CHRONIC CATARRH

NOSE AND THROAT

"At the Advice of Friends I Tried
Peruna and the Results Have Been
Highly Satisfactory."—So Writes
Mr. Fild.

MR. RAOUIL FILD, 118 Rue Notre
Dame, Leclerc, P.Q., Can., writes:
"I write you a few words to express
to you my satisfaction at being cured.
I was afflicted with catarrh of the
nose and throat and suffered much.
I was greatly discouraged. I had a bad
breath and had taste in my mouth in
the morning.
"I took treatment for some time with-
out obtaining relief. At the advice of
friends I tried Peruna and the results
have been highly satisfactory. At the
end of four months I was completely
cured."
Neglected catarrh becomes chronic.
Having developed into the chronic
stage, a longer and more persistent
treatment will be required to cure it
than if the disease were treated at the
onset.
However, Peruna will bring relief,
whether the catarrh is acute or chronic.
If you are wise you will keep Peruna
on hand and take a few doses at the first
appearance of a cold or cough, and then
save yourself both suffering and ex-
pense.
Patients have the privilege of writing
to Dr. Hartman for free advice. A book
on "Chronic Catarrh" will be sent upon
request.

AN AGREEMENT IS IN SIGHT

Ottawa, Ont., March 8.—A basis of
agreement has practically been reached
between the United States and Canada
relative to the final settlement of the
fisheries question of all the boundary
waters. Correspondence is now being
exchanged between the two governments
looking to the drafting of terms of a
special treaty which will be made be-
tween Great Britain and the United
States. It is understood that provisions
are being made for joint regulations
framed by a board of six commissioners,
three appointed by the United States and
three by Canada in respect to close
seasons, size of nets to be used, grant-
ing of licenses, etc., for the waters of
the Passamaquoddy Bay, St. John River,
St. Lawrence River, westward from the
beginning of the international boundary
at St. Regis, Quebec, Great Lakes, Lake
Champlain, Rainey River, Rainey Lake,
and Jean de Venot Strait, B. C. The
treaty will be for four years and would
probably be continued after that, as both
governments are anxious to end the
present unsatisfactory state of affairs,
which is rapidly leading to the destruc-
tion of fisheries in these waters. By
making an international treaty the in-
dividual states will be bound by its
regulations according to the construction
of the public. Hitherto the chief diffi-
culty in the way of reaching an agree-
ment has been owing to the fact that
each state along the boundary has had
charge of its own fishery laws and a
common agreement could not be reached.
Canada has everything to gain by the
new treaty, as our fisheries regulations
in the waters referred to are much more
strict than has been the case with the
states across the border. The new
agreement will practically mean that the
United States government will adopt the
Canadian standard of inland fisheries
protection. Lake Michigan will be
excepted from the application of the treaty
and to off set this on the Canadian
side Georgian Bay will also be exempt.

EMERSON FOR RAIL- WAY COMMISSION

St. John, March 9.—A report from
what may be considered an authoritative
source has it that Hon. H. R. Emerson
will at once, be appointed to a position
on the Railway Commission, and that
Hon. C. W. Robinson will succeed him
as the Liberal candidate for Ottawa, in
Westmoreland. Premier Robinson is
expected to tender his resignation as a
member of the Legislature, as soon as
the Government resigns, and it is stated
that Mr. Robinson will enter the House
Cabinet as Commissioner of Public
Works.

EMERSON FOR RAIL- WAY COMMISSION

The above opportunity of Hon. Mr.
Emerson will be a popular one, though
many of his friends have long thought
he should have been reappointed Minister
of railways and canals.

MARCH

A bird note thrills the thicket thin
and bare.
And lyric blood is warming yonder
stream;
Hark! through the roughened whistling
of the air,
Spring's reed-pipes echo with a softer
theme.
O hearts that loved this woodland path
last year!
O dear dead feet that went the way of
leaves!
Methinks thine echoes I can sometimes
hear.
Or is it but Earth's loom as slow she
weaves?

A Commission On Pulp Wood

Premier Gouin declares himself ready
to support a proposal that the Federal
Government shall name a Commission to
inquire into the whole question of Pulp
wood export and see what should be
done about it. It would, perhaps, be a
better idea that such a Commission, if
appointed, should represent the Pro-
vincial Governments interested as well as
the Federal; for there are those who
imagine that the most effective and
acceptable way in which the pulp wood
question could be handled would be by
regulations imposed by the Provincial
Governments.

The true policy of Canada is to insist
that our raw material shall be manu-
factured in Canada or Canadian labor and
capital; and that nothing but the finished
product shall be exported. We should
not permit it to be fed into factories and
mills of our rivals, there to employ
foreign labor and pay dividends on
foreign capital. We should not allow
the petty profits of the present to blind
us to the immense profits we can make
in the future by keeping our natural
resources for the upbuilding of our
country.

Island Sardine Schedule

The Deer Island Weirman's Union and
the Maine packers have agreed upon the
following rates for sardines during the
coming season:
April 15 to July 1 \$9.00
July 1 to Aug. 1 6.00
Aug. 1 to Sept. 1 5.00
Sept. 1 to close 4.00
The packers say this is the only schedule
they will recognize.

On the other hand, the president of the general Union says that the rate of \$5, as decided on at the annual meet- ing, will remain without change.
