TIGHT BINDING
RELIURE TROP RIGIDE

the Report of the Committee will soon be published, and circulated through the country, which will thoroughly exculpate me from this unfounded slander; but I do not wish to have the public mind abused for a single day by these misrepresentations, got up probably, not so much to injure me, as to carry out some party design. I will now conclude by merely saying to these gentlemen, that being called upon to tell the truth upon the occasion referred to, in justice to myself I could do nothing else, however unfortunate it might seem to them, since it could not meet their wishes.

Yours, &c.,
A. WHITEHEAD.

Fredericton, March 15th, 1861.

From our own Correspondent.

FREDERICTON, Monday 18th.

The past week has been signalized by the Resignation of all the members of the Government except Hon. Charles Fisher, in consequence of Mr. Fisher's having obtained Crown Lands in violation of the regulations of the C. L. Department. Mr. Fisher, it is understood, declined to resign his office in the government as requested by his Colleagues preferring to run the chance of being called upon to form another administration, even though compelled to throw himself into the arms of the opposition. It appears, however, that even the honor of attempting an impossibility, was not vouchsafed to Mr. Fisher. The resignation of Messrs. Tilley, Watters, Brown, Steeves, Steadman, Mitchell, Smith and Wark, were not accepted by the Governor and it seems to be understood that Fisher will be dismissed by His Excellency the same as any other public official. Of course, the Governor must act in this matter with the consent of his Council and no doubt the announcement that will be made in the House this afternoon will show that he has done so and that Mr. Fisher is no longer Attorney General.

I observe that the "Freeman" is endeavouring to prove that Mr. Tilley of to day, contradicts Mr. Tilley of 1858 with regard to his Crown Lands. Mr. Tilley, in the Session of 1858, March 8th, stated as follows:—(I quote from the "Official Debates:")—

"As far as he was personally concerned while a member of the Government or Legislature, he had never made application for an acre of land under the labor Act or any other Act."

The "Freeman" will now see it has been trading on a false report. In the same speech I find the following paragraph which the "Freeman" will excuse me for quoting:—Mr. Tilley said in conclusion:—

"It was one of those base fabrications put forth against the Government and especially against himself, from time to time, in the point he alluded to, and he did not hesitate to say, that the man who would do this knowing it was false required but courage to make him an assassin."

The Investigating Committee is about closing the enquiry to-day. On Saturday the House of Assembly, on a resolution of Mr. Wright, directed the Committee to insist upon an answer from Mr. Inches to the question, who were his partners? Mr. Inches to-day refused to answer the enquiry, stating that it would be a "breach of implicit faith" on the part of the Committee to insist on an answer as there was an understand between him and the Committee that he should not divulge his partners names.

To day there was very little done in the House. There was considerable discussion about a bill introduced by Mr. Lewis to permit magistrates to try £10 cases. Mr. End was in his best humor to day, and though I must insist that he talks too frequently, I felt much gratified at the "rubbing up" he gave Mr. Desbrisay, who made broad assertions against the magistrates of the whole province. Messrs. McPhelim, Desbrisay's Colleague, and Watters also sharply criticized his language. I dare say Mr. D. does not mean so much harm as his words imply, but he certainly shews to bad advantage to the House, and frequently subjects himself to intellectual floggings. The Bill was postponed three months. Yeas 20, nays 12.

Monday Afternoon.

GOVERNMENT MATTERS.

This afternoon about 4 o'clock, Hon. Mr. Fisher, and Hon. Mr. Tilley made explanations about the position of the Government; from which it appears that Mr. Fisher was first requested by his colleagues to resign but refused. The other members of the Government then tendered their resignation to the Governor stating at the same time, that had Mr. Fisher resigned the other eight could have carried on the business of the country. The Governor and Mr Fisher had some correspondence, Mr. Fisher requesting that the Governor would allow him as Head of the Government, to reconstruct the administration, which his Excellency respectfully declined to do. The Governor meanwhile declined to accept the resignation of the eight members, and called upon Mr. Tilley to take the necessary steps for going on with business. The Executive Council then requested the Governor to dispense with the services of Mr. Fisher as Executive Councillor, and Mr. F, was notified to that effect. The Government stands in the same position it did before, with the loss of Mr. Fisher and without an Attorney General, whether the vacancy will be filled up during the present Session is uncertain, though the chances are against it.

A mass of correspondence between the Governor, Mr. Fisher and the other members of the Government was laid before the house, embracing the above facts. Mr. Fisher and Mr Tilley made some important remarks. Good feeling seems to exist between all parties. The opposition seems considerably taken back by the able management of the Government.

