THE NICKEL ORE MINES OF CANADA

The mining of nickel ore in America is its center in the vicinity of Sudbury, Ontario, where the annual output has increased very rapidly within the last two or three years, owing to the extensive development of the deposits. While the existence of the ore has been known for over fifty years only recently has this resource been exploited on an extensive scale. The annual product at present aggregates about 5,000 tons. Up to the present time, however, not over 50,000 tons have been taken from the mines, which gives an idea of the small quantity of this metal produced in comparison with iron, copper, and tin.

Ores of nickel are more evenly and abundantly distributed over the world than is generally supposed, but only in a very few countries are the deposits of such dimensions as to warrant their development as working mines, and at the present time the mines of Sudbury and New Caledonia produce about the whole supply of nickel. Canada is the largest producer of nickel in the world. The Sudbury nickel field has long been known as the most important source of this metal in America, if not in the world; but the work of the last three years has brought out more and more strikingly the unique character of this mining region. It has been proved that all the ore deposits of any economic importance are at or near the outer margin of a huge laccolithic sheet of eruptive rock a mile and a quarter thick, 30 miles long, and 17 miles wide. This sheet is now in the form of a boat-shaped syncline, with its pointed end to the southwest and its square end to the northeast. The rock composing the sheet is granite in the outer and lower edge, merging into granite or granodiorite at the inner (upper) edge. The ore bodies are round the upper part of the sheet, and have evidently segregated from the rock while still molten, though they may have undergone local rearrangement.

Nickel was first discovered at the Wallace mine, Sudbury, in 1846. In 1856 attention was again drawn to the subject by the finding of nickel and copper six miles north of Whitefish Lake, and less than half a mile southwest of the main pit of the Creighton mine, probably the largest deposit of nickeliferous pyrrhotite in the world. The discovery evidently was not deemed of much importance, as it was soon lost sight of. But the construction of the Canadian Pacific Railway through that region aroused such interest, that in less than ten years from the opening of the road all the mines which are now operated were located.

The industry was at a standstill for about a year, when the Canadian Copper Company, which has expended a large amount in the development of the Sudbury deposits, was organized with a capital of \$2,500,000. This company opened Stobie, the Copper Cliff and Evans mines, while investigations were made which proved the existence of very extensive veins. The Creighton mine was opened in July, 1900. It is undoubtedly the largest in the district, and from the very beginning of operations has produced large quantities of almost pure sulphides, with little or rocky admixture. It is especially valuable carrying a large percentage of nickel, with a very much smaller percentage of copper. The mine is situated about six miles in a straight line west of Copper Cliff station. The ore when mined is carried over the Manitoulin & North Shore Railway to Clara Bell Junction, where connection is made with the railway owned by the Canadian Copper Company.

The Creighton mine is at present the main source of supply, and with its equipment allows for a production of between 500 and 600 tons of ore per day. The old original Copper Cliff supplies about 1,000 tons more per month, obtained mainly from the thirteenth and fourteenth levels, the latter workings being 1,052 feet below the surface, but even at this depth the body shows no serious diminution either in size or richness. No. 2 mine and the Froid (No. 3) complete the list of mines from which at present the supply of ore is drawn. The mines of the company not in use at present must not all be considered as having been permanently abandoned, but the openings now utilized produce an ample supply of the sulphides.

Miss Janie Firth has returned home to Chatham after spending a few days here she was accompanied by Miss Annie Robertson. We are glad to see Murdoch Firth around again after being confined to the house for a few weeks. Miss Sarah Thomas has returned home after spending her vacation in Dalhousie. Mr. Walter Borland has returned home after spending the summer at Mr. Alexander in honor of their guests Mrs. Write and Mrs. Fairchild of Portland Me. Miss Letty Pettigrew and Miss Bella Firth of Campbellton spent Sunday here. Miss Effie Firth left by Lady Eileen to visit in New Carlisle.

MILBURN'S Heart and Nerve Pills. Are a specific for all diseases and disorders arising from a run-down condition of the heart, nervous system, such as Palpitation of the Heart, Nervous Prostration, Nervousness, Headache, Dizziness, Stomach and Bowel Disorders, etc. They are especially beneficial to women troubled with irregular menstruation. Price 50 cents per box, or 3 for \$1.25. All dealers, or THE T. MILBURN CO., LIMITED, Toronto, Ont.

de material of the various grades suitable for smelting. The remarkable increase in the production of this metal in the Canadian district is largely due to the improved processes which have been invented for reducing the ore. At the smelters in the United States and Canada electrical apparatus has been employed, by which the metal can be secured at a much smaller cost than in the past. Consequently it can be placed on the market at a much lower price, and is being utilized in various industries, where in the past its sale has been confined to a very limited market.—Scientific American.

I. C. R. RELIEF FUND Annual Report Shows Healthy Conditions Monthly Report

Moncton, August 27—The seventeenth annual report of the I. C. R. Employees' Relief and Insurance Association is to hand. The total receipts from all sources during the year were \$80,041.08, which added to the credit balance of June 30, 1905, makes a total of \$87,831.21. The total expenditures were \$78,577.95, leaving a credit balance of \$15,503.30, which is less the estimated outstanding liabilities of \$3,750.

Statement number one shows that the deficit in the sick and accident fund is \$1,746.31, to which should be added the estimated outstanding liabilities, making a total deficit of \$4,496.31. The surplus in the temporary employees' accident fund has been still further increased and now amounts to \$15,604.99. It will be noted that the amount paid for death indemnity during the year was \$1,250. The amount paid for the year ended June 30, 1905, was \$2,500.

