TIGHT BINDING
RELIURE TROP RIGIDE

portant, the Government seems not disposed to oppose his labors. As the modern kingdom of Poland is a Roman Catholic country, in which the National Church of Russia (the Greek Church,) has almost no influence, it is quite possible that the Imperial Government will interpose no obstacle, especially if the Lutheran Consistory of Warsaw should be favorable, as seems to be probable. God be praised for this token of good in Poland! It is probable that by the regeneration of the Protestant and Roman Catholic populations of Russia, the truth will be made to penetrate into that great Empire.

The letter of Mr. Alf, in the last number of the Missionary Magazine is exceedingly interesting.

To my great joy I am able to communicate information of the continued progress of God's work in Poland. The circulation of the Scriptures and of religious tracts is vigorously and successfully carried forward. I have not yet suffered any actual punishment; but complaints are being entered against me, and recently I underwent an examination by our judge, who made inquiry whether I still held religious meetings, &c. On my replying in the affirmative, he said, "But you know this is forbidden by the President." I stated that the court of justice had given their assent to our meetings, and besides, that no human power could prevent us from preaching the gospel, because the Bible enjoins it upon us. Then the judge asked what answer he should give the President? I said, a truthful one, i. e. that every Sunday, and sometimes during the week, the Baptists have religious meetings, at which they read the Bible and pray for all the authorities and States, and for all men, that God would enlighten them with his Holy Spirit.

Contrary to expectation, the consistory at Warsaw is not opposed to us. One of our opponents took the trouble to go in person to Warsaw, in order to give notice of my having administered the ordinance of baptism. The consistory, however, informed him that he might return home, for they had themselves permitted me to baptize. This fact seems to have produced a general impression that we have received liberty from the Emperor; for our loudest enemies are keeping silence.

From all parts of the country I receive invitations to come and preach, and I feel that my greatest efforts are insufficient to meet the demands made upon me.

August 30, I made a missionary tour that afforded me many gratifying experiences. At Kukaoki, many persons so rejoiced to hear the glad tidings, that they would willingly have gone with me. At Kahn, I held a meeting in the school-house, which was put at my disposal by the schoolmaster. He and his wife applied for membership with us, and besides them thirteen other persons, who are converted. As there was no opportunity here for administering the ordinance, the friends promised to come to Adamow.

On the 26th I administered baptism to sixteen believers in the river Nerve. When we returned home from the baptism, it was three o'clock A. M., and Sunday morning. This did not prevent us from taking part in the blessed services of the Sabbath, which was one on which the windows of heaven were opened, and spiritual blessings showered down upon us Especially the dear friends from a distance declared this to have been the happiest Sabbath in their life.

Pray for us, that we may, by the Divine blessing, enter in and occupy this land.

ITALY.—A letter from Rev. Mr. Newell gives the following interesting intellengence:—

"I am happy to be able to say that our stations for evangelization in Tuscany seem to be sensibly developing and consolidating. At Leghorn, where we have a settled minister, the meetings are very full, and are continually increasing in attendance. The congregation exceeds 200. We had great difficulty in finding a room, which has now become too small for us, and the occupancy of which would even soon be denied us. We consequently decided to buy a piece of ground, well situated in the centre of the city, on which there is a shed which we are having transformed into a modest but convenient chapel, decent, well ventilated, and lighted; it can be arranged to contain, if need be, 350 to 400 worshippers.

"At Pisa we have also stationed, since the commencement of this year, a minister who has 60 regular hearers, and they are also increasing in number. There are many young people with whom special meetings are held; these are workmen. But the pastor hopes also to establish intercourse with the students of the University where he is attending lectures. He succeeded in opening at once an elementary school with a young Tuscan teacher, who went through his preparatory course at our normal school at La Tour, and a Sunday-school, which does good to parents as well as children.

"At Florence, also, our congregation grows. It varies from 80 to 120, with about 60 communicants. We have a school for boys, and one for girls, with thirty-five scholars, a Sunday-school, and a Christian Union for the young. Our Theological students give us satisfaction. They are regular, they labor, and endeavor to render themselves useful in the work.

