### LIGHT WAS NOT BURNING FOR DAYS.

MONTREAL, Que., Saturday.—An inquiry into the accident to the Algonquin Virginian, in which that vessel ran into a buoy outside the city, goes to show that the buoy's light had been out for some days and that the marine dept. had not been notified by shipping men. The Algonquin may sue the government for the damage, and Jersey caused.

### MAN KILLED IN ST. JOHN.

Later Despatch Says Deceased Had Been Intoxicated and Roamed on Tracks—Fog Dense.

ST. JOHN, N. B., Sunday.—An unknown man stumbled on the street car tracks Saturday night and was run over by a car. His legs were both broken and crushed to pulp, and later in the evening he died in the hospital. Motorman Smith, who conducted the car, states that the man was too dazed to see the car and it is believed that the deceased was intoxicated at the time of the accident. ### TUBERCULOSIS SERUM.

Remarkable Success Claimed for a French Professor's Treatment.

PARIS, Friday.—Prof. Lannelongue, a well known member of the Academy of Medicine, during three years' investigation of tuberculosis, has obtained results which he modestly describes as "satisfactory" but which several of his colleagues in the academy declare mark a noteworthy step in the campaign against consumption. The professor experimented with tubercular animals, treating them with a special serum. The results obtained were so successful that he decided to experiment on man. "In making researches of this sort," said the doctor, "it is impossible to be too careful, and the results obtained by one man are not enough. This is why I conferred my ideas to four other physicians, Drs. Comby, Lenoir, Negry and Kuss, so that they might practice the treatment upon their patients." The experiments made upon human beings have been with serum of the donkey, and the results have been remarkable. The conclusions reached by the four physicians are favorable.

**HAD GIVEN UP ALL HOPE OF LIVING.**

**Heart Trouble Cured by MILBURN'S HEART AND NERVE PILLS**

Mrs. Andrew Savoy, Gravelton, N.B., writes: "In the year of 1900 I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world could believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law. One day a friend came to see me, and calling me by name, said, 'Listen, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better. I believe those pills are doing you good. I was able to say 'Yes, I feel a good deal better this morning.' He said, 'Well, will you get another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have not been sick since then. I will never be without them in my home for God knows if I had not been for Milburn's Heart and Nerve Pills, I would not have been alive now."

Price 50 cents per box, 3 boxes for \$1.25.

The chief office of the liver is the secretion of bile, which is the natural regulator of the bowels. Whenever the liver becomes deranged, and the bile ducts clogged, liver complaint is produced, and is manifested by the presence of constipation, pain under the right shoulder, yellow complexion, yellow eyes, slimy coated tongue and headache, heartburn, jaundice, sour stomach, water brash, catarrh of the stomach, etc.
