This year the amount paid was \$29,166.80, and last year the total amount was \$27,662.19, an increase of \$1,504.61. Not so many large heads have been secured this year, probably because of the destruction in the last two or three years. Nearly 600 non-resident sportsmen have visited the province, and it is estimated that 5,000

The entries for the Maritime Winter Fair are in excess of any previous years, and from a wider range of territory, and also a greater variety. As an object lesson this fair offers opportunities, never equaled before in the Maritime Provinces.

FLOCKS OF GEESE.
Five large flocks of wild geese passed over the town yesterday on their way south. Very few geese or brant are offered for sale this year. This is said to be due to the fact that many hunters are using rifles and have scared the birds well beyond gun shot.

TO MOVE LARGE BUILDING.

WEDDED AT NEW CARLISLE.

Miss Edith Barter, of Grand Cascape, was married to Andrew Smith, of Hopetown, at New Carlisle, on Monday, the 25th instant. The ceremony was performed by Rev. Mr. Tattler. After the wedding the party, accompanied by their friends and relatives, drove to the A. and L. S. Railway station, where they took the train for Vancouver, B.C., which place they will make their future home.

I. C. R. WILL BENEFIT.

Indications are that the I. C. R. will share to a greater extent than ever before in the winter port business. Already considerable freight has come over the government road, including quantities of apples and pears. It is every prospect that the business in all lines will steadily increase. The recent decision of the Railway Commission with reference to Grand Trunk routes by the I. C. R. is believed to be in a measure responsible for the coming of this business.

BARN DESTROYED.

About 11.30 o'clock yesterday morning a fire was discovered in the barn of George Duncan on Ostrard Street, West End. An alarm was quickly sent in and the fire department responded promptly, the barn being full of hay was a mass of flames in no time. The firemen devoted their efforts chiefly to saving adjoining buildings. The origin of the blaze is at present unknown. It was first detected by some men who had just been paid off at the I. N. R. office. They at once started to render what assistance they could, and succeeded in removing the cattle and some of the farm machinery before the fire had made much headway. Mr. Duncan's loss will be quite heavy, as practically his summer's hay was stored in the barn, which is of course a complete loss, along with numerous other articles.

THE ORIGIN OF GALL STONES.

They are simply dried bile, made up of crystalline constituents of that fluid. Very common is this disease among merchants, clergymen, shop girls and those of sedentary habits. Prevention consists in maintaining correct action of the liver and bowels. Which is best accomplished by Dr. Hamilton's Pills. No person using this medicine need fear gall stones, nor will they ever be bilious. Sound digestion, good appetite, a clear complexion, evidence of health giving properties of Dr. Hamilton's Pills, which are the safest and best for general family use. Assist in having only Dr. Hamilton's Pills of Montreal and Butternut, 25c per box at all dealers.

We do not believe there is a person in this vicinity who cannot be benefited by Vinol at this season of the year. Vinol is delicious to the taste, and it is recognized as the greatest strength creator for old people, weak, sickly women, children, nursing mothers, and after a severe sickness.

Vinol is unequalled for hacking coughs, chronic colds, bronchitis and all throat and lung troubles. Creates an appetite and makes those who are too thin, fat, rosy and healthy.

We have had so much experience with Vinol, and seen so many wonderful results from its use that we prefer to return money without question if it does not accomplish all we claim for it. A. McG. McDonald, Druggist, Campbellton, N. B.

BALMORAL.

Thursday. The old Blundel Road between Shannon Vale and Blundel has been reopened through the agency of Hon. C. H. LeBlond and William Currie, M.P.P. This road has not been used for a number of years although it was generally needed by the people of Lower Balmoral and Shannon Vale.

The importance of the new road can easily be imagined by the fact that last Sunday over fifty persons went to Shannon Vale church to attend services, whereas if this road had not been opened not a single person would have gone there, and the same would have been true of the people of Lower Balmoral five miles nearer to the town of Campbellton, where the farmers will find a ready market for their produce in this thriving and prosperous town.

Thanks to our local M.P.P.'s for this great convenience.

John J. Arsenau is in Campbellton today.

D. A. Arsenau left Monday for Upsalgrutch and Truberton on business connected with his office.

Rev. Father Melanson paid Campbellton a visit this week.

The new church in Balmoral will be formally opened on Sunday, December 8, and the people expect that Rev. Father Wilson will be in Balmoral to celebrate the first mass, as he is the Father of the new church, and will be a welcome guest of his old parishioners of Balmoral.

Mr. John N. Dicoite returned from St. John where he spent a few days this week.

Much sympathy is felt for Mr. Paul Dugas, who had the misfortune of breaking his leg. He is now in the Hotel Dieu, Campbellton, under the treatment of Dr. Martin. We wish him a speedy recovery.