Fifty death claims, amounting to \$22,000, were paid during the year. Of these deaths forty one were due to natural causes, the remainder, nine, were accidental. There were twenty claims for total disability, aggregating \$83,250. The amount paid for death and total disability claims shows an increase of \$6,250 over the amount paid last year on the same account.

The annual meeting of the members of the association will convene in Moncton Wednesday, Oct. 10. Secretary Paver, of the I. C. R. Employees' Relief Insurance Association has issued his usual monthly statement for the month ending August 25th. There were eight deaths, with insurance as follows: J. Malcolm, Moncton, \$500; J. H. Hunter, Moncton, \$1,000; L. McDonald, Moncton, \$500, E. H. Gilroy and M. P. Richardson, Truro, \$250 each; John Stewart, Halifax, \$250; A. Gullet and L. M. Cote, Riverview, \$250 and \$500 respectively. Fees and levies for the month ending August 31st, will be as follows: Class A, \$2; Class B, \$1.20, and Class C, 30¢. In addition to the deaths above reported W. J. Bennett, a member of the Temporary Employees' Accident Fund died at New Glasgow on August 6th, from injuries received on the third day of the same month.

ROBERTSONVILLE

Miss Janie Firth has returned home to Chatham after spending a few days here she was accompanied by Miss Annie Robertson. We are glad to see Murdoch Firth around again after being confined to the house for a few weeks. Miss Sarah Thomas has returned home after spending her vacation in Dalhousie. Mr. Walter Borland has returned home after spending the summer at Mr. Alexander in honor of their guests Mrs. Write and Mrs. Fairchild of Portland Me. Miss Letty Pettigrew and Miss Bella Firth of Campbellton spent Sunday here. Miss Effie Firth left by Lady Eileen to visit in New Carlisle.

Minards Liniment Cures Burns, etc.

There may be some clothing as good as "Progress Brand" but not at the price. None better at any price. Fraser, Fraser & Co. BALNORAL NOTES. After fighting the forest fires for some time, rain came last when badly needed it having been some three months since we have had any quantity of rain to speak of. Several buildings were in great danger of fire just before rain, including the building of D. A. Arsenau, Henry Diotte, Elede Arsenau, and Joseph Marcan. Mr. and Mrs. Edmond LePell, of Dalhousie arrived in Balnoral today Monday Aug 27th, to make their future home in Blair Athol. The people of the Parish of Balnoral will always welcome such desirable citizen as Mr. and Mrs. LePell. Rev. John Wheten is absent from Balnoral for a few days. Mr. and Mrs. Simon LeBlanc of Montreal are the guests of Mr. and Mrs. Moses LeBlanc for a few days. Mr. LeBlanc who has spent 74 years in Montreal is back to the Bay Chaleur to remain for good. Miss Stella Savoy, school teacher of St. Maur is spending Sunday with Miss Mary LeBlanc. Mr. Wilfred Savoy spent Sunday in Balnoral. Messrs John Savoy and J. Cormier of Upper Charlo were in Balnoral on Sunday evening the guest of Dennis A. Arsenau. Mr. Henry Diotte is putting up a very nice house which will when finished be quite an addition to Balnoral Village. Mr. Nelson Bernard is putting up a nice house in Upper Balnoral. James S. Harquail Esq. and his two sons spent Sunday evening in Balnoral. Mr. Octave Landry spent a day in Balnoral last week on business. Mr. William Sillars is erecting a fine residence in Balnoral. John J. Arsenau is home for a few days. John M. Sellars has removed to his new house in Blair Athol. Mr. A. J. LeBlanc and Dr. N. A. Doucette of Dalhousie spent Sunday evening in Balnoral. Since the rain the crops look a great deal better.

Pain From a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss, of Vernon, Conn, was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nicholas, a local merchant, for something to stop the pain. Mr. Nicholas says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommended it very often for cuts, burns, sprains, and lame back, and never knew it to disappoint." For sale by all Druggists.

Like A New Disease. New to the man who never had corns is the pain relieved by Putnam's Corn Extractor. Old corns and new ones cured quickly by "Putnam's." Sold everywhere.

GRAND ANSE. Grand Anse, Sept. 1st.—The R. C. picnic here last week was an entire success, the receipts being four hundred and sixteen dollars and as usual a number of strangers and a great number from all parts of the county attended. Protestants from Clifton, Stonehaven, Bathurst, etc.

It's the Kidneys. Close the sewers of a city and an epidemic rages. The kidneys are the sewers of the body. Let these vital organs become diseased and the whole system is affected, dizziness, headache, dull, listless feeling, shooting pains in the back, tell that the kidneys are in trouble, and a neglect of nature's warning means uric acid poisoning and dreaded Bright's disease.

GIN PILLS. Make kidneys healthy. They instantly relieve all Kidney Troubles—clear, heal, purify, strengthen—put the kidneys in perfect condition to perform their work as nature intended. We have such implicit confidence in the virtue of GIN PILLS that we authorize druggists to refund the money if they fail to cure. See a box, 6 boxes \$2.50. Sample box free—mention this paper. THE BOLE DRUG CO., WINNIPEG, MAN.

James Alexander, Wholesale and Retail Merchant, Corner Ramsay and Water Streets. I carry a full line of Gents' Furnishings, Heavy Furry, Oats and Hay. Wood delivered promptly. Our Princess Brand of Flour is the best on the market. Sweets, Groceries and Provisions. Buyers of all kinds of Furs.

Campbellton, N. B.
