A visitor to the Provincial Capital writes:—

Fredericton may well fight to retain the House of Assembly for its being in Session makes things hum, The Hotels are densely crowded and the streets and shops are both evidently busy and everything goes with a swing The streets are dusty and the river clear and only a warm rain needed to enable nature to assume her mantle of spring green.

In the government estimates of the current year, the sum of $36.000 has been set down as an appropriation for the construction of the wharf at Grand Vallee. Last year the government voted $25,000 for the same purpose and the previous year $5,000 The opposition criticize the government's action in this respect severely contending that Grand Vallee is but a small hamlet and the wharf not a public necessity but built for the convenience of Mr. Lovell M. P. for Stanstead, whose lumbering operations form the only industry of the place.

In the provincial legislature the following petitions from school trustees and feachers asking for an increase of salary were presented and ruled out of order on the ground that they asked for an expenditure of public money; by Mr. Jones, the petition of H. Forged Signatures to Correspondence.

We have lately had from Maple Green, correspondence over a forged signature. The "little joke" has been discovered but through the lenity of the person whose name was used it was allowed to pass. We would warn the author however whether or not in this enlightened age beware of the penalty incurred, that it is too risky an experiment to repeat, as in case of its recurrenee, we shall not allow it pass, but in this and any other case of a similar nature that may occur, if the parties imposed upon are unwilling to take action we shall publicly expose the offended through the columns of the paper.

Important Information About Trans-Canada Railway Territory.

It is said that the Perce Peace River country which will be opened up by the new Trans-Canada Railway is likely to be one of the most productive wheat growing sections of the North West. It is said that it will grow wheat equal to Manitoba No. 1 Hard, the same kind that is used in the manufacture of Ogilvie's celebrated flours, which are supplied to the household H. R. H., the Prince of Wales. If it is true that the Peace River district can produce as good flour as Ogilvie's the Goverament should lose no time in giving it the necessary facilities for trans-shipment of its products. We want all the flour equal to Ogilvie's that we can get.

An Assured Success May, 4th.

Engaging the great contralto for a tour of Lower Canada was a big and expensive undertaking, but one which is now an assured success. All along the route of the extensive tour the interest felt in the prospects of hearing the wonderful singer is just as enthusiastic as in Campbellton and all know that this augurs for great success in this town. All the best endorsements that it is possible for a singer to have are given for Madame Clary. Beginning with her position in St. Patrick's Cathedral, New York which is a guarantee of excellence, we have her also occupying the foremost place in all the principal festivals throughout the United States and Canada, proofs of this having been given in various issues of this paper. Then again her selection at the present time as the only American singer in the Harris festivals in Montreal, Ottawa and Toronto, where she assumes the role of leading contralto in all the works. There is no manner of doubt as to the standing and exceptional ability of the great contralto who is to be heard here with her talented company May 4th.

That the people of Campbellton are wide awade to this great opportunity is evinced by the wonderful sale of tickets already taken place. Over 100 tickets were sold the first day, and intending purchasers should procure tickets at once as only a limited number will be sold. For sale at McDonalds, 75c. and $100.

Campbellton's Bill

Through the Legislature.

Excepting for the section relating to expropriation, Campbellton's Bill went through as presented.

Re expropriating powers the section was amended and limited to six years while in each case the town must pay the arbitrators, the other cost of course to follow the verdict.

Mr. Hazen vigorously attacked the section and the House divided.

In the bill referred to land expropriation, assessing for pest house, issuing further debentures, all franchises with in the town reserved to the town's dictation call for Emergency meetings of Council, extension of water system beyond present corporation were among the powers sought.

Dalhousie's Incorporation.

The Legislature on April 23 agreed to the Bill—, An act to incorporate the town of Dalhousie for water, sewerage, fire, light and police purposes.
