RELIURE TROP RIGIDE

not know that they were not really owned by the parties whose names appeared upon the plan. It has been intimated that the land in the Counties through which the Railway passes should have been reserved for acutal settlement.

The Railway was commenced seven years since. From that period and previous to it, the ungranted lands in those Counties were open for application either under the Labor Act or Auction system, notwithstanding which there still remain many thousand acres of land unsold.

There are reasons why I think it would not have been right for the Government to have sold land in these Counties under the Labor Act alone. In 1856 acts were passed authorizing the construction of Railways by the Government, empowering the Government to issue debentures by which means were to be raised to carry on such works.—In one of these acts provision was made for the creation of a sinking fund towards the payment of the debts so incurred; one of the sources from which this fund was to be derived was the proceeds of the sales of the Crown Land's of the Counties through which the road passes. Had therefore the purchasers been confined to the conditions of the Labor Act, it would have been a virtual repeal of the provision of the law under which this fund was established, and would be so considered by the purchasers of the Debentures, and it would be anything but a wise policy that would produce upon the minds of the holders of our securities or of the capitalists of Great Britain or elsewhere, the idea that the Government or Legislature of New Brunswick could be induced under any circumstances to disregard, or in any way evade the fulfilment of their engagements.

A letter has been handed in by Mr. Inches, signed by Mr. Watson of St. Stephens, in which he says, that in a conversation with me, I said that were I not a member of the Government I would buy or would have bought some of the Crown Lands in the neighborhood of the Railway. I think he was justified in making that statement. The subject was introduced, by Mr. Watson stating to me that a gentleman had offered to sell him some 500 acres of land in a certain district near the Railway for ten shillings per acre, and asked me if I thought it was worth it. I think I said to him I did not think it was worth it now, but that in time it might bring it, and possibly more, if it was well wooded; and at the same time I remarked, that as long as there remained a large quantity of ungranted land, few parties seemed willing to give above the upset price; that in my opinion some of the lands were worth more, or would shortly bring more; and were I not a member of the Government I would have bought some of the lots, even at a price beyond what they sold for. I remarked at the same time that some of the land was represented as poor, with little or no wood, and not of much value.

Some reference has been made during this enquiry to some property owned by me in the Counties of King's and Westmorland. It is important to me at least that the whole facts in connection with this matter should be given and I now proceed to state them.

In December 1856 I concluded to purchase in King's County 300 or 400 acres of good agricultural land, if it could be had at a reasonable price. I was informed by a gentleman in St. John that T. O. Arnold, Esq., of Sussex, (not Deputy Arnold), was well acquainted with the lands in that County, and I was referred to him for information.

On the 1st. January 1857, I had an interview with him upon the subject. He said he attended the land sales, knew the quality of the land, and thought he could procure what I wanted. I named 800 acres for self and two friends. He subsequently informed me that he had bought at auction 1280 acres in three lots, one 700, one 300, and 280 acres; that it was good land, and cheap at 3s. cash per acre, including survey.

I purchased from him the three lots at the price named. It cost Mr. Arnold in cash about 2s. 5d. and the 2d. or 3d. per acre survey.

I had no personal knowledge of the way in which these lands were applied for. In February 1857 I applied for 670 acres, and had them brought to sale. I placed money in the hands of Mr. James Johnson, who then resided at Moncton, with a request that he would bid a certain price for me on day of sale; were put up at public auction, he purchased for me, and paid the cash down, as I believe. These lots, with the land purchased from Arnold, include all that I own under grant from the Crown. They were all brought to sale under advertisement by the Hon J. Montgomery, Surveyor General, *consequently I was not only not a member of the Government, but not a member of the House at the time.*

I have on more than one occasion offered the whole or part of these lands to actual settlers at the price they cost me; and a gentleman in St. John now holds a written assurance from me to give a friend of his, a mechanic in St. John, a deed for a portion of this land at the cost price, provided he settles upon and improves the same within eighteen months from July last, the date of my letter.

Early in 1858 Mr. William Rodgers, Lime burner, Portland, wished me to select for him and some seven or eight others, a good tract of land for actual settlement. I advised him to come to Fredericton and make personal examinations from plans and returns in the Crown Land Office, and at the same time told him that I had purchased a lot of land from Mr. Arnold, said to be superior, and if he and his associates preferred it to any other they could have it at the price it cost me. If he has purchased he has made his selection elsewhere.

In the autumn of 1858, Mr. Crookshank in the establishment of Messrs. Jardine, & Co., showed me a correspondence between him and a friend in Scotland, who had been at work in New Brunswick, by which it appeared that some eight or ten families contemplated coming out from Scotland to New Brunswick. Mr. Crookshank seemed disposed to advise them to go to the neighborhood of Richibucto. I then told him that I thought they would find it more convenient in King's or Westmorland, and that they could have any or all of my lands at the cost price, if they wished them.