MR. TILLEY'S POSITION.—The St. Andrews Standard, a Conservative paper, contains the following:—"The investigaton" completely exonerates him (Mr. Tilley,) and is certainly a thorough vindication of his character. The efforts of those who seek to damage him in the public estimation, have failed—miserably failed. An honest man can stand any amount of misrepresentation and come out unscathed."

THE CENSUS.—The Census of New Brunswick will be taken very shortly. The Schedules has been published in the *Royal Gazette* but in no other paper. This is not as it should be. In Nova Scotia every newspaper is publishing the necessary information on the subject.

FIRES.—On Thursday evening a fire broke out in the millinery establishment of the Misses Cummings, Market Square, but was extinguished with little damage.

Some hours later another fire occured in the Saw mill owned by Gass Stewart & Co near the Marsh Bridge. Notwithstanding the exertions of the firemen the building was totally consumed. The fire is supposed to have been the work of an incendiary. A reward of $2000 is offered for his apprehension.

NEW BUILDINGS.—Messrs, Ennis and Gardner are about erecting an elegant four story stone and brick store on the lot beyond the Imperial Buildings, Prince William Street. On Chipman's Hill, in the same street, the new Bank of British North America is shortly to be proceeded with. The contract has been taken by Messrs. Fenety and Raymond at £3,750.

BREACH OF PROMISE CASE.—This interesting case, Smith vs. Clementson, which occupied the court for six days, was concluded by a verdict for the plaintiff. Damages assessed at $4000 and costs;—amount claimed, $20,000. Much interest was manifested by the public generally in the result of this trial. Of the weekly Freeman, of Thursday, containing a report of the proceedings, nearly 4,500 copies were sold.

MANUFACTORIES IN SAINT JOHN.—Of late years our citizens have been devoting more attention to the making at home of many articles formerly imported wholly from abroad. Stoves and castings of all kinds, nails, machinery, soap and candles, brushes, brooms, pails, paper, cabinet ware and furniture, and numerous other articles have for some time been extensively manufactured in this city. The new company for the manufacture of wollen and cotton goods, at Mispeck are meeting with great success. Upwards of $6000 worth of cloth has been sold within a short time, and orders are constantly coming in. Before long, in all probability, our importations of the coarser descriptions of wollen and cotton fabrics will be put an end to. New establishments are spoken of, among which we notice one for the manufacture of boots and shoes on a large scale, and a cotton factory.

MIRAMICHI.—Strong exertions are being made for the establishment of a bank at Chatham—£12-000 have [illegible]en subscribed in that locality,

ROMAN C[illegible] DONATION.—The amount of money sent to the Pope from this Province, is said to have been £761 8s 2d.

MONCTON.—The civic elections have taken place, Joseph Crandall, Esq. was elected Mayor, and Messrs. T. M. Lockhart, W. Trenholm, E. McCarthy, W. Robertson, J. Rusk, and J. W. Oulton, Councillors for the ensuing year.

FIRE AT BUCTOUCHE.—A fire occurred at that thriving village last week, attended with a large amount of loss. The large three story building occupied by Mr. Atkinson, with all its contents, was totally destroyed, and there is no insurance. Several other buildings were also much injured.

BRIDGE ACROSS THE PETITCODIAC.—We learn from the *Moncton Times* that a meeting has been held in Coverdale Parish, and a Company formed for the purpose of erecting this Bridge. A subscription list is to be opened for subscribers, and a petition for aid sent to the Legislature.

A RARE DISCOVERY.—The Head Quarters contains the following. During the latter part of last week, Messrs. Shaw and Segee, while engaged in lumbering operations in the New Maryland Settlement, were attracted to a large hollow pine by a humming noise. Struck by the strangeness of the circumstance, they at once felled the tree, and discovered a nest of tame bees about 50 feet from the butt, from which they extracted 84lbs. of pure honey. That portion of the tree containing the bees is safely secured in which a large quanity of honey still remains undisturbed.

FREDERICTON.—In addition to the startling developements of doings in the Crown Land office, the public have had their attention unpleasantly attracted to affairs in the Provincial University. The President, Dr. Hea, has had the misfortue to incur the dislike of the students. Grave charges have been brought against him, which have been investigated by the Governor, as Visitor, and the Senate of the University. It is said that the greater portion of the students have refused to remian if the President is retained in his position.

NOVA SCOTIA.—We learn from the Halifax Reporter that small pox is raging to a considerable extent in that city. Some 20 or 30 new cases are reported weekly. Three cases have appeared at Truro.

