TOWN COUNCIL.

Meeting Held on Tuesday Evening.

NO MOTORS

Grant to Band Not Passed owing to Legal Doubts

A meeting of the Town Council was held on Tuesday evening, the full board in attendance.

Accounts were passed as follows:

Public Charities	
Angus McKenzie	$42.45
Finance	
N. B. Telephone Co	.31
G. N. W. Telegraph Co.	1.29
Electric Light	
Packard Electric Co.	181.09
R. E. Pringle & Co	3.77
I. C. Railway	4.34

Coun. Andrew from Water and Sewerage Com. submitted report, recommending that applications of Duncan & McLennan, C. S. O. Crocket, Wm. Storey and Anslow Bros. for water motor service be not granted.

Coun. Doherty enquired the reason for refusal to grant motor services. [illegible] been said the motors were cut off because of some [illegible] wanted to know if this was a fact.

Mr. Williams, manager of the Water and Sewerage works, was called upon for an explanation [illegible] the motors [illegible] scarcity [illegible] ous, necessitating a drain upon the reserve supply which [illegible] handicapped the system [illegible] and domestic purposes. [illegible] ed there was no spite in the matter at all.

Coun. Doherty said this [illegible]

The report of the committee was then adopted.

Coun. Miller from the Finance Com. reported on the application for a grant of $150 to the Citizens' Band, recommending that owing to some doubt existing as to the legality of appropriating town funds for such a purpose, the request be not granted at this time.

Coun. McLennan said he felt sorry to see the band's application turned down. Would it not be possible to have a definite agreement made whereby the town would pay the band a certain sum for each band concert given during the summer. Grants were given in other towns and the band here should be encouraged.

The Town Solicitor, Mr. Trueman, was called upon for his opinion in the matter, whereupon the stated that perhaps a fixed rate could be paid the band for services rendered in the way of open air concerts which would come under the provisions of the incorporation Act.

After some discussion of the matter by several of the Councillors, in which the feeling was general that the band should receive some encouragement from the Council, the report of the committee was referred back for further report.

Coun. Mowat from Electric Light Com. asked for permission to purchase an express wagon for the use of the manager of the department in hauling transformers, ladders, wire, etc. Coun. Mowat stated that the manager was using his own horse and wagon without charge for this work but the wagon was too light for some of it and frequently much valuable time was lost in procuring a truckman.

It was thought by the Council that there should be some idea of cost of the wagon presented to them before voting on it and he matter was referred back to committee for further report.

The chairman of the several committees were instructed to submit estimates of assessment required for their respective departments to the Chairman of Assessment Com. before next meeting.

His Worship announced that the Assessors had failed to qualify in the proper time and it would be necessary to have them reappointed or others appointed in their place.

The Council then went into committee of the whole to consider questions in relation to Water and Sewerage.

The Council adjourned after disposing of the report of the committee of the whole.

THE SUMMER TIME TABLE.

To take effect on Sunday next.

The new time table of the I. C. R. takes effect on Sunday next. There is very little difference as compared with the winter time table still in force. No 33 Maritime express going west leaves at 3.40. No 34 Maritime express going east 4.20. No 35 Local express from Moncton arrives at 18.20. No 36 Local express for Moncton and St. John leaves at 6.50. No 39 Mixed arrives from east at 12.25. No 40 Mixed for Moncton leaves at 19.25.

Earl Dundonald retires from British army.

(Special to Events)

London, June 13th—Earl Dundonald, formerly commander-in-chief of the Canadian militia has published an explanation of his resignation from the office of Lieut General of the British army. Dundonald says that he retired because the British authorities offered him no employment since he was turned out of the Canadian militia for paying attention to political corruption in the appointment of officers of the militia. Earl Dundonald also charges favoritism in the British army.

SITUATION CRITICAL BETWEEN U. S. AND JAPAN

(Special to Events)

Tokio, June 13th.—War talk here is apparently on the increase. Leading newspapers this morning publish long accounts and pictures of damage done to Japanese restaurants in San Francisco. It is the general editoral opinion that time for negotiations has passed and that now is the time for action

Beware of imitations and substitutes.

Do not neglect the children

At this season of the year the first unnatural looseness of child's bowels sh uld have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera, and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by all Druggest.

KILLED ON I. C. R.

Mangled Remains of John Sacoby found near Derby Junction.

So fearfully mutilated as to be almost unrecognizable, the body of an Indian, thought to be John Sacoby, of Eel Ground, was found lying by the I. C. R. track, about three quarters of a mile east of Derby Junction, on the northern division, this morning. An empty flask, and a gin-bottle, partially emptied of its contents, were found close by the remains, and the general belief is that the Indian was asleep on the track and was run over.

