PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

FAMOUS CANADIAN POET PASSED AWAY.

Cobalt, Ont., April 7.—Wm. Henry Drummond, M. D, the famous Canadian poet, who has given delight to thousands upon thousands in Canada, the United States and Great Britain, died here, Saturday.

The deceased was stricken with paralysis on Monday and while his condition seemed improved, he never actually was out of danger since the first seizure.

Dr. Drummond left Montreal for Cobalt a little less than two weeks ago, having been recalled, as it was reported that smallpox had broken out among the men attached to the mining claim, which he and his brother owned.

Dr. Drummond had been greatly interested in Drummond Mine, Cobalt, of which he was manager and chief owner.

Deceased was a son of an officer of the Royal Irish Constabulary and was born at Leitrim, Ireland, in 1854. He was married in 1894 to a daughter of Dr. O C Harvey.

William Henry Drummond, M. D, L. L. D., F. R. S., D. C. L, was born in Currawn Hall, County Leitrim (Ire.) He was the son of the late George Drummond at one time an officer in the Royal Irish constabulary, and his wife, Elizabeth Soden Drummond. He received his primary education in his native county and afterward at the English High School, Montreal. He studied medicine in McGill and Bishop's University in that city, graduating M. D. from Bishop's in 1884. For a time he pursued the practice of his profession in Montreal. holding at the same time the chair of Medical Jurisprudence in Bishop's. He afterwards moved to Toronto.

Dr. Drnmmond was not only a distinguished literary man, but he was also noted for his fondness of all kinds of outdoor sports. He was at one time a noted athlete and was an ex-Canadian amateur three mile walking champion. Besides that he was an enthusiastic hammer thrower, shot putter, canoeist and snow shoer. He was also interested in fly fishing and fish culture as well as game and its propagation and was prominently identified with a number of clubs which had these ends in view. He was vice-president of the Laurentian Club and president of the St. Maurice Club as well as being a member of such organizaiion as the Winchester Weymahegan and the province of Quebec Fish and Game Club, Montreal. It was, however, as a literary man that Dr. Drummond was best known to the general public. He has read and lectured in most of the large cities in the United States, always to large and select audiences. He was in this city two or three years ago when he delighted a very large audience in the Opera House with readings from Johnie Courteau and others of his works. The list of his poems includes: The Habitant, Phil-o-rum's Canoe, Johnie Courteau and the Voyageur, and a volume of verse.

In 1894 Dr Drummond married Miss May Isabel, the only daughter of Octavius Charles Harvey, M. R. C. S., of Savannala-Mar, Samaica, West Indies. He is survived by one son and one daughter.

SCORED ANOTHER WONDERFUL VICTORY

One More Added to the Long List of Cures Effected by Psychine.

This young lady, who lives in Brownsville, near Woodstock, Ont., tells her own story in a few effective words of how she obtained deliverance from the terrible grip of weakness and disease.

I have to thank Psychine for my present health. Two years ago I was going into a decline. I could hardly drag myself across the floor. I could not sweep the carpet. If I went for a drive I had to lie down when I came back. If I went for a mile on two on my wheel I was too weak to lift it through the gateway, and last time I came in from having a spin I dropped utterly helpless from fatigue. My father would give me no peace until I procured Psychine, knowing it was excellent for decline or weakness. I must say the results are wonderful, and people remarked my improvement. Instead of a little, pale, hollow cheeked, listless, melancholy girl, I am to-day full of life, ready for a sleigh-ride, a skating match, or an evening party with anyone, and a few months ago I could not struggle to church, 40 roads from my home. I have never had the slightest cause to fear any return of the disease.

ELLA MURIEL WOOD,
Brownsville, Ont.

Thousands of women are using PSYCHINE, because they know from experience that in it they have a safe friend and deliverer. Psychine is a wonderful tonic, purifying the blood, driving out disease germs, gives a ravenous appetite, aids digestion and assimilation of food, and is a positive and absolute cure for disease of throat, chest, lungs, stomach and other organs. It quickly builds up the entire system, making sick people well and weak people strong.