DIPTHERIA.—A private letter to us from Wallace Bay, Nova Scotia, gives a number of melancholy instances of families heavily afflicted with the terrible diptheria. On the South side of the Bay, a Mr. Caleb Peers lately lost five children; his brother Ezekiel Peers lost a daughter, a fine young woman, and another brother, Barney Peers, lost two daughters, young women. —Ross's Weekly.

SHUBENACADIE CANAL.—It is said that Mr. Blackie, late of the firm of Johnston & Blackie, contractors, has taken the contract for constructing the additional locks &c. required at Dartmouth, for the completion of the long talked of Shubenacadie canal. Mr. Blackie is well known in New Brunswick.

POST OFFICE AT HALIFAX.—The Clerks in this Department have petitioned the Government for an increase of salary. Their memorial is strongly recommended by the Postmaster General and has been placed before the Post Office committee. It will probably be favourably considered.

DISASTROUS FIRE.—Pearcie's Hotel, at Middleton, Annapolis County, was destroyed by fire a few days ago, with all its contents. The inmates barely escaped with their lives.

EMBEZZLING IN N. S.—We learn from the Halifax Colonist that Mr. Stewart Campbell, a member of the Nova Scotia Assembly, is arraigned before a committee of the House on a charge of embezzling the road monies of his County,

VISIT OF PRINCE ALFRED.—It is said on good authority that H. M. S. St. George, having Prince Alfred on board will leave Bermuda for Halifax on the 1st. of June, accompanied by H. M. flagship Nile, Rear Admiral Sir Alexander Milne.

DIPTHERIA.—This terrible malady is becoming quite prevalent in the island. Many cases have occurred in Charlottetown, some of which terminated fatally.

PRINCE EDWARD ISLAND.—A new Market House is to be erected in Ch'town. The dimensions are as follows:—Length 150 feet, breadth 50 feet, height 30 feet; the edifice to be of brick. We understand that premiums for the three best architectural designs are to be offered first £10, second £7 10 third £5.

NEW TELEGRAPH CABLE.—The Telegraphic communication with the Continent having ceased since the destruction of the Cable, the Islanders are anxious to have a new one laid. Ross's Weekly remarks:—"The probabilty is that unless our Legislators do something in the matter, the inhabitants of P. E. Island will hereafter be deprived of the benefit of telegraphic communication with the mainland."

STEAM TO CASCUMPEC.—The people of Cascumpec are desirous of steam communication with Shediac and have petitioned the Legislature for a subsidy. If their petition be granted the Princess Royal will be on the route early in the spring. The advantages of steam to the northern section of P. E. I. will be very great to the inhabitants, and largely increase the traffic on our Railroad.

FROM NEWFOUNDLAND.—A telegram received in Halifax states that the former Government were defeated.

A Provincial Government was then formed under the leadership of Mr. Hoyles. But the conduct of the people in the House was so disgreaceful that the Governor dissolved the House.

It is stated that the behavior of the people in the Galleries was too indecent to be reported.

ICE OFF NEWFOUNDLAND.—Portland, 11th.—Steamship United States, which arrived Saturday from Glasgow, reports kept well to the South; experienced a continued succession of westerly gales; passed two icebergs and two extensive fields of ice on the Banks.

UNITED STATES.

President Lincoln has taken up his residence in the White House. The new Cabinet has been formed, and the machinery of the Great Republic wound up for another four year's run. With the exception of the seven states forming the new "Confederacy" the whole Union is resigning itself to the new regime. The Northern Slave States have given great majorities against secession. Of the 82 Counties in North Carolina 62 have elected 65 Unionists against 33 Secessionists, should a State Convention be decided upon, and the other 22 Counties are said to be strongly in favour of the Union. Kentucky shows a similar result. From Arkansas we hear that delegates have been elected for a Convention. The ruling sentiment of these the Little Rock *Gazette* says will be as follows:

"Believing that the institution of slavery can be better protected, better perpetuated, and have more expansion under the broad folds of the national flag, they will go for remaining in the Union if the rights and honor of the South can be there maintained; if not, they are for cooperative action with the States of Kentucky, Tennessee, and Missouri."

Of Missouri there is no doubt. At the State Convention the following is said to have occurred:—

"On Monday, March 4th, a resolution appointing a Committee to wait upon Mr. Glenn, the Commissioner from Georgia, and inform him that the Convention would listen to any communication he might be pleased to make, was adopted by a vote of sixty-two to thirty-five. Mr. Glenn made a speech, stating the causes that had induced Georgia to secede, and urging Missouri to follow her example. His remarks were greeted with hisses and hooting from the lobby.

On Tuesday, March 5, resolutions were adopted providing for the appointment of a Committee to inform the Commissioner from Georgia that Misrouri dissents from the position taken by that State, and very kindly, but emphatically, declines to share the honors of secession with her."