In March 1860, Robert Bowes Esq., of St. John, visited Fredericton on behalf of an Association formed in St. John, for the purpose of inducing a portion of the laboring population of that City to settle in the country. He visited Crown Land Office and made selection of a tract or two of land to be surveyed for the applicants, in connection with the St. John Association. One of these tracts was in the neighbourhood of the 1280 acres purchased from Mr. Arnold. I said to him before he left Fredericton, that if the applicants should prefer mine to any other land in the neighborhood, not granted, they could have part or the whole of it, at what it cost me. In confirmation of this statement, I beg to refer to Mr. Bowe's letter hereto annexed. I have made similar proposals to one or two others. I state this to shew that I have not retarded the settlement of these lands.

After examining plans and maps in the Crown Land Office, in Feb. 1857, I asked Mr. Inches what was necessary to be done to bring the Lots selected to sale. (Previous to this time I had never seen an application made, and was ignorant of the exact mode of procedure.) He then produced some blank forms, and asked what names I wished it to be brought to sale in, remarking at the same time, that the name of the applicant for lands sold at Auction seldom appeared in the Gazette. I then named three parties, one of whom was Jas. Johnson, the person who purchased them for me; these I think he inserted, and when I asked him if it was not necessary that I should sign the application, he said I could if I wished, but it was immaterial. I however signed my name to the application.—Reference to the document will settle this question. I did not consider that any exceptions could be taken to these proceedings. During the Session of 1858, I asserted in the House that I had not, since I had been in the Government, applied for an acre of Crown Land for myself. This assertion I now, on oath, state to be correct.

Inches rose and declared Tilley's statement correct and truthful. Inches read a long statement to substantiate his own and rebut Fisher's evidence.

Mr. Inches then followed in reply to the Attorney General's statements in which nothing particular was elicited, it being merely a confirmation of his own earlier statements. He was followed by Deputy Whitehead who made some statements about two purchases of land made under fictitious names, and also about an excess of survey. In the course of Mr. Whitehead's remarks Mr. Inches rose to make explanations when it was asked if he knew anything of a seizure of timber made some time since from Ferris and Carpenter. After some excitement Mr. Inches refused to answer but upon being pressed by the Committee he proceeded to explain that in 1850 Deputy Rainsford had received £30 from Ferris for timber and Carpenter's note for £100 for other timber. He put the report of this on a schedule for the Council and it was ordered to be collected. Under that order the note of £100 was given to him and he gave it to Mr. Partelow. The £30 had also been given to Mr. Partelow and the account was never returned to him (Inches). Some time afterwards he fell in with the papers and saw a statement that the amount was paid in at the bank to the credit of the Province. Upon examination he found that the Province had no account there but that the amount had been paid to the credit of Mr. Partelow. He hoped that this matter might be explained by further investigation. Some further statements of much importance followed with reference to lands held by Messrs. Light, and Hartt.

FREDERICTON, March 12, 1861.

Supply postponed to Wednesday.

Tilley laid on table report of Lunatic Asylum and List of Warrants asked for.

Lewis gave notice of motion for address for papers relating to Peticodiac Bridge.

Progress made in End's alien bill.

Long discussion in Crown Land Committee. Whitehead's testimony was contradictory in his Saturday's evidence—reference to quantity of land obtained for Attorney General, shewing he had applied for 800 acres more at Saugamock; also reference to some lands asserted to have been obtained for his (Whitehead's) brother.

Question was asked Inches about trespass matter, which Ferris and Carpenter were concerned in in 1850. Inches hesitated answering, intimated Committee had better not go into it as it would involve a gentleman not now in politics.

After dinner explained money paid by Ferris to be sixty-pounds, paid into Central Bank appearing. Inches had impression it was in J. R. Partelow's credit on private account. This question whether Partelow placed money to private credit or credit of account as Provincial Secretary, not yet determined.

Reference to transactions with Light. Land cost Inches 8s. per acre. Light gave him 8s. 4d. per acre, which it was well worth.

Hamicide Bill agreed to; also Bill relating to Pilots.

Cudlip introduced a Bill relating to aliens, provide to lesson time of residence before naturalization.

Progress made in the Bill to anmend the Act relating to insolvent confined debtors.

LAND COMMITTEE.

Inches asked to have words—Mr. Partelow pocketed the money—erased from Yesterday's evidence—supposed from Cashier's manner when showed him account—occurred to him since perhaps Public Account.

Wilmot called attention to a paragraph in the "Globe" of 9th, reference to attempt to get Inches to alter date.

Tilley read statement attested to by Thomas Hanford; was written by A. Shives, asserting Inches told him (Shives) that Wilmot asked him to change some date to place Tilley in unfair position. Wilmot pronounced it an infamous lie. Inches also contradicted it.

Shives will be sent for.

Inches made a statement showing Tilley induced Wilmot to alter an address so that it did not include as contemplated—in returns—Tilley's Grants.

Inches and Tilley occupied stand all the afternoon, chiefly explaining points already discussed.

UNITED STATES.

[By Telegraph to Morning papers]

WASHINGTON, March 12.

The order to evacuate Fort Sumter, was made out yesterday, but it excited so much opposition, that it has been suspended for the present.

