TUESDAY, OCTOBER 20.

The objection to allowing large tracts of public lands to pass into the possession of corporations is that their interest is to keep their holdings until the growth of the surrounding country enormously increases their value.

The one exception was the 250,000 acres of the St. Lawrence Valley, sold to the St. Lawrence Valley Land Company. But that company is now departing from the principle of the land for the settlers.

The company has not yet been organized, but it is expected that it will be organized in the near future. It is expected that it will be organized in the near future.

A New York bill collection says that the hardest people to collect money from are those who have none and those who are very rich.

Prof. Tribert of the Pasteur Institute at Paris has come out in favor of the old practice of burning sugar in sick rooms to sweeten the air. It is now said to be a good disinfectant.

A device is on exhibition in Toronto for harnessing the waves of the ocean; but if the inventors really wish to make good, let them tell us the age of the sea by examining the teeth of the storm.

All sorts of reasons are being advanced for wanting divorce these days. A New York woman wants her wedding knot untied because her husband is excessively religious while a Gotham husband wants a divorce on the ground that his wife's cooking is abominable.

Like most ministers' families, they were not extensively blessed with this world's goods. She, however, was the youngest of ten children, and her father told her of a baby sister that had come in the night.

SOME REASONS WHY.

Why should the electors of the county of Restigouche elect James Reid?
Why should every elector put aside party prejudices and vote to elect the Liberal standard bearer?

These are questions which every elector should settle for himself, and to assist him to arrive at the proper conclusion, namely to cast his vote in favor of the Liberal candidate, we have written these few lines.

In the year of Conservative rule, down to 1896, what public works, what harbor, mail or other improvements were undertaken in this county? You can answer this in one breath.

Since 1896 or since the Liberal government came into power, what has been accomplished? Let us enumerate a few of the great works which have been successfully completed, together with those under way and some which are projected.

At Campbellton we have the purchase and enlargement of the deep water terminal, new post office, improvement of the L. C. R. shops and station and harbor dredging.

At Dalnour, a fine new wharf and pier have been built. At Dalnour, a fine new wharf and pier have been built. At Dalnour, a fine new wharf and pier have been built.

BLACK CAPE

(Special News Service.)

BLACK CAPE, Wednesday.—Much credit is due to Mr. Seabrook, manager of the Atlantic and Lake Superior Railway in having our station nicely fitted up.

A most addition has been erected at the west end of the station for a waiting room and ticket office, and the old one will be used as a freight shed.

We also understand that a siding is to be placed there which will be quite convenient for shipping purposes. Mr. and Mrs. John Steele and Nov. Carls are on a short visit last week.

The many friends of Mr. James Reid are pleased to see him around again. Mr. J. B. Henderson had a car of goods on Saturday, and is today loading another one. Seventy cents per barrel is being offered.

DALHOUSIE

(Special News Service.)

DALHOUSIE, N. B., Thursday.—The trouble is being continued from all sides for the very first time since in today's issue of the two largest political meetings which were ever held in Restigouche county, and which took place on Wednesday.

Which town will give Mr. Reid the largest majority, Campbellton or Dalnour? is the question that is being asked as election day approaches. Several of Mr. Marcell's friends from the parish of Nouvelle were in town today and concluded arrangements with the members of the Liberal committee to hold a public meeting at the Dalnour school house on Saturday.

RIA The True Test
It's value is not the price you pay but the style, comfort and fit you get. Don't imagine that all tailors work alike. Nor the goods alike in garments sold at similar prices. Not at all. Good, bad and indifferent describes it. Some excel. We make it a point of honor to give value and perfect fit. Can we do more.

J. R. HENDERSON
MOFFAT BLOCK.
PLUMBING.
Heating by Hot Water Steam and Hot Air
Estimates on above lines will be furnished at any time. All contract work guaranteed satisfactory. Heating by Hot Water and Steam a Specialty.

EXT-OFF
WILD STRAWBERRY
CURES
Dysentery, Diarrhoea, Cramps, Cholera, Cholera Morbus, Cholera Infantum, Sea Sickness, Summer Complaint, and all Fluxes of the Bowels.

COUPLE OF DOSES CURED.
Mrs. W. J. Wilson, Tinsler, Sask., tells of her experience in the following words: "I wish to tell you of the good I have found in Dr. Fowler's Extract of Wild Strawberry. Last summer my little girl, aged two years, was taken ill with Summer Complaint, and as my mother always kept Dr. Fowler's in the house when I was a child, I aimed to follow her example as I always have it also. I at once gave it to my baby as directed and she was at once relieved, and after a couple of doses were taken was completely cured."

BOUARD BEVEUR, Watchmaker, Jeweler and Graduate Optician, **CAMPBELLTON, N. B.** Repairing of Watches, Clocks, Jewelry Spectacles, etc., a Specialty.