There is little doubt but that the unfortunate man was ground to death by a north-bound freight special in charge of Conductor Duff, of this city, with Driver Stephen Craig at the throttle. While the brakemen, of this train were passing along the cars at one of the stations north of the point where the accident occurred a splotch of blood was noticed on the trucks of a box-car. Further examination revealed that the lower parts of two or three cars were splashed with blood, while in the trucks were found some pieces of flesh and hair, and a small portion of a man's underwear. So far as known, there was no blood, or flesh on the locomotive.

The crew on Conductor Warman's east-bound freight special from Campbellton made the gruesome discovery of the mutilated body this morning. The train was running along at its usual rate of speed after having crossed the Miramichi river bridge on the eastern side of Derby Jct., when the body was observed lying in the ditch. The train was stopped, and examination proved that the remains were those of an Indian, but none of the trainmen were aware of his identity.

Conductor Warman, who arrived in the city at noon today, said the body presented the most fearful sight he had ever seen. Both legs and both arms had been cut off, while the face was battered beyond recognition. The skull had been badly crushed, the scalp being torn away from the bone from the forehead to the nape of the neck.

The body was taken to Chatham [illegible] and the coroner at Newcastle [illegible] be held.

There is every reason to believe that the remains are those of John Sacoby, who lived on the Eel Ground reserve on the Miramichi River. Early last evening, Sacoby was at Chatham Jct., and announced his attention of walking to Newcastle, which is several miles distant. He started out some time before the arrival of the freight special which left Moncton shortly before eight o'clock last evening. The belief is that Sacoby imbibed frequently from the bottles which were found near his remains, and becoming too drunk to walk farther, laid down on the track to sleep, and was ground to death by the freight train.—Transcript 12th.

At the Yarmouth Y. M. C. A. Boy's Camp, held at Tusket Falls in August I found MINARDS LINIMENT most beneficial for sun burn an immediate relief for colic and toothache.

ALFRED STOKES
General Secretary

SHOT AT BALMORAL.

Peter Fountaine shot by Policeman Seeley this am

Policeman Seeley accompanied by Constable Gallop of Dalhousie went to Balmoral early this morning for the purpose of arresting Andrew and Peter Fountaine for whom they had a warrant. Andrew Fountaine was promptly arrested and handcuffed and Seeley left him with Gallop while he went to another house to arrest Peter Fountaine. Seeley succeeded in the arrest but was set upon by Geo, Galbert.

There was quite a scuffle and the two men got Seely down. Fountaine then tried to get away but Seely got hold of him again and in tussle the revolver in Seely's hand's was discharged, the bullet entering Fountaine's abdomen, causing death a few hours later.

Policeman Seely says he was compelled to shoot in self defence. An inquest is being held. The shooting occurred at 5 o'clock this morning. Dr. Ferguson of Dalhousie viewed the remains.

BEGIN TO ORGANIZE

Opposition Caucus held at Newcastle on saturday.

Messrs. J. D. Hazen, leader of the local opposition, and Jas. H. Crocket, of the Fredericton Gleaner, visited Newcastle, Millerton, Chatham and other places in this county last week in company with Mr. John McKane of Bridgetown. On Wednesday the three gentlemen visited Millerton, where Mr. James Robinson, ex-M. P., resides, and, we presume, thoroughly discussed the political situation with that veteran campaigner.

On Thursday, the Edward Sinclair Lumber Company's mill at Bridgetown was visited. Mr. McKane shut down the works and addressed the men on the political outlook, closing by introducing to them Mr. Hazen, who then spoke to them at some length.

The same day Messrs. McKane, Hazen, Crocket and Robt. H. Armstrong visited Chatham, calling on the Opposition leaders there.

On Saturday evening a meeting was held in Mr. Crocket's room in the Miramichi Hotel at which, besides the above named gentlemen, W. A. Mott, ex-M. P. P., of Campbellton; D. Morrison, and John Morrissy, M. P. P.'s, and others of Newcastle were present.

The opposition are hard at work organizing their following in the county, and it behooves the Government to look well to their own standing if they would win four seats in Northumberland at the next election.

—Advocate.

RICHARD'S NEW BOAT LAUNCHED

Newcastle, June 12th—The Richards Company's new side-wheel, 90 feet steamer Togo, built by H. H. Lamont, was successfully launcehd here this morning in the presence of a large crowd who got up early to see the new vessel slide into the water. The customary baptisimal exercises were dispensed with.
