericton, G. B. Payson and J. J. Cotter; at Moncton (Wesley memorial) John Prince and S. T. Teed; at Petitcodiac, Joseph Pascoe; at Charlottetown (1st church) D. H. Lodge Students are placed as follows:—At Kingston, Levi J. Leard, L. R. McDonald, Josiah Champion; at Upper Kent (Woodstock district) H Stanley Young; at Grand Manan, R. A. Colpitts. At Sackville, Chas. Stewart, D. D., C. H. Paisley, A. M. and Ralph Brecken, D. D., are in connection with the institutions. Kingsclear is to be supplied. Wm. Wass is to be stationed at Kes wick; J. A. Clarke at Newcastle, W. B. Thomas and Geo. Harrison at Derby (Fredericton district;) J. L. Williams at Point de Bute; J. C. Berrie at St. Andrews; H. D. Balderstone at Bocabec, (St. Stephen district;) S A. Bailey, at Grand Manan; J. S. Allen at Murray Harbor (Charlottetown district); Thomas Hicks at Tryon (Summerside district;) John Goldsmith at Alberton, (Summerside district.) Rev. J. J Treasdale of Centenary church St John will go to Fredericton.

Saturday morning Rev. John Prince of Moncton was presented with an engrossed and framed address in honor of his ministerial jubilee. The presentation was made by Dr. Stewart and the address was signed by Rev. Thos. Marshall president, and Rev. Geo. Steel, secretary of the conference.

The Sunday School report was read by Rev. Henry Penna of Northumberland Co. sec'y of the S. S. Committee. It showed that there were in conference at May 31st 374 preaching appointments 231 schools, 1852 officers and teachers.

The total number of scholars is 14103 an increase of 276 for the year. Average attendance was 9788, increase of 137. Of the scholars 137 had united with the church during the year and now the number of scholars members of the church, is 3478. There were 3968 scholars who had the total abstinence pledge.

On Monday the report from the Mt. Allison institutions was heard. Rev. Dr. Allison president of these institutions addressed the conference. At Mt. Allison he said there was a average attendance of 80 young men boarders, and the results of the year had been very satisfactory. All debts had been paid during the year. He spoke of the $100,000 left the Institutions by the late Mr. Massey of Toronto, and of the $200 bequeathed by the late Mr. Hutchings of St John, and in closing he referred to the success of the Sackville Seminary, under the care of Dr. Borden. He was glad that the services of Rev. Dr. Paisley had been procured as a teacher in the theological branch of the institution and the reappearance of Rev. Dr. Brecken as professor of homiletics would be a great acquisition to the college. Rev. Dr. Stewart, he would say, was the most overworked man in the place, and was very consciencious in his duties,

Rev. Dr. Stewart, dean of theology, also spoke at length on Mount Allison, and Mr. Palmer, Principal of the Boys' Academy, reviewed the work of that Institution. It was very cheap, the total cost of sending a boy there being $175 a year.

Rev. John A. Clarke moved a resolution expressing satisfaction with the successful work of the institutions, and it was seconded by Rev. Dr. Pope, and carried.

The ordination service in Queen square drew a congregation that tested the seating capacity of the spacious edifice. The candidates were Harvey D. Marr, Henry Price and Hedley Balderstone. The latter, who has been previously ordained by the Methodist Episcopal church of the United States, was received into full communion here. Rev. G. M. Campbell, president of conference, Rev. Dr. Carman, and others took part in the service, and the musical portion of the service was admirably rendered by the choir of the church. Conference adjourned Tuesday to meet at .It was a very pleasant session and a large amount of business was transacted.

A weekly commercial review of the situation in the United Stated says: General trade continues depressed in almost all lines. Demand is smaller than a week ago and request for and offerings of commercial paper have decreased. Mercantile collections continue complained of and the tendency of prices, particularly of cereals, sugar, coffee, pork products, cotton and cotton goods, and iron and steel, continues downward, Many bank clearings are heavily reduced, reflecting the quietness in trade and speculation. They show not only a heavy falling off from June a year ago, but are smaller than the May total, something which has occurred only twice in thirteen years. Total clearing at sixty-nine cities for May aggregate at $4,218,000,000, a decrease of thirteen per cent. from June a year ago. For five months the clearings aggregate $21,277,749,614 this year, an increase of 1.9 per cent. over 1895. The total number of business failures throughout the United States this week, as reported to Bradstreet's, is 237 compared with 227 last week and 236 in the first of June, 1895. Total bank clearings throughout the United States this week, five per cent. more than in the preceding week, but flourteen per cent. less than in the first week of June, 1895. Exports of wheat (flour included as wheat) from both coasts of the United States this week have been the largest since the third week in January, 3,209,000 bushels against 2,064,000 bushels last week, 2,991,000 bushels in the first week of June, 1894, 2,742,000 bushels in the corresponding week of 1894 and 3,834,000 bushels in the like week of 1893.

THE HALIFAX CRONICLE says W. S. McKie, who went over from Charlottetown to be one of the officials in yesterday's race, brought Provider with him and left the horse with J. L. Cox of Amherst, who will handle him this season. Mr. Cox also has the four-year-old Kickapoo, which is owned by Mr. McKie. Provider is by Preceptor, and Kickapoo is by the same sire out of Natanis. These two horses should give a good account of themselves this year.

BAPTIST.—Sackville 11 a m; Bethel, 2.30 p m; Sackville 7 p m. W. C. Vincent.

Canada exports several million dollars worth more lumber to the United states than to Great Britain. The value of Canada's forest products is about $80,000,000 per annum, of which nearly 70 per cent goes into local consumption.

A Sure and Simple Protection from Cold.

Good meals and warm clothing are of more value—if you haven't got them—than anything else. World wide fame seems of small account if you are hungry or the wind is whistling through your body. So any new feature which makes comfortable clothing possible for every one is of more real importance to us than the discovery of a new planet. This explains the great popularity of Fibre Chamois, an interlining made from pure spruce fibre, which gives a perfect healthful warmth without adding weight or bulk The reason is that it is an absolutely non-conductor of heat or cold. The rawest winds can't get through the clothing lined with it, nor will it let the natural heat of the body escape. So that it ensures comfort in all weather, for a trifling expense.