"For two years she could scarcely do any work. Her knuckles and joints swelled, causing torture. To get ub or down stairs was impossible. She took box after box of Ferrozone and rubbed the sore places with Nerverline. Improved started and she mended fast. To dayshe is quite cured and we thank Ferrozone for her recovery." No remedy more popular with doctors than Ferrozone; it does cure, 50c per box at all dealers.

SECRECY OVER BRITISH NAVAL PLANS

London, April 6—The naval officers attached to the embassies and legations accruing to the court of St. James have found difficulty in obtaining information with regard to Great Britain's naval plans, growing so great that it is next to impossible to penetrate the veil of secrecy maintained at the English naval yards

Great Britain is adopting the policy of her far eastern allies. When the battleship Dreadnought was launched the naval attaches did ascertain some of the secrets of her construction, but that was Great Britain's first attempt to prevent foreigners from gaining information regarding her new ships. A second and more successful attempt is being made in connection with the three giant cruisers, Invincible, Inflexible, Indomitable. The first two vessels are now under construction and the Indomitable was launched recently at Glasgow.

As is customary upon such occasions all the naval attaches were invited to the launching of the Indomitable. They attended, but under Great Britain's changed policy the attaches were placed under the guidance of an officer, who kept them inspecting the boiler shop while they were eager, but too polite, to suggest visiting the Indomitable before the hour of launching. They did reach the ship's side in time to be present at the baptismal ceremony and see the vessel slide into the water, but with this exception everything remained a government secret. The space in which the armor is to be placed was covered with planking, so there were no means of even guessing at the thickness of the armor.

The admiralty has issued orders that the same secrecy be maintained regarding all new ships, and that the staff entrusted to carry out detail of construction be placed upon oath to divulge nothing.

Stubb—"I notice old Rounder don't take any more Turkish baths since he got married."

Penn—"No. His wife keeps him in hot water all the time now."

"There is something rather peculiar about some of the chapters of your sea novel," said the publisher. "Are you familiar with the sea?"

"I should say so," replied the author, haughtily. "I studied the sea while I was working on the manuscript."

"Indeed! And where did you write it?"

"Why, at my home in Indiana, where all the great authors come from."

CLIFTON.

The marriage of Miss Irma Jago of Clifton to Samuel Ramsay of Bathurst took place in St. Georges Church, Bathurst, Monday, March 18th, by the Rev. J H. Hooper.

Miss Sarah Jeffers returned from Janeville Friday after spending a few weeks, the guest of Miss Amie Eddy.

Mr. and Mrs. H. Good spent last Sunday in Salmon Beach, the guests of Mr. and Mrs Heber Battimer.

Mr. James Breckenrigg and Chas. Jennings returned home Saturday after spending the winter in the woods in Campbellton.

Mr. Reggie Jennings returned from Maine last week.

Miss Mattie Renouf returned from Caaaquet to spend her Easter holidays with her parents.

Our recommended Inspector, J. F. Doucet, Bathurst, N. B. visited this school last week and if reports are true found very satisfactory results.

Mr. T. Rodgers pressed twenty-six tons of hay last week for Mr. T Dempsey off Mr. H. Daley's farm, which he rented for one year. Mr. Ed. Jennings now owns the farm.

Our popular agent, A. J. McKenzie drove to the lower end of the county last week and owing to the condition of the roads will likely return by train.

Our teacher, Miss Edna Heastis went to Bathurst to spend Easter holidays.

Mr W. Carrathurs, who came lately to live with his sister, Mrs. W. J. Eddy is much improved in health. The doctors claim by spring he will be restored to health.

Mr and Mrs Horace Hornibrook were congratulated on the arrival of twin baby girls at their home on Mar. 31st

Mr C. Comeau and H. Daley are resuming their duties as fishermen, hauling traps to their fishing station in Janeville etc. [illegible]

Some of the gentlemen of Janeville who had the good fortune of getting a live fox in their trap led him home by a rope to surprise the children and having tied him to a post entered to find the children but returned instantly to find Reynaard gone. He had gnawed the rope and escaped to the bush.