SWITZERLAND.—The Christian World gives the following:—

There is an excellent little society in Geneva, whose object is to do good among the "Dispersed Protestants." An agent of that Society, M. Marchand, has been making some very interesting tours in the High Alps in France, immediately South of Savoy, in the cold and stormy region, where winter reigns seven months in the year—which was the scene of Felix Neff's apostolic efforts, and where he wore out his life in toil too great for his physical constitution. M. Marchand found hundreds of people in the hamlets of the deep valleys and mountain-sides, who still retain some knowledge of the old faith of their ancestors, and who remember the fervent preachings of Felix Neff. He found much to encourage and cheer him among these poor, simple-hearted people, the descendants, without doubt, of the French Vaudois, or the Waldenses in the French sides of the Alps. It is well known that this wonderful people were numerous on both sides of that range of mountains, and that their churches were destroyed, and their pastors killed or driven into exile, by Francis I., and his infamous successors on the French side.

General Intelligence.

The Concert given by the St. John Musical Association last Friday evening, gave great satisfaction to the audiance The solo's by Miss Brundage, Miss Crawford and Mr. Drake, were enthusiastically received. The pieces sung by Miss Herrington and Miss Masters were also well executed. This Association deserves encouragement.

COTTON FACTORY.—We are glad to learn that steps are being taken to erect a Cotton Factory in this City. A Company is formed, and a supply of machinery, &c., will be procured from England as soon as possible. This will afford a new means of employment to our young men and women.

FIRST ARRIVALS OF THE SEASON.—We learn from the Westmorland "Times," that on Tuesday week the schooners "Arno" and "Banner," arrived at Moncton, being the first arrivals of the season.

PROROGATION.—The House of Assembly was prorogued on Friday at 4 P. M., with the usual ceremonies. This prorogation is a dissolution. The elections will probably come off about the end of June. All our politicians are looking forward anxiously to the results.

FIRE AT FREDERICTON.—A fire occurred on Tuesday week, at Fredericton, in the house of Mr. Lee on Westmorland St. A number of buildings were destroyed, mostly insured. The Fredericton "Reporter" advocates the purchase of new engines for the City Fire Department.

THE WEATHER.—For some days the weather has been mild as summer. Our streets are almost destitute of snow and ice, but travelling continues unpleasant. The River will be open in a day or two.

NOVA SCOTIA.—The cry of "Gold" has again been raised in Halifax. Mr. Anderson, Surveyor of that County, brought to Halifax a quantity of the precious metal, which had been procured in the neighbourhood of Tangier River. These consisted of about an ounce of fine gold, and some pieces of quartz streaked with gold. About £50 or £60 worth had been discovered in that locality. Mr. A. reports that considerable excitement prevailed in the neighbourhood. The N. S. Government have given him a letter of instructions to the effect that he should proceed to the spot, and lay off the lands in lots of 50 feet by 20; and as the land was private property, to give the owners the first choice, and other parties applying should pay the sum now paid for a license to search for gold, viz, £10. The owners of land also to receive £1 out of every £10.

The Halifax "Reporter" advocates the establishment of a Provincial University having its headquarters at Halifax, and taking in all the Colleges at present existing in the Province as auxiliary Institutions.

Rev. Edwin Clay, M. D., late pastor of the Carleton Church in this City, has been delivering lectures on Physiology, &c., in Halifax The Press of that City speak highly of his ability.

A new election is to take place on the 8th May next, for a member to represent the County of Victoria, Cape Breton, in the Legislature.

The "Reporter" states that in the vicinity of Porter's Lake, Halifax County, diptheria in an aggravated form, has been making ravages. Strange to say it has been altogether confined to adults.

It is said that the Shubenacadie Canal will be completed and opened for traffic during the present season.

On the arrival of intelligence at Halifax from Boston, that the Bombardment of Fort Sumter had been begun by the Rebels, the House of Assembly passed a resolution, unanimously, expressive of their sorrow and regret at the outbreak of civil war among their friends and neighbours of the United States.

