SELLING THE APPLE CROP

The Co-operative Plan. Dividends from Power Spraying.

On Sept. 21st, the farmers in the vicinity of Ingersoll, Ont. assembled to the number of about 75 or 80 to inspect the work done by the power spraying outfit managed in that vicinity by the Dominion Fruit Division.

The audience assembled at one o'clock at the orchard of Mr. J. C. Norworthy and inspected very carefully a large number of trees, counting and grading the apples.

The inspection was witnessed by Prof. Hutt, O. A. C., Guelph, Mr. G. A. Putnam, Superintendent of farmers' Institutes, and Mr. J. C. Norworthy, Secretary Ontario Fruit Growers' Association.

Incidentally many points in general orchard culture were pointed out to the farmers, and the fact, even though cultivation and pruning were neglected in some of the sprayed orchards, the trees were well loaded with fruit.

Mr. Norworthy spoke of the operations of the fruit shippers' associations of Walkerton, Chatham and St. Catharines, and especially commended this system of disposing of their fruit.

Mr. Norworthy spoke of the operations of the fruit shippers' associations of Walkerton, Chatham and St. Catharines, and especially commended this system of disposing of their fruit.

Well what do you want?

"Well," said the old lady, meditatively, "you may bring me some ham sandwiches and a cup of tea, if you will."

Pulled the Bell When She Was Hungry

An old lady on her first railway trip remarked the bell and overtook and turning to a man, she pointed to the bell and said:

"Sonny, what's that for?"

"That, mammy," he said, "with a mischievous twinkle in his eye, 'is to ring the bell when you want anything to eat."

Shortly afterwards the old lady reached her umbrella up to the cord and gave a vigorous pull.

The whistle sounded the brakes were put on, the train began to slacken its speed, windows were thrown up, questions asked, and confusion reigned among the passengers.

The old lady sat calmly through it all little dreaming that she was the cause of the excitement.

Presently the conductor came rushing through the train and asked:

"Who pulled the cord?"

"I did," replied the old lady meekly.

Here's a Puzzle For Somebody,

AND ALL ON ACCOUNT OF "ROYAL HOUSEHOLD"

The hold upon the people of Annapolis county which this 'ROYAL HOUSEHOLD' flour has secured of late, is one of the most remarkable things I have seen in my eighteen years business experience.

said an Annapolis county merchant who attended the Halifax Exhibition. I find that the majority of my customers absolutely refuse to take anything but 'ROYAL HOUSEHOLD' and I tell you it is a serious problem with some of us as to how we are going to sell the stocks we have of other fairly good flours.

Oil which, according to friends, was not realized all that was expected. The state of Ohio seems to have passed its meridian, and the oil promoters and gushers of Texas no longer gush as they did a year or two ago.

The oil industry can no more snuff out the coal industry than the planet Jupiter can hurl itself against and snuff out the sun.

Geologists calculate that enough coal remains in the bowels of the earth to last a thousand years. Dares they predict, with equal confidence, that the petroleum supply, at any given place will last five years?

Petroleum is the only possible competitor to coal, and its flow is so speculative and uncertain that it assuredly will never jeopardize the coal interests of the country.