Meanwhile "the Confederated States" are not in an enviable position. They are evidently disunited among themselves. The interests of the cotton States are not those of Louisiana a sugar growing country. The former are clamorous for free trade; the latter wishes protection. Even in individual States disunion exists to an alarming extent. Many of the counties in Georgia and Alabama bordering on Kentucky and Tenessee are in favour of the Union while the large German population in Texas are deadly foes to slavery in any form. Hence the question naturally arises;—if the secession of States be lawful, is not the secession of counties equally so!

Meanwhile they have not been able to obtain the recognition of any foreign power, and none will do this until the Government of the United States sets the example. But Lincoln expressly states that it is not his intention to acknowledge the Government at Montgomery in any way. He must therefore be compelled to do so!—and now with clashing interests, jealous of each other, disunited, entirely dependent upon the North for almost everything they consume, finding that England will not be so great a slave to cotton as they imagined, unable to find sympathy in any portion of the civilized word, with the terrible incubus of slavery in their midst, they talk of war! They spend days and nights in inventing some new symbol to take the place of the "immortal fowl,"—they devote much wise consultation with regard to flags, emblems mottoes and coats of arms—they talk of conquering (after they have put down Lincoln) Mexico, Central America, and the West Indies! Truly to them the old adage is applicable,—"Quem deus vult perdere, prius dementat," whom God desires to destroy, he first deprives of mind.

We clip the following items from our exchanges:—

Information from Memphis, Tennessee, and other parts of the Western States, at various important points, show an immense increase of trade with the North.

The Southern Congress has adopted a permanent Constitution for the Southern Confederacy, which provides that the President and Vice President of the Confederacy shall hold office for six years.

ARIZONA TERRITORY.—A man who rode the express to Tucson, to give information of the state of affairs and procure assistance, reports finding, a short distance from the station, the remains of a wagon train, with bodies of eight men, who had been murdered by the Indians. Two of the bodies were chained to the wagon, and presented the appearance of having been burned at the stake. The report of the interruption at Apache Pass by the Indians is confirmed. The route is strictly guarded by troops and no interruption is anticipated in the future.

CALIFORNIA.—Three hard-working miners took out of a quarter vein on Feather river, Cal., $20,000 worth of ore in three days. One forenoon's work was $8000.

FROM BRITISH COLUMBIA.

FORT KARNEY, March 6, 1861.

The Pony Express passed here at three o'clock this morning,

The steamer Panama, from the North brings Victoria dates to the 9th February, and Oregon to the 14th. The British Colonial Assembly was prorogued by the Governor on the 6th of February.

The price of Crown Lands is to be reduced to four shillings and two pence per acre.

There had been serious troubles at the Rock Creek Mines about the collection of duties. At the Similkameen Mines provisions were scarce and the weather very cold.

The news from Oregon is of very little importance. Gold has been discovered in the Spokan country.

The Polynesian says that the sugar crop is just begining to come in from Hawaii and Kawii. The census of 1860 shows a decrease of the native population, since 1853, of 3,935, and an increase of foreign population of 5,998.

MARRIED.

At Salem Cottage, Salisbury, on the 14th inst., by the Rev. George Seely, Mr. Oliver. K. Rodgers of Pugwash N. S. to Miss Elizabeth, daughter of Deacon William Gross, of Hillsborough N. B.

On the same day, by the same, at the residence of Mr. E. Kay, Mr. Joseph McMonagle of Upper Salisbury to Miss Ruth White of the city of Moncton.

RHEUMATISM CURED.
KIDDER'S RHEUMATIC AND BONE LINIMENT.
FOR the permanent Cure of Rheumatism, Gout Neuralgia, Sprains, Burns, Bruises, Stiffness of Joints, &c. &c.. and all complaints where an external application is required.
THIS LINIMENT has been successfully used throughout the N. E. States and British Provinces for more than 3[illegible] years, and received the praises of the afflicted, and its virtues are acknowledged by some of the most eminent Physicians of the States, who give their testimony to its efficacy, and freely recommend and use it in their practice.
TRY IT!
All who are suffering from Pains.
A thorough trial of this Liniment is warranted to cure all or any of the above named complaints.
For pain and stiffness, ariseing from BROKEN BONES it is one of the greatest blessings a sufferer can have.
CHAPPED HANDS by its application, become soft and healed.
As a remedy for restoring the falling off of HAIR, and removing Dandruff, it is not to be surpassed by any of the Hair Restoratives of the day.
HEADACHE is cured by a brisk application of the Liniment.