CANADA.—The total quantity of copper shipped from the mines in the Lake Superior Region, was, during the past year, upwards of 3,664 tons. It is said that the prospect for extensive operations in the district was never better.

The Perth "Courier" says:—One day last week a young lad brought a piece of quartz rock to Mr. Lilly's Foundry in Perth to get smelted, which was done, and about sixteen pennyweights of bright yellow metal procured. This the lad took to Mr. Northgraves, watchmaker, to get it tested, when it was found to be pure gold. The lad refused to tell his name, or the place where he had found the sample, and merely remarked as he left, that "his fortune was made." We believe it is now an established fact that the neighbourhood of Perth is rich in mineral wealth. Look out for the gold mine.

COAL OIL VS. GAS.—A correspondent of the Toronto Globe says, in a letter to that paper:

"For the year ending 1st April, 1860, I paid the Gas Company, $49 02. For the year ending 1st April, 1861, I paid for coal oil, 15 20."

A Southerner, from Texas, has been arrested at Montreal, at the instance of a creditor who tracked him all the way from Brownsville, Texas. He is alleged to have swindled his creditors out of $140,000. It is said that some difficulty will arise in this case, for Texas belongs to the "Confederated States," with whom England has no extradition Treaty.

A French Canadian, named Hyacinthe Fabien Charlebois, a Magistrate and Commissioner of small causes, residing in the village of Vaudreuil, has been tried and found guilty of perjury. Motion for a new trial was granted, and the prisoner allowed to stand out on giving bail in £400.

Nineteen persons have been arrested at Toronto on suspicion of complicity in the murder of Hogan. The evidence against them is said to be very conclusive

BRITISH COLUMBIA.—A correspondent to the Canada Christian Guardian, writing from New Westminster, says:

"We are expecting a large immigration from California and Oregon the coming spring. Confidence in the British Columbia mines is now pretty well established on this coast. The testimony of the successful miner with his budget of yellow dust, has proved more potent than the incorrect and discouraging statements of the California press. The crown lands in this colony are now reduced to one dollar per acre, and the pre-emption law is in full play. The people, however, are not without real cause of complaint. We have no resident Governor, nor representative institutions, beyond a municipal council in this city, with very limited powers. The executive still reside in Vancouver, a seperate and rival colony. Indeed it is likely to remain separate for some time to come, unless the governmental policy of the two colonies can be assimilated. Vancouver has adopted the free port system. We have our tariff and our custom-house. And then Vancouver is a good deal entangled with Hudson Bay and Indian claims; and this colony is not willing to form any matrimonial alliance with her, until matters are put into a different shape. But the main question is in regard to the Capital. The feeling of this colony is, that in the event of an union, New Westminster, from its central position, should be the head; but if an alliance were now effected, Victoria, (which is at one corner of the "British Pacific,") would probably be the capital for some years to come.

A "Convention" composed of delegates elected by the residents of the colony, is to meet here next week to discuss their wants and grievances, and to represent the same to the Duke of Newcastle.

The New Westminster Times, British Columbia, is informed that a movement has been made amongst the Presbyterians of New Westminster and other places in both colonies to obtain clergymen from Scotland of their own denomination. Request to this effect have been forwarded to the church authorities in Scotland.

UNITED STATES.

Our citzens were startled on Saturday by the receipt of intelligence from Boston that the first blood had been shed in the second American Revolution. It had been the hope of all friends of law and order on this continent, that after the quiet instalment of President Lincoln at Washington, a reconciliation between the contending parties might eventually have been effected, or that they might have agreed to separate in peace. This news, however, will shatter these aspirations and desires. The following is a rapid resume of the incidents of the last few days.

On the 8th inst., Governor Pickens of South Carolina received a notification from President Lincoln that unarmed vessels, with provisions for Sumpter, would be despatched, and if not received peaceably, force would be used.

