

PRETTY WEDDING AT DALHOUSIE.

Dalhousie, April 24.—Much interest was created in Dalhousie society circles, by the marriage this evening of Mr. John M. Keith, Manager of one of the Branch Banks of the Dominion of Canada, Winnipeg, and Miss Georgie Haddow, youngest daughter of Mr. Geo. Haddow, Ex-M. P. of Bonaville, Dalhousie, which took place in St. John's Presbyterian church at half past eight o'clock.

The ceremony was performed by Rev. Mr. Kirk, pastor of the church and the popularity of the couple was evinced by the fact that notwithstanding the inclemency of the weather the church was crowded with guests who witnessed one of the prettiest weddings seen in Dalhousie for years. The bride who was given away by her father wore emerald green tulle and tulle and net. The bridesmaid, Miss Agnes Keith, wore white point d'esprit over pale pink silk. Mr. David Keith of Toronto, brother of the groom was best man.

The ushers were Claude Brown and Gordon Turner. The happy couple were the recipients of many beautiful wedding gifts and as an attestation of the high esteem in which the bride was held in church circles here besides a beautiful wedge wood biscuit jar and pair of cut glass salt cellars presented by her Sunday School class, the Presbyterian congregation presented her with five ten dollar gold pieces.

Mr. Keith and bride will leave on tonight's express for Toronto and Winnipeg.

POSTAL DEPARTMENT'S BIG BLUNDER

Ottawa, April 24.—Senator Ellis brought up in the Senate today the increased postage on newspapers to the United States. The minimum rate on Canadian newspapers is one cent per package. The good which the circulation of Canadian newspapers did in the United States was to be seen each year by the large number of Canadians from the United States who took part in the home coming held in the towns and cities throughout the Dominion each year under the new postal rates, the

country weekly which cost \$1 would have to pay 52 cents a year postage and the semi-weekly \$1.04. The result would be a falling off in the newspapers going to the United States. He questioned the increase being in the best interests of the country.

Note.—Senator Ellis understates rather than overstates the situation. The truth is that when the new postal rate on newspapers from Canada to the United States goes into effect on May 8, the post office department will by a mere stroke of the pen wipe out almost every subscription in the United States obtained for a Canadian newspaper. It is the most stupendous blow ever struck in its history against the Canadian newspaper publishing industry. So far as American circulation of Canadian newspapers is concerned, it wipes that circulation out of present existence. On a \$1.09 Weekly the postage will be 52 cts.; and on a \$1.00 semi-weekly \$1.04; and on a Daily going to the United States, the postage will be about \$3.10 per annum. The one cent minimum on individual packages, or single newspapers, is prohibitory; and crushes out in hundreds of cases the American circulation of Canadian newspapers, built up after years of toil. The action of the post-office department, in making such a treaty as incomprehensible as well as indefensible.—Transcript.

The Earthquake District

Chilpancingo, Mexico, which a long with Chilipa, was destroyed by earthquake last week, is the capital of the state of Guerrero and four years ago was visited by an earthquake which killed and wounded many of its inhabitants and destroyed a large part of the town. The population of the town is 7,498. The population of the city of Chilapa is 15,000. Both the volcanoes of Colima and Jorullo are in this region and the people fear that the recent eruption of the earth may cause these mountains to become more active and to destroy much property and many lives. It is now known that 500 people were killed and some 400 wounded.

It has been discovered that the Cathedral in Mexico city, one of the most famous churches in the world, was cracked from top to bottom by the recent earthquake. Cared of Rheumatism. Mr. Wm. Henry of Chattanooga Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. TEARING DOWN FENCE.

In the Supreme Court, last week, the case of King vs. O'Brien, justice of the peace for Gloucester Co. ex parte Leroy, was settled. In this case defendant had been convicted for tearing down a fence and the application was to squash conviction. The court was of the opinion that the conviction should be squashed, chiefly on the ground that as the title to land came in question, the magistrate had no jurisdiction.