The opinion of General Scott, that Fort Sumter, Charleston, should be evacuated, is based upon a report made to him, by General Totten, of the United States Engineers, stating that the Fort is now surrounded by a circle of strong fortifications.

Much excitement and rejoicings at the prospect of Peace.

Mr. Seward, Secretary of State, is highly eulogised, for his admirable and political management of public affairs.

Information from Memphis, Tennessee, and other parts of the Western States, at various important points, show an immense increase of trade with the North.

An extra session of Congress is deemed probable.

A resolution to expel from Congress, Senator Wigfall, of Texas, on account of the part he has taken in the secession of that State, was not passed by the Senate.

NEW YORK, March 12.

The Tribune denies that it is contemplated to evacuate Fort Sumter, and deems the announcement only a 'ruse,' to throw in reinforcements of men, and supplies

NEW YORK, March 12.

The Southern Congress has adopted a permanent Constitution for the Southern Confederacy, which provides that the President and Vice President of the Confederacy shall hold office for six years.

The evacuation of Fort Sumter will probably take place.

Stocks are dull, and lower in price.

Flour has declined. Superfine State, $5. a $5.5; Extra, $5. a $5.15.

EUROPEAN VESSELS OVER-DUE.—The strong westerly breezes of the past few days will still further retard the progress of the large fleet of vessels now over-due from Europe. More than thirty emigrant ships are now over-due at New York, some of which, have been at sea since the middle of January.—[Boston Transcript, 7th.

Emperor enjoined him to remain at Paris for the present on grounds as alleged that anti-clerical views of Prince would give rude impulse in Italy to question of Pope's temporal sovereignty.

National Committee rejects congratulations which latter extended to French, and recommends soldiers to avoid popular assemblies.

NAPLES, 24th.—The suppression of Convents has given rise to disturbances.

Rioters attacked several Convents. The National Guard interfered.

Arrival of the Niagara.

The Royal Mail Sthamship Niagara, Moodie, arrived at Halifax, from Liverpool via Queenstown, at half-past 3 o'clock, P. M., on Saturday last, after a passage of fifteen days. She had severe weather. Her freight list, we understand was over $375,000 sterling. The news is unimportant. The following Summery comprizes the latest foreign intelligence.

Neither monetary nor commercial affairs are in a satisfactory condition. The general trade of the country is labouring under depression.

All the markets of the Stock exchange are suffering from the dearness of money, and since the rising the rate to 8 per cent Consols have given way in value, and a serious reduction has taken place in the Railway market.

The demand for money has become much more easier during the week, and only a moderate demand prevails at the Bank and the general market, but rates are unchanged, though the best bills are taken below the Bank premium. The export of gold to the United States has increased in amount. The City of Manchester, brought out to New York, £51,000; and the Niagara £100,000.

The strigency of the money market continues to affect injuriously the Grain trade as well as other departments of commerce. The trade here has been on the most limited scale, and the tendency of prices in favour of buyers.

The Gazette announces her Majesty's intention to grant medals to the officers, seamen, and marines of the Shannon and Pearl, who formed the naval brigade in India under the late Sir William Peel.

THE GREAT EASTERN.—The directors of the Great Ship Company have prepared the report to be presented at the general meeting of the shipowners. The voyage to New York entailed a loss of only £344. Another voyage to America is intended early in April.

The fall of Gaeta appears to have produced a general feeling of joy throughout Italy,—that part, at least, which is under the dominion of Victor Emmanuel. The event happened opportunely enough, for it gave additional eclat to the opening of the National Parliament, and seemed to foreshadow the draw of a new era on the country.

If Garibaldi has given up the idea a of attacking Zenetia in the spring, there is evident by some other movement a-foot, which may bring about important results. As a proof of this it is mentioned in letters from Paris that the Garibaldi Volunters there have received orders to rendezvous at Genoa on the 18th of the present month. As Austria seems to be in a fair way of driving Hungary into open resistance, the great Italian leader may think that the time has come for enabling him to strike a blow in that quarter. Everything indicates that a sanguinary struggle is about to commence between the Austrian Government and the Hungarians.

In the Navy estimates for this year the Lords of the Admiralty have asked for a sum amounting to £200,000, which their lordships, intend to devote to the building of two iron screw steam-transports of the Himalaya class.

The Papal Goverment had exiled several persons, among whom was Signor Titoni, a rich merchant. who was suspected of having prompted the late political manifestations. Signor Pasaglin had returned to Rome.

NAPLES, Feb.—The property of the religious orders which have been suspended has been taken possession of by the Government. The garrison of Gaeta, being prisoners of war, have been sent to the Neapolitan islands.

INDIA.

We take the following from the Bombay Times and Standard of the 26th of January:—

India is again subjected to the scourge. It might almost seem as if the fable of its angry, bloody, deities were verified in its mournful annals, disaster following disaster to desolate its fairest regions. It is not on this occasion the fierce fires of civil war that are enkindled, nor is it the pestilence which has been so often the dreadful scourge of India. It is famine, with its desolated fields, fugitive thousands, gaunt emaciated forms of misery, that supplicate our compassion.