On the 10th, Fort Sumpter was ordered to surrender. Major Anderson refused. On Friday morning the steamer "Harriet Lane" attempted to enter the harbour of Charleston with provisions, when the Rebels opened fire from Fort Moultrie—the other batteries following. Fort Sumpter replied at intervals and cano nading was kept up from 4 a. m., till late at night. The Harriet Lane, which was somewhat damaged, retired to join the two steam frigates outside the bar. 2000 soldiers were with the fleet, but a storm was raging and they could not enter the harbour for the relief of Fort Sumpter. The firing was kept up all night at intervals of twenty minutes. Major Anderson re-opened cannonade from Supmter at six in the morning. The storm still raged and the fleet could not cross the bar. At length at half-past 9 a.m., an explosion took place in Sumpter, the officers quarters took fire, and Major Anderson ceased firing in order to subdue the flames. Shot and shell continued to be sent into the fort from the shore batteries; every missile seemed to tell. Frantic spectators occupied every available position in Charleston. Finally, a few hours later, having, with but seventy men, defended this spot, for many months, and done all that man could do against overwhelming odds, Major Anderson haulded down the stars and stripes, and surrendered to the "Confederated States" the smoking ruins of Fort Sumpter. The loss on the Federal side was trifling—four men badly wounded, one mortally. No loss to the Confederate's.

Additional telegrams inform us that Anderson and his men were to leave Charleston at 11 o'clock on Sunday night by steamer "Isabel" for New York.

By the latest Telegrams to the News Room, we learn that the news of these events has created the most intense excitement throughout the country.—President Lincoln has issued a proclamation calling out 75,000 Volunteers, and convening Congress to meet on 4th of May. The governors of the loyal States are tendering men and money. The war feeling excited throughout the North and West is intense. New York has appropriated $3,000,000 to equip Volunteers. The quota of troops which Massachusetts is to furnish is mustered and quartered in Faneuil Hall. It is estimated that altogether 300,000 Volunteers have offered their services to the Federal Government

Meanwhile, the Borner Slave States are refusing to aid in crushing the rebellion. The governor of Kentucky refuses to furnish troops to the government, and it is thought that Virginia will soon pass a Secession ordinance.

Arrival of the "Fulton."

BOSTON, April 15th, 3.30. P. M.

Steamship Fulton with dates to the 3d arrived at New York to-day.

Warlike rumors connected with Austria continue.

The Duke of Newcastle has been appointed Governor General of India.

Breadstuffs quiet and steady. Consols 91¼ a-91⅜.

Arrival of the "North Briton."

PORTLAND, April 16.

The "North Briton" arrived this morning at a quarter past 3.

Probablity of a compromise in the Builders' strike.

The French Navy has been organized in five divisions.

Bourse lower.

Garibaldi continued at Turin.

Porte has ordered the blockade of the Coast of Montenegro, assisted by the combined Hungarian and Italian movement, which is about to commence, Garibaldi taking part.

MARRIED.

By Rev. S. March on the 13th inst. Mr. Samuel Manzer to Miss. Margaret Stewart, all of the 2nd Falls. St. George.

RHEUMATISM CURED.

KIDDER'S RHEUMATIC AND BONE LINIMENT.

FOR the permanent Cure of Rheumatism, Gout, Neuralgia, Sprains, Burns, Bruises, Stiffness of Joints, &c. &c.. and all complaints where an external application is required.
THIS LINIMENT has been successfully used through out the N. E. States and British Provinces for more than 3 years, and received the praises of the afflicted, and its virtues are acknowledged by some of the most eminent Physicians of the States, who give their testimony to its efficacy, and freely recommend and use it in their practice.
TRY IT!

All who are suffering from Pains.

A thorough trial of this Liniment is warranted to cure all or any of the above named complaints.
For pain and stiffness, arising from BROKEN BONES it is one of the greatest blessings, sufferers can have.
CHAPPED HANDS by its application become soft and healed
As a remedy for restoring the falling of HAIR, and removing Dandruff, it is not to be surpassed by any of the Hair Restoratives of the day.
HEADACHE is cured by a brisk application of the Liniment.
Prepared and sold Wholesale and Retail by D. B. KIDDER & Co., No. 12, Maverick Square, East Boston, Mass Sold by Druggists generally.