Mr W. J. Scott of Salmon Beach, who is lumbering for P. Mahoney this winter expects to be through Wednesday April 2rd.

Mrs H Stevens of Boston is still visiting Mrs Frances Scott.

Mr. Albert Ellis spent Sunday in Stonehaven, the guest of Miss E. Collins.

Mr and Mrs Robt. Miller of Bathurst spent Sunday in Clifton the guests of Mr and Mrs Robt Knowles. If rumor speaks clearly Mr Miller is about buying Mr Duncastor's farm as he intends leaving for U. S.

On March 29 an aged and respected resident in the person of Mrs. Robt. Ellis, sr. passed away at the home of her son and daughter at the age of 77. Mrs Ellis though aged was wonderfully active, in health and about her work till last fall, she was stricken with paralysis and rallied through it up till Friday morning when she was stricken again but was able to speak comforting words to those about her until a few moments of her death. She leaves to mourn her loss two sons and three daughters and five grandchildren. Her remains were interred in the Methodist cemetery on Sunday 31st. of which she was an active member. The funeral was largely attended.

The many friends congratulate Mr. and Mrs Frederick Comeau on the arrival of a bouncing baby boy, April 3.

Who Gets the Most Out of Life?

Not the wealthiest, not the most learned, nor the idler—but the man who has good health and works for his living. This truth is trite, but not trivial.

Every man should guard his health as his most valuable possession. The more so because health is easier to retain than regain.

Keep your grip on health by regular exercise, reasonable care in eating and requisite sleep. Take Beecham's Pills occasionally, to tone the stomach and keep the liver and bowels in good working order. And don't worry.

Observe these simple rules and you will agree that the one who gets the most from life is

Do You Weigh Enough?

Everyone of average intelligence knows something of the immense value of Cod Liver Oil and Iron as remedial agents. Consequently no one would be surprised to hear that very satisfactory results had followed from giving "FERROL" (a perfect emulsion of Cod Liver Oil, Iron and Phosphorus) in cases where Iron and Oil appeared to be needed.

But, when we ask people to believe that in an actual and scientific test made by an eminent and well-known physician, twenty-five bottles of

FERROL

were given to ten patients and the result was a net increase in weight of ninety-five pounds, we are aware that we are asking a great deal; nevertheless we are prepared to prove that this is an absolute fact, by evidence that no reasonable person can reject. Moreover, this is no isolated instance, but only one of many equally remarkable.

Very few people properly appreciate the importance of maintaining their normal weight.

There is no surer indication of approaching disease than a considerable loss of weight and even where this is not the case, a man whose weight is not up to the average is always in danger of contracting any of the germ diseases which are unfortunately so prevalent. On the other hand, while his weight is well maintained, a man is practically proof against attack, and if disease is already present, the fact that the weight is being increased is proof positive that the disease is being overcome.

The desirability of maintaining the weight should therefore be apparent. In view of this we can confidently recommend "FERROL" as the surest, speediest and most effective medicine by which the weight may be maintained or restored.

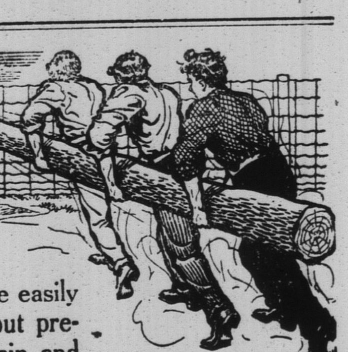
Practical Elasticity



"Maritime" wire fences are made of a coil-spring wire that holds the coil shape and not only makes the fence easily adaptable to rough, holey, ground, but prevents the possibility of sudden strain and breakage as well.

"Maritime" wire fences need few posts; twenty or thirty feet apart is near enough. Every post saved reduces the cost.

Moreover a long panel between posts enables the fence to better encounter any sudden shock.
